Mayor James C. Dahlman is serving his fourth term as mayor of Omaha, Neb., having received the overwhelming support of the voters of that city. There Is a Reason

WHY CAKES BAKED WITH Crescent Baking Powder NEVER FAIL.

It is pure and wholesome because we use no cream of tartar to combine with bicarbonate of soda to form Rochelle salts. No alum, potash, potassium, ammonia or any other injurious ingredients in any way shape or manner in its manufacture. Furthermore, there is no combination of ingredients that can be formed from the materials used, that are not absolutely necessary for the maintenance of the human system. \$500.00 Guarantees This Fact.

Crescent Baking Powder costs more to produce than the various cream of tartar Baking Powders and we sell it for half the price demanded by the Baking Powder trust. We give you a one pound can of Baking Powder which is absolutely pure and wholesome for 25 cents. Use Crescent Baking Powder, follow the directions, and your baking will always be successful.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional cure, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength in building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
