

HIGH SCHOOL NOTES

MARSHFIELD HIGH SCHOOL SONG

Purple and Gold.

Here's to the High school whose colors we wave;
Hurrah for the purple and gold!
Here's to the school ever true, ever brave;
Oh, long may her glory be told.
Bright be forever her glorious name—
Bright as the stars and as lofty her fame;
Hall! Hall to the High school whose colors we wave;
Hurrah for the purple and gold.

Purple the haze as it floats o'er the hill;
Hurrah for the purple and gold!
Purple the emblem of power and of will;
Hurrah for the purple and gold!
Golden the sun in the heavens of blue,
And gold for the hearts that are loyal and true;
Hall! Etc.

Then we'll all cheer together for dear Marshfield High;
Hurrah for the purple and gold!
Cheer till our voices shall reach to the sky;
Hurrah for the purple and gold!
Shout till her praises shall spread far and near—
Shout till the hills shall reecho our cheer;
Hall! Etc.

General Notes.

The County High School association will meet at Coquille October 12. Matters pertaining to athletics, oratory, debating, county lecture course will be considered. The annual election of officers will occur at this meeting.

The commercial department night school will begin work October 7, evening at 7:15. The enrollment has reached 15. Twenty students would be more convenient to handle than 15, and for that reason an attendance of that many students is urged.

An exchange says that from a money standpoint (which is commercial enough, to be sure) a college education pays. Considering a class of 269 men graduated in 1901, they were earning an average of \$700 each the first year. By the third year they had risen to \$1200, by the fifth to \$2000, to \$2700 in the eighth, and in 1911 they were getting on an average of \$3800 each. These figures represent probably a higher average than the public ought to pay college men, but the investigation seems to show that the public wants the services of college trained men.

The records of Marshfield High school students in other institutions will be watched this year and reports of their work will be sent in to the High school office from time to time from the several schools.

The addition to the faculty this year has made it possible for each teacher's work to be confined to studies in his own department. The advantage of this is obvious, as each subject is now taught by a specialist in that branch, and the instruction is all that can be desired. Very few, even of the larger schools, have the advantage of us in this respect.

Mr. Barker has ordered enough books of College Songs so that there will be one for each seat in the assembly room. This will make the Friday singing ever so much more enjoyable.

Domestic Science.

The work in the grades is progressing well. The Fifth grades of both buildings are planning to make large outing hats of braided raffia. Baskets, doll hats, belts, mats, book-marks, etc., are other things that the other grades want to make.

The Sixth and Seventh grade boys of the High school have begun netting hammocks out of seine cord, which they will be able to use themselves.

The sewing classes are nearly through with their samples of dress-making stitches, which they have made as a foundation for the rest of the year's sewing.

The High school cookery class has canned peaches, berries and tomatoes and have bought most of their own work.

Eighteen ladies met to discuss the advanced class in cookery. Others sent in their names and there will be at least 22 names in all. Fancy cookery, dietetics, chemistry of food,

invalid cooking, left-overs and general plain cooking were decided upon as subjects for the course. The first lesson is to be Wednesday of next week at 3:15 in the High school kitchen.

Botany.

Students have been making a study of the development of a seed through experimental work in the laboratory.

Science Department.

Experiments on the preparation of hydrogen were carried on this past week, and despite the explosive mixture which hydrogen forms with air when burned, no damage was done. The experiments afforded amusement as well as opening of the field of chemistry farther to the class.

In physics the work has been on more familiar topics—the laws of motion and every-day, practical problems, involving velocity, acceleration and time were worked.

Eighth Grade.

Some excellent history papers were handed in by different members of the class in a test given this week on the constitution. Among the best were papers from Ruth Cowan, Marie Sargent, George Graham, Monroe Upton, Helen Dow, Rudolph Hillstrom, Milton Johnson, Mae Church and Walter Lewis.

Edward Hongel of Ferndale has been absent this week on account of illness.

Sixth and Seventh Grades.

The Sixth and Seventh grades wrote spelling tests this week. Those making 100 per cent were Ruby Cooley and Guy Clausen of the Seventh, and Glenda Farrell, Charles Doane, Harold Haines, Ernest Whereat, Arthur Whereat, Violet Roberson, Ruth McLaughlin, Ernest Drews, Helen Gulovson, Wilma Hoagland, Carol Rahskopf and Agusta Micklin of the Sixth grade.

The Sixth grade reproduced the "Mintotaur" in their English work. The Seventh grade studied "The Gold Bug."

Hutton O'Connor has left school to go to California.

There has been no one absent this week.

Fourth Grade.

Ernest Lee was absent Monday and Tuesday, attending the fair at Myrtle Point.

The dramatization of the stories is participated in with a great deal of pleasure.

Third Grade.

The Third grade B lost two pupils by removal, William Nelson to Coquille and Pearl Lapp to Riverton.

