R. FOOTE, NOW AT SALEM, WILL SOON BE A FREE MAN

Former West Says He Will Soon Be in Case of the Aged Rancher.

NEVER ENTER STATE PENITENTIARY Held in Custody Pending Action on Petition for Pardon.

(Special to The Times.) MARSHFIELD, Sept. 25.—W. R. Foote, sentenced to a term of years in the penitentiary for the murder of Charles Wilcox, who had one of his daughters and a son, will be set free in a few days.

Governor made that plain in discussing the case. The petition of Foote was brought to the attention of the governor by a newspaper.

ITS BLAME ON ROOSEVELT

Man Guthrie at New York Convention Severely Attacks Progressives.

(Associated Press to The Coos Bay Times.) ALTOONA, Pa., Sept. 25.—Attacks on Roosevelt and the policies of the progressive party in the national state marked the address of D. Guthrie, temporary chairman of the Republican state convention.

He said he believed in the great majority of law-abiding and patriotic members of organizations. He said he believed in the great majority of law-abiding and patriotic members of organizations.

TAPT AT ALTOONA.

(Associated Press to The Coos Bay Times.) ALTOONA, Pa., Sept. 25.—Tapt at here today from New York in the celebration of the governors' convention.

MUST BE COOKS.

(Associated Press to The Coos Bay Times.) ANGELES, Sept. 25.—Mrs. Eddy's Superior court decision allowing to several women cases that their husbands would not cook for them.

MADERO WANTS TO MAKE PEACE

Starts New Movement in the Hope of Stopping Trouble in Northern Mexico.

(By Associated Press to The Coos Bay Times.) MEXICO CITY, Sept. 25.—A new movement to obtain peace in Northern Mexico was made today when President Madero and his cabinet instructed the minister of war to offer amnesty to the followers of Pasqual Orozco, the rebel leader.

ment. The revolution in the north, which two months ago was confined principally to the state of Chihuahua, has spread to Sonora, Coahuila and other states. It is only a year since Madero asked congress for an appropriation of 20,000,000 pesos or a loan authorization, admitting that there was less than 30,000,000 pesos in the national treasury.

QUEST FOR THE TRUTH

Christian Science Lecturer Delivers Address to Interested Audience.

Frank H. Leonard, C. S. B. member of the board of lecturership of the Mother Church, the First Church of Christ Scientist of Boston, Mass., delivered a lecture on Christian Science last evening in the Masonic Opera House to an interested audience. The lecture was given under the auspices of the local Christian Science society.

"What is truth? has been the question of ages, is still the profoundest question confronting mankind. Philosophers have sought the answer to this question in the realm of metaphysics. Scientists have delved deep into the earth, have studied physical phenomena, have utilized the microscope to give the eye a keener vision in their quest.

"Through Christian Science, Mrs. Eddy has turned the microscope of spirit on these problems, revealing God, Good, as the only creator of man and the universe, hence as the only intelligence, the only mind.

"Jesus of Nazareth, centuries ago, annulled every material law with the spiritual law. He healed the sick, reformed the sinner, raised the dead. The students of Christian Science are proving the presence of the Christ Truth still with us, that truth which today repeats the new-old message, 'The spirit of the Lord is upon me, because He hath anointed me to preach the gospel to the poor; He hath sent me to heal the brokenhearted, to preach deliverance to the captives, and recovering of sight to the blind, and to set at liberty them that are bruised.'

"We are glad to welcome you here tonight as seekers after truth. We have with us one who can speak to you with authority of this quest in the light of Christian Science. I take pleasure in introducing Frank H. Leonard C. S. B., member of the board of lecturership of the Mother Church, the First Church of Christ Scientist, in Boston, Mass."

Mr. Leonard spoke in part as follows: "A Celt being asked to define a critic, responded, 'A critic is one who is most down on what he is least up on.' No one has ever believed he has criticized Christian Science from the basis of knowing what Christian Science is. Ignorance of this great subject can no longer be excused on the basis of inability to gain correct information as to what it is, whence it comes, and what it accomplishes. Christian Science lectures are given so that those who desire may become familiar with it from the standpoint of those who have studied Christian Science, have applied it and proved it.

