DEAFNESS CANNOT BE CURED by l'cal applications, as they cannot reach the diseased portion of the ear. There is only ton way to cure deafness, and that is by con stitutional remedies. Deafness is caused by an infamed condition of the nucous lining of the Eustachian Tube. When this tube is infamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be de stroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflammation of the nucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by extarrh) that cannot be cured by Haa's Catarrh Cure, Send forcirculars, free.
