

# ROAD IS TO INCORPORATE

### Stated That Bandon & Eastern Railroad Will File Papers This Week.

The Bandon Recorder prints the following regarding the new railroad to that point:

"We are informed from a reliable source that the articles of incorporation of the Bandon & Eastern Railroad company will be filed with the Secretary of State this week. The company will file with a nominal capital of \$100,000 which it is understood will be increased to several million dollars in a short time.

"This is the company that is to build the railroad from Port Orford to Bandon and from Bandon to Grants Pass.

We are informed that the surveys are well advanced along the entire line and most of the right of way has been secured.

This road will mean more to this section of Coos county than anything that has yet been projected and even though the Southern Pacific does build the coast road it will not be one half the value of this one. We are glad to note that the people along the line seem to realize this and are very liberal in the matter of granting right of way.

This is something for Bandon people, and in fact all of Southern Coos and Curry counties, to take great interest in, and the fact that the people are rallying to its support is sufficient proof that they appreciate the work.

The road will not only open up a great section of country in this immediate vicinity and furnish us an outlet to the outside world but

# BAND WILL GIVE CONCERT

will tap a country with unbounded resources all the way from here to Grants Pass and will mean millions of dollars worth of material of all kinds will be transported here by rail and exported through the local harbor.

There are billions of feet of standing timber as well as a great agricultural section and all will be greatly benefited by the new road."

### THIEF OPERATING.

#### Stealing Tools and Clothing From Men at Pulp Mill

A carpenter who is employed at the new paper pulp mill plant at the Smith mill, complains that thieves have been taking tools, coats and other articles belonging to the workmen and thus making them much trouble. He suggests that the matter be given publicity and that persons be warned not to buy anything in the way of tools that the thief might offer for sale.

### SIUSLAW BAR IS GOOD.

FLORENCE, Or., Oct. 21.—The schooner Coquelle left here last week for San Francisco. She will return at once with freight for local merchants. Capt. Robert Jones, of the steamer Roberts, reports the Siuslaw bar in good condition since the recent storm. Soundings taken by the Roberts Monday showed 12 feet of water on the bar. The south channel is now opening up well and the course is northeasterly from the buoy off the bar.

### MYRTLE POINT NEWS.

#### Happenings of That Place Told in the Enterprise.

Born—Saturday, October 12th, to Mr. and Mrs. David Beck of Norway, a daughter.

Harry Guerin and family have left for San Francisco, where they will spend the winter.

C. W. Angel came up from Denmark this week to look after business affairs.

Mrs. A. E. Morton has returned to her home in North Bend, after visiting a few days here, the guest of Mrs. Fannie Dixon.

Clare Dement left Tuesday for Eureka, where he expects to spend the winter.

George Doll, manager of the Libby mine, near Marshfield, was a business visitor here.

Mrs. F. M. Spencer and Mrs. T. E. Bledsoe, mother and sister of Frank Spencer of the firm of Spencer & Shelley, returned to North Bend after a couple of days' visit here.

J. H. Barton, who came here last June from Pennsylvania and purchas-

ed the lots at the southeast corner of Seventh and Spruce streets, and has since erected thereon a neat two-story building, last week unpacked a stock of groceries.

Mrs. Fannie Dixon, who has been spending the summer in Coos county, has left for her home in Los Angeles. Mrs. Dixon is a daughter of Chris Lehnerr, the founder of Myrtle Point and one of the earliest pioneers of this valley.

**WHEW! HERE'S A MAN CALLING AMERICANS DULL AND COWLIKE.**

INDIANAPOLIS, Oct. 21.—"The human mind in its present stage of development is still a thing of prodigious inertia. Originally it is too rare to be viewed with anything more cordial than suspicion. We still have the vague, dull, satisfied, cowlike intellects of the larval stage of the race."

These were some of the observations made by J. Howard Moore, a teacher in the Richard T. Crane Technical School of Chicago, at a meeting of the American Humane Association here today.

Moore spoke on "Evolution and Humanitarianism" and went on to say it would require great persistence on the part of reformers to bring people generally to the new ideals of the brotherhood of man.