The Bible teaching, 'Ye shall know the truth, and the truth shall make you free,' is familiar to all. The question arises, What are we to know the truth about, and from what will this knowing free us? We are to know the truth about God, and this knowing will free us from all misapprehension and false educational theory relative to Him, which has held humanity in bondage and misery, wretchedness and woe, for uncountable generations. Mrs. Eddy started her investigation with the realization that God is, and that as cause and effect agree, all things that really are must be like God in quality and character. So, in spite of the testimony of the physical senses, regardless of the wrong education of the ages, she took her stand against the things temporal though seen, and with the substance of things hoped for but not seen; and the result of this standing revealed to her the glory of God and the great Truth relative to Him, which is the foundation of all the redemptive and healing work that is accomplished in the ministry of Christian Science—namely, that God is infinite Mind.

In reasoning on this subject of God being infinite Mind as against the belief in a personal God, let

MINERS READY FOR BATTLE

Strikers at Bingham Waiting for First Move of the Operators.

(By Associated Press to The Coos Bay Times.) BINGHAM, Utah, Sept. 25.—Despite active preparations for war, another day has progressed so far peacefully in the miners' strike, but an undercurrent of unrest is becoming noticeable among the ranks of the strikers who demand more pay and recognition of the union. Announcement by the company commissioners that fire arms must be taken from the miners led to open declarations on the streets today that there would be shooting before the act was accomplished. The fifty sharpshooters selected last night among the deputies have not yet been posted in command of the main workings of the Utah Copper Co. When they are it is the general opinion that this will be the signal for an attempt to resume work. Both sides remain firm.

On the part of the miners the situation has developed into a wait for the first move of the Utah Copper Co.

YOUNG WOMAN IS SHOT DOWN

Mrs. Mary Theodorsen Murdered by Greek at Salt Lake City.

(By Associated Press to The Coos Bay Times.) SALT LAKE CITY, Utah, Sept. 25.—The murder early today of Mrs. Mary Theodorsen, followed by the suicide of a Greek, Thomas Tiliagos, brought out a pitiful story of betrayal and mistreatment. Mrs. Emily Whitmer, the girl's mother, relates that she was employed in a restaurant in Ogden where she met and married James Theodorsen, 18 months ago. With the bride not yet 18 years old, Mrs. Whitmer says Theodorsen went to New Mexico and then to Denver, where an attempt was made to sell Mrs. Theodorsen into white slavery. The husband was sentenced to prison. Mrs. Theodorsen was going to the home of her mother from the Greek coffee house, in which she was employed, after her return to Salt Lake, accompanied by her brother-in-law, when Tiliagos stopped her and made a demand for money and then shot her dead. He wounded himself and was trilled some distance by the blood. He was found later this morning dead in a coal bin.

KILLED IN AMBUSH.

(By Associated Press to The Coos Bay Times.) CUERNAVAVA, Mexico, Sept. 25.—Ambushed at Ojo de Agua, Captain Escobedo and seven of his 30 soldiers were killed by the rebels. On receipt of the news here, Snorrita Sofia Moneada, an actress, and sweetheart of Escobedo, committed suicide.

FIGHT WITH INDIANS.

(By Associated Press to The Coos Bay Times.) OAXACA, Mexico, Sept. 25.—After a fight with a squad of Indians at Huayapan, near here, General Rivera reported 32 Indians found dead on the field. Rivera lost two men.

CO. SURVEYOR'S SIDE OF STORY

A. N. Gould Gives His Version of the Controversy With the County Commissioners.

The following communication received by The Times from County Surveyor Gould, is self explanatory. The Times is pleased to give it the same publication and prominence as the former article which was given as a matter of news: Editor Coos Bay Times: My attention has been called to an article which appeared on the front page of your paper of Sept. 19, 1912 issue, and which accuses me as County Surveyor, of defrauding the county; having freely set forth the matter at considerable length as obtained from my detractor, I assume that you will be fair in the matter and publish all the facts in connection therewith.

