SECRETARY TELLS.

Dye Testifies in Dynamite Conspiracy Case.

By Associated Press to Coos Bay Times.)

INDIANAPOLIS, Ind., Oct. 23.—In the contents of the dynamite case that only the McNamara and Orlie E. McManis were responsible for the explosion, Miss Dye, former secretary to J. P. McNamara, testified at the dynamite conspiracy trial today that she had seen McNamara and other officials at headquarters when jobs were blown up. Miss Dye was examined by the defense. McNamara kept close to headquarters, a witness said, but Ryan traveled about the country, visiting Indianapolis only once a month. The government had charged that in the dynamite checks payable to McNamara, Ryan showed that he knew the money was being used for dynamite. The witness testified that McNamara signed quantities of blank checks, which were filled in by McNamara as needed. Whitcomb testified that \$30,000 was from Perkins, \$25,000 from Edmond McLean, cousin of Beveridge, and \$25,000 from Gifford Pinchot. He went on to explain that Beveridge returned the drafts after election, three drafts of ten thousand dollars each, begging return to Perkins. Whitcomb said Beveridge held the money until after election before returning it in order to prevent its use in the campaign. He thought the money was sent to Indiana for campaign purposes. "My information," said Penrose, "is that this money was to be used in the event the fund to be sent to Indiana by the National Committee did not reach \$100,000. If the fund fell short it was to be used in making up the balance." Whitcomb said he did not know that to be so.

FEAR D. A. CURRY MAY BE VICTIM

Local Barber Absent Five Weeks in Curry County Without Explanation.

Considerable apprehension is felt here over the long continued absence of D. A. Curry, the well known Marshfield barber. He left here five weeks ago for Curry county to spend a couple or three weeks hunting. Time has passed and no word has been received by Mrs. Curry from him to explain his continued absence nor has any word been received directly or indirectly from him.

As he planned to go into the wilds of Curry county, no word was expected but now Mrs. Curry and some of his friends fear that some accident might have occurred. Unless word is received from him soon, steps will be taken to ascertain what has delayed him.

Man Returns.

Wm. Vaughan of McDonald and Vaughan was alarmed this morning because one of his men who went hunting yesterday failed to return. A searching party started out but they found he was all right, having stopped at a ranch home when he discovered he could not get back to camp before night.

CLAIMS NEGRO USED A KNIFE

Trouble Among Black Population Brings Up in Justice Court Today.

Carroll C. Smith, a negro porter at the Golden Oak barber shop, was arrested last night on the charge of assaulting Mrs. Betty Hickerson and Mrs. Poilack, better known as Mrs. Trollinger, two colored women residing in Chinatown, with a dangerous weapon. Smith was arraigned this morning, his hearing was postponed until 2 o'clock tomorrow to enable Deputy Prosecuting Attorney Lilljeqvist to be present. Smith pleaded not guilty when arraigned.

Jealousy the Cause.

The trouble occurred last evening. Smith had been rooming at the place and Justice Pennock believes that the trouble was probably due to jealousy on the part of Smith over Wm. Greene, another negro, who formerly lived here and who recently returned to the Bay. Greene witnessed the trouble and has been subpoenaed as a witness. It seems, according to the information given by the women to Justice Pennock, that Smith went there and climbed in through a window.

Uses a Knife.

Mrs. Hickerson claims he assaulted her with a knife and she injured her hand and she broke away from him and ran into Mrs. Trollinger's rooms. The latter interfered and she claims Smith attacked her with a knife. She claims he cut a long gash in the back of her waist and also in the front of her dress, a corset preventing the knife going deeper.

Must Appear Tomorrow.

Smith when arraigned denied any knowledge of having dangerous weapons or attacking them with it. He was given his freedom on the promise of his employer, Charles Hunter, that he would appear in court tomorrow. Smith had been drinking some last night. He was arrested in the barber shop by Marshal Carter, to whom the women appealed after Smith had left them. They were badly frightened.

Smith is a former prize fighter and recently fought at Bandon. He is known as "Gunboat."

STILL TELL OF MONEY.

NEW FRANCHISE TO BE SOUGHT

Water Company Prepares a Draft—Says Muddy Water Not Unhealthy.

The Coos Bay Water company is preparing to soon make application for a new franchise. It is now drafting a franchise which it will endeavor to secure from the council. Application will probably be filed soon. They now have it up with some members of the council.

