NORTH INLET NEWS.

(Special to The Times.)

Mr. and Mrs. Sylvester Johnson of North Bend spent the past week on their ranch here, and returned to their home in North Bend today.

P. H. Pinkerton and bride returned from Portland on the steamer Breakwater and are at home here. Mrs. Pinkerton was formerly Miss Mattie Brown of Clinton, Missouri. The happy couple were married in Portland on Tuesday last.

Wm. Howard is remodeling and adding to the residence lately purchased by him, formerly occupied by Robert Hope and family. When completed it will be one of the most attractive residences in this locality. J. H. Pinkerton and son are the builders.

Mrs. J. B. Jacobs of North Bend was a recent guest of Mrs. Sylvester Johnson and Mrs. J. H. Pinkerton.

Miss Grace Howard who left on the Breakwater last Saturday will arrive in Montreal today, enroute to Boston where she is to be married next week.

AFTER BLACK SANDS.

Los Angeles Man Will Mine in Coos and Curry.

The following is from the Port Orford Tribune:

James Whitney of Los Angeles, who has been in Coos County for the past year looking up black sand mines, was in town a couple of days since our last issue, returning from a trip to Rogue river. Mr. Whitney has a machine which he says is the "only thing" for saving the beach gold. He says he is going to operate on both Coos and Curry county ocean beaches.

NEW TELEPHONE LINE.

Company Organized to Connect With Sixes Country.

The Port Orford Tribune says: Elk Sixes Telephone Co. has been organized and a line will be immediately put up as far north as Elk river. The best metallic system will be used, and the line will eventually be extended to upper Sixes. The incorporators of the company are Willis T. White, Sr., Wm. Gillings and John McKenzie. For brevity it will be known as the Six Elk line and will be managed along the same lines as the Southern Curry Telephone Co.

SHOW CONSPIRACY.

Lawyers for Becker Endeavor to Prove His Innocence.

(By Associated Press to The Coos Bay Times.)

NEW YORK, Oct. 19.—Jack Rose and Bridgie Webber, two state's witnesses against Becker, themselves made oaths against the life of the gambler at least a month before the murder, it was testified today. It was testified that Rose declared after the murder "on the memory of his dead mother" that Becker had nothing to do with the killing of the gambler. The testimony was elicited by the defense in efforts to prove for Becker that here was a conspiracy on the part of the four informers, Rose, Webber, Harry Vallon and Sam Schepps.

WILL TAKE PART.

Germany is to Participate in the Panama Exposition.

(By Associated Press to The Coos Bay Times.)

BERLIN, Oct. 19.—German participation at the Panama exposition at San Francisco is practically assured, it is understood here, although neither government nor the commercial bodies interested have yet taken a formal decision.

Compelling motives are the desire to foster in every way friendly relations with the United States at a time when German-American co-operation, particularly in the Far East, is extremely desirable, and the fact that the fair will be a veritable clearing house for the commerce, not so much of the United States, as of the nations of the Pacific coasts of South America and Asia.

ONE MINE WORKING.

Utah Copper Company at Bingham Is Operating.

(By Associated Press to The Coos Bay Times.)

BINGHAM, Utah, Oct. 19.—With a force swelled to approximately 1000 men, the Utah Copper Company is mining about 10,000 tons of ore daily, half the normal output. The company declares, and the strike leaders deny, that many of the men who walked out are returning to work.

GREAT AIRSHIP EXHIBITION Saturday and Sunday, OCTOBER 26 and 27.

NEWS OF PORT ORFORD.

Happenings in That Locality as Told in the Tribune.

The steamer Brooklyn called in late Monday evening and received about half a million shingles for shipment to San Francisco.

A. G. Miller, who has been nightwatching in the shingle mill for the past year, has resigned his position and has taken the contract to furnish cedar logs for the mill the company will soon have in operation.

E. J. Loney has signed a contract calling for 50,000 cedar ties. The most of these ties will be sawed out by the mill which the shingle mill company expect to have in operation by the first of next month.

A. B. Carey was in town the latter part of last week on his way to his stock ranch near Corbin. The place has been rented for several years to Messrs. Nelson and Tanner, but Mr. Carey will assume charge again in the near future.

On Friday, October 11, 1912, Justice M. T. Wright performed the ceremony which united in marriage Andrew Ellis and Miss May Myers, two popular young people of Elk river. The groom has leased M. L. Barrett's Elk river farm.

A crew of men composed of Henry Adolphsen, Steve Spoerl, Carl White, Robert Rorrin and Bernal Forty, under the supervision of Forester Milbury, commenced last week to build a government trail from Salal Springs to the Ranger station on Middle Elk. The work will take about three weeks.