Second Grade.

Mrs. Magnus was a visitor on Wednesday.

Myrtle Conklin has entered the Second grade.

The migration of the birds and the scattering of the leaves and seeds were illustrated by the pupils in

drawing and paper cutting.

Mrs. Hoagland visited the room on Wednesday afternoon.

First Grade.

Myrtle Johnson, Ilyn Shelton and Lorna Wilson were absent this week.

Central School.

The following are newly registered pupils of the Central school:

First B—Alice Douglas, Wilder Immel, Chauncey Hurd and Meredith Ziegler.

First A—Edna Kronholm and Clara Hurd.

Second—Lewis Anderson, Estelle Lash, Eugene Jones, Marjorie Foulkes, May De Merritt, Edwin Swanton.

Third—Della Terry, Milton Epperson, Violet Maher.

Fourth—Dewitt Lash, Ethel Davis.

Fifth—Atta Lash, Helen Terry and Jesse Marlow.

Sixth—Ruth Golden.

Seventh—Gilbert Johnson, George Terry and Fred Dye.

Arthur Johnson of the Third grade has left school to go to Salem.

Ernest and Elva Johnson of the Fourth grade have withdrawn.

The pupils of the Seventh grade have subscribed for Current Events. The paper will be read, instead of their readers, once a week.

Ruby Turner and Eva Wyatt have withdrawn from the Sixth grade.

The Second grade has not had an absence this week.

The pupils of the grades are painting autumn landscapes, grasses and fall flowers.

Those who have been absent from the Central school during the first week are as follows:

First B—George Westerberg.

First A—Arthur Upton, Louis Ballinger.

Third—Bert Why, Archie Van Camp, Izetta Wasson.

Fourth—Lee Vincamp, Mabel Kong, Alice Flanagan, Rose Perkins.

Fifth—Raymond McKeown, Clara Coleman.

Sixth—Eddie Ellerbeck, Virginia Clark, Russell Quartermas.

Seventh—Reino Kosonen and Chester Lenet, who is suffering from blood poisoning in the hand.

MYRTLE POINT MUSINGS.

Items of the Week from the Columns of the Enterprise.

Born—Thursday, September 26, to Mr. and Mrs. Dale Barker, a son; Friday, September 27, to Mr. and Mrs. Albert Barklow, a 10-pound boy.

E. Baker made a business trip to North Bend Monday. Returning on Tuesday, his sister-in-law, Miss Eckhoff, accompanied him and the young lady will visit for a few days at the Baker home.

D. E. Tripp, an engineer from the Southern Pacific Co.'s San Francisco offices, was in town yesterday looking after the interest of the company's patrons in this section, and incidentally gathering statistics for the company's publications. Mr. Tripp assured those with whom he talked here that the Eugene-Coos Bay railroad is a certainty.

B. C. Schull and E. P. Mast and families leave this week for their old home in the east. They expect to be gone all winter and will visit points in Missouri, Kansas, Tennessee and North Carolina before returning.

Messrs. Nat Clarke and Pat Dwyer, former residents of Curry county who of late years have made their home in California, arrived from there last week. They have disposed of their holding in California and may invest in Southwestern Oregon again.

Hon. Binger Herman left on yesterday morning's stage for Roseburg, after spending a week looking after the improvements being made on his property here. While here he ordered the old landmark, which years ago contained the Masonic and G. A. R. hall, in fact is said to have been the first lodge room in Myrtle Point, taken from the corner of First and Maple streets. Gus Bender is taking the building down, and will use the lumber for framework and sheeting for a residence he will have erected on his lots in the Bender & Border Addition.

Ernest L. Perrott and Eula M. Price, both of Coquille.

William A. Squier and Ida H. Eisner, both of Coquille.

LIBRARY NOTES.

The new Travel number for October has been received. The reproductions of photographs in this magazine are beautiful enough to frame.

"Babylon and Beyond" leads one through the storied country of Harun-el-Rashid, where the simple folks still believe in the direful effects of comets, and where travel means a swaying camel ride through insupportable dust, heat and wonderful ruins.

"Picture Towns of Europe" this month introduces us to the country of the donkey, romantic beggars, the Moorish palaces and Roman ruins. The sunlight of its landscape rings out the sharp shadows in the illustrations.

In the articles mentioned above and in the others in Travel for October, besides the views, a most noticeable feature is the maps accompanying each description.

The Century for October has another one of the series of articles on drugs by Charles B. Towns. It is called "The Drug-taker and the physician," written conservative and with scientific accuracy. It is a terrible indictment against opium, alcohol, cocaine and other deadeners of brain and soul.

The library is in the Coke building, opposite the Chandler Hotel and is open from 10 to 12 in the morning, 2 to 6 in the afternoon and 7 to 9 in the evening. Marshfield, Portland and San Francisco papers are on file.

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Noire Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urtic difficulties by day or night.
