Home From San Francisco.—J. M. Upton and Judge John F. Hall have returned from San Francisco, where they went to try the case of Herron and others and the Oregon Coal and Navigation Company, involving valuable tide lands in Marshfield. They finished trying the case, but the decision will not be handed down until the February term.

Went to Bandon.—O. A. Stillman, candidate for representative in congress on the Prohibition ticket, left this morning for Bandon, where he will speak tonight. He will probably speak tomorrow night in Myrtle Point and Thursday at Roseburg. Mr. Stillman's plans further are not fully made, but he rather believes he will travel quite extensively through Southern Oregon.

Finds Fraternal Pin.—W. B. Holdiman, district manager of the Woodmen of the World, is another person who is convinced that the people read The Times want ads. Saturday morning he lost a W. O. W. watch fob charm in the post office. It was found and brought to The Times office. The found ad appeared in the paper Saturday evening and before 6:30 Mr. Holdiman came to The Times office and secured his charm. Times want ads get results.

Favors Good Roads.—Bennett Swanton who returned last Friday from Portland via Roseburg expresses himself as being more than ever a firm advocate of the good roads proposition. He says that he "bumped the bumps" in good style on his homeward journey and is sure of the fact that the majority of the bumps had an elevation of 75 degrees. Mr. Swanton states that, in the Looking Glass country, there are prunes in abundance and also that any amount of very fine apples are obtainable at the extreme low price of 25 cents per box. He also states that Neve Harry, surveyor, is at work on the Coos county end of the road but nothing is being done on the Douglas road. Mr. Swanton left this morning for a couple of days' business trip to Coquille.

Hold Rally Day.—Yesterday was rally day at the Christian church Bible school. The entire morning hour was given up to class exercises, interspersed by special musical selections by the choir and others, making a most pleasing and attractive program. The Bible school, as shown in the reports, has more than doubled in attendance since the coming of the present minister, Rev. Z. O. Doward. The evening service was also a rally service at which reports of the church progress were read, showing 28 additions to the membership during the same period. Mr. Doward's address on "What is Religion," held the interest and attention of a large audience and the service was made especially attractive by the special musical program rendered by the choir and the male quartet.

READY FOR GAMES.
Myrtle Point Boys Are Training for Football.
About the Myrtle Point football team the Enterprise says:
"The foot ball practice at the Myrtle Point High School has commenced in earnest. The shower bath has been installed for some time. The boys are turning out fairly well and there are from sixteen to eighteen out every evening. There are seven old-time men back and several others have had considerable experience. The prospects of a winning team are good. Bandon, Coquille, Marshfield and Myrtle Point have organized teams this year, and the first will probably be played a week from Saturday, although nothing definite has been arranged. The faculty and student managers of the several schools meet at Coquille next Saturday to arrange the schedules for the different events for the coming season."

MUST LEARN TO RIDE.

New Order Makes Trouble for Infantry Officer.
WASHINGTON, October 14.—The time allowed infantry officers of high rank to learn to ride expires today. It has been discovered by the government that all of the infantry officers, even those of "high rank," are not expert enough to make cross country rides at full speed and jump hedges and ditches, so they were instructed to acquire the art. Tests have been held at Fort Meyer, near this city. The order has met with objection, because engineer officers maintain that it is the duty of the engineers to build walls, dig ditches, etc., for other people to vault over, but that they should not be forced to jump them on strange, incapable, shying steeds.