In the first place, the work connected with the County Surveyor's office has increased to such an extent within the last few years that it is impossible for one man to do it all. In the second place it is impossible to get capable men who are willing to do any and all kinds of work connected with the office at \$5 per day and take their chances in making all of the collections, as I have tried it and they will always take private work first and leave the county work, and I don't blame them either.

You will understand that there is a lot of county surveying outside of Road Work, such as the legal subdivision of sections, running out boundary lines, etc., which the County Surveyor is required to do. This is County work just as much as County Road work, although I have always given the Road Work preference in all cases; although the County pays no portion of the costs of such subdivisional work, the expense being borne by the parties interested in the survey. Under the statute when one or more parties petition the County Surveyor to make a survey, he must serve notice on all parties interested, stating the time when the survey will be commenced, and the expenses are to be paid by the parties interested according to their several interests, but it frequently happens that one or several of the parties interested do

not wish any surveying done and refuse to pay any portion thereof, yet the County Surveyor must do this work just the same, or if his Deputies do it he must dig up the money to pay them out of his own pocket, and wait several years for his money and then the chances are he does not get it, or at the best near all of it. Again the County Surveyor must furnish himself and Deputies with instruments, chains, etc., pay all expenses connected with the work, and it all comes out of his \$5 per day and mileage at 10 cents per mile, besides the loss of time from one part of the County to the other. The result is that I must hire all of my help such as Deputies and Chainmen and pay them a certain amount, giving them steady work and paying them their wages whether I receive anything or not for the work done.

I employed and deputized H. F. Parsons last fall at \$3.75 per day, straight time. Later he purchased an instrument and I agreed to pay him \$4.00 per day, straight time. For his work in the field I put in a claim of \$5 per day for each day employed. For office work I put in a claim for the exact amount paid by me to the Parsons brothers. The statement that L. E. Parsons was made a Deputy by me is absolutely false, as the records of the clerk's office will show.

The report of Judge Hall that at the July term of court, eight roads were ordered surveyed is true, but he purposely neglected to state all the facts in the case. I was present at the time the road orders were made and I told him that it would be impossible to survey very many of them as the viewers had made arrangements to be out of the county most of the interval between the July and September term of court. I set a date on which to meet and survey the first road but one of the viewers was unable to be present and the other viewer and myself made the survey and I made out the reports, maps, profiles, etc., thinking the other viewer would go over the road later. Either one or the other of

JAMES O'DONNELL BADLY BURNED; HIS RESIDENCE IS DESTROYED

MILLIS SENDS HIS THANKS

Work Will Start if Bridge Is Allowed and Local Franchise Granted.

(San Francisco, Sept. 24. C. F. McKnight and Dr. E. Mings, Marshfield, Oregon. Please convey to the citizens of Marshfield assurance of our appreciation and thanks for their very friendly attitude at public hearing in connection with bridge matter. If War Department considers favorably and Marshfield franchise is granted, work will be undertaken at Coos Bay immediately. C. J. MILLIS.

The above from C. J. Millis explains itself. Some time ago it was stated that the Southern Pacific would begin the bridge construction immediately the permission was granted. In this letter Mr. Millis states that immediate work will begin if the War Department acts favorably and if a franchise is granted in Marshfield. The matter of a franchise in this city stands just where it did some time ago. While the Southern Pacific has a franchise in North Bend, the company has not yet been granted one in this city.

TELLS OF VISIT HERE.

Capt. Robert Says Coos Bay Favors Bridging Bay.

The Portland Journal says: The general sentiment of the people around Coos Bay seems to be in favor of the building of the Willamette-Pacific railroad bridge across the bay, according to Captain H. H. Robert, corps of engineers, United States army, who returned from there this morning after holding a public hearing on the subject last Tuesday. Over 200 people appeared at the hearing, although only about 150 remained until it was over, and while there were several protests presented, Captain Robert says the majority of the people seemed to favor the span which the railroad company asks permission to throw across Coos Bay.