NEW ROAD TO CURRY.

Josephine County Plans New Highway to Coast.

GRANTS PASS, Oct. 19.—Josephine county is to proceed at once with the improvement of the old government trail running down Rogue River. The government originally built the trail at a cost of about \$15,000, but of late years it has not been kept up and portions of it have become almost impassable. Travel from the lower Rogue has been forced because of this to cross over the West Fork divide and find outlet in the Umpqua valley.

The county court has appropriated for use on this trail all funds derived from the United States government percent allowed from pasturage and other sources from the portion of the National forest within the county. This fund will amount to from \$700 to \$800 annually, enough to repair and keep the trail in good condition. The money is to be expended under the direction of an agent of the forestry service.

ARE IN CONTROVERSY.

Matter of Water Right in Germany Is Taken Up.

(By Associated Press to The Coos Bay Times.)

BERLIN, October 19.—A sharp controversy over principles of conservation of natural resources is in progress here in connection with a bill revising and modernizing the laws of water rights in Prussia. It is one of the most important measures which will occupy the attention of the Prussian legislature at its coming session. The bill declares the most important streams in the kingdom to be state property and provides an estimated revenue from the rivers, after paying all expenses of keeping them in order, of from \$6,000,000 to \$7,500,000 annually.

The committee which has been considering the bill is composed almost exclusively of representatives of the big landholders and has given the measure a form which has called forth sharp protests by imposing a fixed charge for all water taken from the rivers by factories and cities, while the farmers are to be allowed to take free of cost all that they need for irrigation or other purposes.

Commercial bodies are highly dissatisfied with the bill in its present form and a great meeting of protest, attended by delegates from all parts of the kingdom, has just been held in Berlin.

NEWS OF CURRY COUNTY.

Items of Interest from the Gold Beach Globe.

A petition to the district boundary board praying for a division of school district No. 6 is being circulated and quite liberally signed.

That the growing of citrus fruits can be added to the already numerous resources of Curry county is now assured. Col. Edgerton has in three years brought into bearing a lemon tree which he planted the year he came to Agness.

Owing to inaccurately set signals the Osprey on her last trip from Marshfield grounded on the middle ground just inside the bar, where it lay until the following night's tide when it floated off, none the worse for the mishap.

Rev. Short will start for his home in Douglas county and will be absent for about two weeks. On his return he will be accompanied by his wife and personal effects and be prepared to make his future home here.

Dave Colvin left Sunday in the Queen of Rogue River for Eureka. He had a miscellaneous cargo and towed as far as Harbor, the life boat from the wrecked steam schooner Washcalore, which will be used by the Brookings Co. in building their wharf. Capt. Colvin will bring back a load of freight from Eureka for D. M. Moore.

PARTY TURNS BACK.

Started for Coquille Gathering but Rain Interfered.

Those who intended to attend the good roads meeting at Coquille last night and expected to make the trip in automobiles were disappointed. One party with Hugh McLain, Judge Coke and several others in the machine started out but after going a short distance out of the city it was evident that there was a big chance of their not being able to get back. The first rains on the roads are always the worst and yesterday there had just enough water fallen to make a thin coating of mud which was as slippery as grease. Had the party gone on through, the machine could not have been brought back last evening. Enough rain has fallen to make the roads quite impassable for autos and it will require a dry spell to put them in shape for travel again.

There Is a Reason

WHY CAKES BAKED WITH

Crescent

Baking Powder

NEVER FAIL.

It is pure and wholesome because we use no cream of tartar to combine with bicarbonate of soda to form Rochelle salts. No alum, potash, potassium, ammonia or any other injurious ingredients in any way shape or manner in its manufacture. Furthermore, there is no combination of ingredients that can be formed from the materials used, that are not absolutely necessary for the maintenance of the human system.

\$500.00 Guarantees This Fact. Crescent Baking Powder costs more to produce than the various cream of tartar Baking Powders and we sell it for half the price demanded by the Baking Powder trust.

We give you a one pound can of Baking Powder which is absolutely pure and wholesome for 25 cents. Use Crescent Baking Powder, follow the directions, and your baking will always be successful.

Regulated Heat Makes Perfect Cooking

—The old way of cooking was "by guess and by gosh." Hungry households sometimes were disappointed.

—The new way leaves nothing to chance or accident. Oven temperatures can be absolutely depended upon. Printed instructions make good cooking certain, even for the beginner.

—And in this case the best way also is the easiest way.

—Turning a valve on and off with a single motion of the hand is all the physical labor involved.

—On the modern gas range you can cook delicious meals in half the time and with one-tenth the work that mother used to find necessary.

—We have ranges in different sizes and styles to suit different needs.

—We do the piping—easy terms if you desire.