Mr. Corey, the new manager and engineer of the Coos Bay Water company, made the following statement regarding the muddy appearance of the water:

"The color is what is termed vegetable stain and after the first heavy rains in the fall in all timbered countries, where the water supply is obtained, the heavy rains wash the vegetable stain largely from the fallen leaves into the water and even in Portland where the Bull Run water flows rapidly through about fifteen miles of timbered country, and then principally through the Bull Run river, this vegetable stain is quite perceptible, but not so much so as here or at Tillamook and Coast cities generally.

"The negotiations, which I am having with the committee of the City Council, if adopted, include filtration, which will to a considerable extent remove this vegetable stain and from present indications it would appear as though the city will offer sufficient inducement to warrant this expenditure by the water company. This color is from vegetation and is not in any way injurious to health."

BECKER CASE NEARING CLOSE

Defendant's Lawyer Says His Accusers Have Tarnished Name of City.

(By Associated Press to The Coos Bay Times.)

NEW YORK, Oct. 23.—Today was devoted to a summing up in the Becker trial. The state and defense were each allotted four hours in which to present their arguments. The state will conclude this evening whereupon the court will adjourn until tomorrow morning and then will come the charge to the jury by Justice Goff. McIntyre opened for the defense and declared he was "defending an American, not a murderer. His accusers are vile, a lawless degenerate set, who reeking in filth and infamy, have tarnished the fair name of a great city—a city more philanthropic and generous than any in the world."

Shows No Emotion.

"This trial," declared McIntyre, "had its birth in the hearts of four murderers, Rose, Webber, Villon and Schepps, self-confessed assassins, all of whom when it was over would be free men, to murder again if they pleased."

"If others did it," he asserted, "Becker is not guilty and you must find beyond a reasonable doubt that the gunmen did it. If you have any doubt about it the case falls."

McIntyre spoke slowly and evenly. If Becker felt emotion or anxiety for the outcome, his face failed to mirror his thoughts.

Pleads Not Guilty.

"Red Phil" Davison, slayer of Jack Zelig, was arraigned before Justice Goff today and pleaded not guilty to the indictment charging him with Zelig's murder. Justice Goff set October 29 as the date for the trial.

SOUTH JETTY IS FINISHED

Work at Siuslaw River Progressing and Water on Bar Is Deepened.

EUGENE, Oct. 23.—Work on the south jetty at the mouth of the Siuslaw river was finished during the latter part of last week and Johnson & Anderson, the contractors, have transferred all their machinery and equipment to the north side of the river, where work has already started on the north jetty. Hauling rock to the jetty from the quarry on the upper river, which has been suspended for a week or more, will be resumed in a few days and the north jetty will be extended out to the ocean. The south jetty is now completed according to the original plans of the government engineers for improving the harbor. By reason of building the breakwater the water on the bar has been deepened several feet and it is expected that when the north jetty is finished the depth will be sufficient for large coasting vessels to enter the harbor.

BOURNE TALKS ABOUT JETTY

Oregon Senator Says the Bar Dredge Must First Be Tried Out Here.

That there is no chance for Coos Bay to secure an appropriation for the repair and extension of the jetty until the bar dredge has been fully tested out is the statement of Senator Jonathan Bourne, of Oregon. Mr. Bourne has had the matter up with the United States Engineers and conferred with members of the Rivers and Harbors committee and declares that it will not be possible to change the program until the dredge has been given a trial.

Senator Bourne expressed these convictions in a conversation with a Marshfield man at Portland recently. He said that the United States Engineers, including the district engineers, had recommended the bar dredge and declared that it would produce the desired results in the bar improvements. In view of this, he said that the members of congress would not override their recommendations. He said that the engineers had not conceded any possibility of the bar dredge failing and until it was demonstrated that it was a failure, the jetty would have to be deferred. However, in case of failure of the bar dredge he said there would be no trouble in securing the appropriation for the jetty.

Relative to protests from Coos Bay people that the dredge was bound to be a failure, Senator Bourne said the engineers were experts in this line and that certainly the opinions of people who were not experts could not be used to offset them.

This conversation was prior to the decision against the new survey and Senator Bourne was of the opinion that the new survey would be ordered. He declared that he was willing to do everything possible for Coos Bay. He intimated a sort of chagrin to think that Coos Bay people or organizations had not let him know more definitely and more frequently what the people here desired. He said that as one of the members of the joint Senate and House committee of six on rivers and harbors appropriations, he had secured one-tenth of the entire appropriation for Oregon and felt that he was in a position to secure what could be shown that Coos Bay actually required.
