### Does Advertising Pay?

I have been asked this question many times, sometimes even sneeringly.

**Live, Honest Advertising Always Pays.**

**Interesting Advertisements Are Always Read.**

Let us put LIFE into our ads and make the advertising columns as interesting as the news columns.

### It Will Pay Us All

"Life is real! Life is earnest" was not written about advertising, but we can put "life" and "earnestness" into our ads and make them "thrill" and PAY.

I have used more advertising space in proportion to my business than any other merchant ever used in Marshfield.

I have obtained results which many never believed possible.

I have never made an untruthful or exaggerated statement in my advertising.

### That's Why it Paid

I have sold 65 DAYTON BICYCLES SINCE DEC. 23, 1911.

I have made good without question any defective part shown me.

I have sold the best bicycle ever offered in Marshfield for the price.

Do you know of one buckled frame in sixty DAYTON BICYCLES? No!

Can you stop six bicycles of any other make without finding one buckled frame? No!

That's why I sell so many DAYTON bicycles.

We are now selling bicycles at very low prices.

Not **Cheap Bicycles**

But **Bicycles Cheap**

#### MAIL LEAVES AT NIGHT.

Winter Schedule Goes Into Effect on Tuesday at Local Postoffice.

The winter mail schedule went into effect yesterday. The mail goes out now in the evening, instead of the morning. This is because the stage to Roseburg leaves at night, instead of in the morning, a plan which is always carried out in the winter season. The mail for outside points now closes at 5:30 p. m., so letters which are expected to go out must be in the postoffice before that time.

## STEAMER GETS AWAY SAFELY

The Hardy, After Trouble on the Bar, Sails for San Francisco.

The steamer Hardy, which had trouble on the bar when crossing out at 4 o'clock yesterday afternoon, got away safely. The Hardy was loaded with lumber from the C. A. Smith mill and in addition had aboard nearly 200 empty oil drums and oil barrels. It is not known just what happened but the vessel while on the bar listed heavily to one side and then turned over to the opposite side. It is thought that probably the lashing broke and allowed the cargo to slide. The deck load of lumber and the oil drums and barrels were lost but the vessel finally righted herself and after staying around the whistling buoy for about half an hour started toward the south, so was probably not damaged. The oil drums floated about and during the night landed at Bastendorf's beach and in the neighborhood of Arago lighthouse. The loss of the drums at this time is inconvenient as the Standard Oil Company is having difficulty in supplying oil on account of a shortage of drums on the Coast.

#### THE MAN WHO KNOWS IT ALL.

Every town has a man who knows it all. If he is at a ball game, he knows exactly when the umpire is wrong and can tell you every time a player makes a mistake, says the Observer. If he is at a horse race he will inform you where a certain driver lost the race. At the whist party he will tell you how you could have won another trick by playing differently. In short, he knows it all the time. It doesn't pay to argue with him. You can't knock any of the conceit out of him and you will only lose your temper. Don't argue with a man who knows it all. The only possible thing you can do is to try to tell a bigger lie than he does, and then you want to tell it last.
