

Royal Baking Powder

Absolutely Pure

Royal Baking Powder exceeds others in leavening power, in purity and wholesomeness, and is used generally in families, exclusively in the most celebrated hotels and restaurants, by the United States Army and Navy, and wherever the best and finest food is required. Teachers of cooking schools and lecturers upon culinary matters use and recommend the Royal.

Royal is the only baking powder made from Royal Grape Cream of Tartar. It is admittedly the best and most healthful baking powder made.

When you know what is best, please ask for it.

LOOKS GOOD FOR COOS BAY

PROMINENT PORTLAND FIRM ESTABLISHES BRANCH AGENCY HERE AND EXPECTS GREAT DEVELOPMENT.

One of the indications that the outside world is looking on Coos Bay as a harbor of importance is the new arrangement that has just been completed whereby Balfour, Guthrie & Co., the largest flour and grain shipping concerns in the world, are establishing a branch on the Bay, with F. S. Dow as manager. Mr. Dow has just returned from Portland, where the arrangements were completed. He advises us that the firm looks for great things at this point and says that without a doubt with a completion of the railroad Coos Bay will be one of their important shipping points.

Balfour, Guthrie & Co., with headquarters in London, have warehouses in every port of prominence in the world and are probably the largest grain buyers in the northwest. Owing to the fact that they are first hand dealers this move will probably have the effect of materially reducing the price of all grain and grain products in this section, and, at the same time, furnish a direct market for the dried fruit of this section, the Cascara bark and such other local products as can be handled foreign.

The steamer Breakwater brought down a very heavy cargo, consisting principally of stocks for the various warehouses controlled by 'Jr. Dow throughout the county.
