Uncertain.
When women vote the polls will close. And then the man who always knows just how results are bound to swing about it will not know a thing.

Polled carefully the district may have been before election day. To find how each to lean inclined. But can't a woman change her mind?

She may have been determined to proceed to vote her ballot true. For Jones, but is that up and down sure proof she will not vote for Brown?

She may have been determined, well. But it would not be safe to bet that she, regardless of advice, may not have shifted once or twice.

In the beginning she had thought to cast her little vote unthought. For one who when she came to look allowed his wife to be the cook.

A dozen reasons might be found to cause a shifting all around. She might discover e'er too late He didn't wear his necktie straight.

We'll have to reckon with all this when woman enters into bliss. For she'll be governed anyhow. The same as men are governed now.

No more than man can put aside His prejudice can woman hide. The little item that appeals. And she will vote the way she feels.

COOS BAY GIRL HONORED.

The many friends of Miss Marjory Cowan were very much delighted this week to learn of her election to the office of vice president of the senior class of Eugene University. Miss Cowan is well known on the Bay, having lived here the greater part of her life and is very popular with the young people, who rejoice with her in the new honor.

News was also received last week of the election of Miss Gertrude Sherwood, a popular young lady of Coquille, as secretary of the sophomore class of Oregon University. These elections certainly speak well for our Coos county girls.

HIGH SCHOOL PICNIC.

Despite the forbidding aspect of the weather last Saturday morning, the day proved to be an ideal one and the crowd of High school and Central school teachers who went to the beach on the Alice H. enjoyed the outing immensely. They landed at Charleston Bay and walked over to the light house.

Debate—"Resolved, That a round roost is more conducive to the health and happiness of a chicken than a square one."

Affirmative: Miss Beasie Flanagan, Walter Jensen; negative, Max Reigard and Chester Isaacson.

The affirmative side to verify their view of the question produced a chicken, to more clearly prove that a square roost cuts off the circulation of blood in the chicken's foot, while the negative side presented communications from a poultry journal in which were statements made by three presidential candidates, Wilson, Taft and Roosevelt to the effect that on the contrary, a square roost was much more comfortable for a chicken; also Mr. Isaacson of the negative side stated that the subject was a most important one and that one of our greatest writers, Shakespeare, even turned his attention to the subject of "chicken roosts."

During the wait for the judges' decision on the debate, Prof. Morris of the public speaking and commercial course department was called upon for remarks. He stated, in part, that he was highly pleased and very much impressed with the enthusiastic spirit in which the society had taken up the work; that he believed a literary society to be a very important factor in English and public speaking courses.

Mr. Morris also stated that he was pleased with the program, and that he hoped for a rapid and successful growth for the society for the future.

The judges returned with a vote of two to one in favor of the negative side. A business meeting followed and the officers elected for the society were: President, Chester Isaacson; vice president, Sidney Clarke; secretary, Miss Hazel Powers.

Max Reigard was appointed as a committee of one to solicit new members and Miss Esther Silverman was unanimously elected faculty critic of the society.

The new president, Chester Isaacson, was then called upon for a "speech," to which he responded in a very becoming manner.

He said that he was delighted in the growth of the society from 10 to 35 or 40 members and also that the High school now had a quartette and an orchestra under the direction of

LOOKING AHEAD

Stop looking backward upon a pathway strewn with regrets. The past is gone forever; the future lies before you. LOOK AHEAD! The man who is farsighted enough to see two, three or five years ahead is the man who makes a success in life. You don't have to look very far into the future to see a remarkable development in Marshfield, but look wisely. A prospective investor last week when shown an attractive piece of property remarked, "That looks like a good buy right now, but two years from now it may be shanty town. I want property where I am protected by building restrictions." That man is far sighted and believes in looking ahead.

There is but one restricted residence district on Coos Bay and that is PERHAM PARK. This property is close in, within a few minutes' walk of the postoffice, and can be bought on easy terms, a small payment down and the balance in two years. SEE REID ABOUT IT.