Captain Robert says that there is still some data to come from Coos Bay, after which the matter will be considered here and then forwarded to Washington.

In order to familiarize himself with conditions at the Coquille river, Captain Robert went to Bandon last Saturday. The United States engineers are making a preliminary examination there in connection with some proposed improvements, and Captain Robert says that the people there seem to want the improvements very much.

WORLD'S SERIES BEGINS OCT. 8

Games Are to Be Alternated Between New York City and Boston.

(By Associated Press to The Coos Bay Times.) NEW YORK, Sept. 25.—The opening game of the world's championship series will be held in this city, Tuesday, October 8. The national commission declared games will be alternated between here and Boston, one game in each city, until the series is concluded. The Boston club will control the sale of tickets in that city. This is a victory for President Ban Johnson of the American League.

STAND BREAKS DOWN.

(By Associated Press to The Coos Bay Times.) TULSA, Okla., Sept. 25.—Just after Roosevelt concluded a 15-minute talk here, the grand stand from which he spoke collapsed. A dozen men, most of them Civil War veterans, were thrown to the ground. Roosevelt ran back and gave aid and saw that no one was seriously hurt. He waved the crowd back. "It's all right," he shouted, Roosevelt appealed to the Democrats of the South to stand with the Progressive party.

Will Probably Die as Result of Injuries He Received this Morning.

CONTENTS OF HOME WERE TOTAL LOSS

Fire Started from Roofing Cement Being Heated on the Stove.

WILL LIKELY DIE. This afternoon, O'Donnell's condition was critical. When he was treated at the hospital it was found that he was burned on the head, face, arms, shoulders, back and chest. The burns are over such a large surface he probably will not recover.

J. A. O'Donnell was badly burned in a fire which entirely destroyed his home in Duncker Hill this morning. He was attempting to save some of the furniture in the burning house and was assisted by others in extinguishing his blazing clothes or he would probably have been taken to death. O'Donnell was burned in an automobile at Mercy Hospital at North Bend. He was burned about the head and shoulders and very painfully hurt. The fire started in the kitchen. Mr. O'Donnell was making some repairs on his house. Carpenters were building a new porch at the front and new roofing paper was being put on the building. O'Donnell had a material for cementing the roofing paper. It was being heated on the stove preparatory to being used when in some way it caught fire and in a few moments the entire house was ablaze.

All that was saved was the piano. Practically everything else was burned. O'Donnell thought that he could get something more out of the house and went inside while it was in flames, and very quickly his clothing was ablaze. His hat was burned off of his head.

The house was a large one of eight rooms and the loss was probably \$1500. There was no chance to save the building. The chemical from the fire department went out, but there was little that could be done more than to save some of the small buildings at the rear of the lot.

Other houses in the neighborhood were not close enough to be endangered. Two men who roomed in the house lost all their personal effects. The house was insured and it is understood that the loss is at least partially covered.

WILSON WINS BIG VICTORY

Carries Every New Jersey County Except One in Senatorial Fight.

(By Associated Press to The Coos Bay Times.) NEWARK, N. J., Sept. 25.—That Governor Wilson won a sweeping victory in the New Jersey primaries yesterday was evident from the returns today. In his fight to prevent the nomination for United States senator of former Senator James Smith, Jr., Governor Wilson carried the state by a plurality of nearly, if not quite, 20,000, retaining in every county except one, Essex, the stronghold of the Smith forces. The Morning Star, owned by Smith, concedes the nomination of Hughes. It is believed practically all of the Wilson candidates for nomination throughout the state, with the exception of Essex county, were successful. On the Republican ticket Senator Frank O. Briggs received uncontested endorsement.

WILSON VOTES.

(By Associated Press to The Coos Bay Times.) PRINCETON, N. J., Sept. 25.—Governor Wilson came here yesterday for the first time since he has been a presidential candidate. He was escorted by a procession of students. The former president of Princeton University drove to the voting booth where he voted for William Hughes, candidate for the Democratic endorsement for the United States senate, against former Senator James Smith, Jr. When the Governor came out of the voting booth he mounted a step and talked about bosses and trusts.
