Filling in Track.—The Terminal company has a force of men at work filling in the tracks on Front street.

Company Coming.—The Coos Hotel has received word that the Gormand-Ford company will return Monday October 28 for a week's engagement at the Royal Theatre.

Court Over.—Judge J. S. Coke has returned from Coquille where he has been holding a special session for equity cases. He has a number of cases to be disposed of in chambers.

Party Tonight.—Mrs. L. J. Simpson will entertain at a ball in Loggie's hall in North Bend this evening in honor of her daughter, Miss Belle Stearns, who will leave Saturday for San Francisco where she will enter school.

Masonic Meeting.—There will be a meeting tonight of the Masonic bodies A. F. & A. M. The Master Masonic and Fellowcraft degrees will be conferred. All visiting Masons are cordially invited to attend. Refreshments will be served.

New Auto for Trip.—Judge J. S. Coke will shortly receive one of the new 1913 Cadillacs, a seven passenger machine. He and Mrs. Coke and some friends are planning to take it to California in January and enjoy a month or six weeks' auto tour of that state.

Anniversary Tomorrow.—Extensive preparations are being made for the anniversary celebration of Pacific Commandry No. 10, Knights Templar, which will be held tomorrow evening. It is the fifth anniversary of the organization. There will be a meeting and banquet followed by a dance.

In New Home.—Mr. and Mrs. Dennis McCarthy yesterday moved into their handsome new residence at the corner of Fifth and Johnson. The new home is a seven room house and one of the most artistic and modern homes in the city. Mrs. McCarthy's sister, Miss Mary Clarke, will make her home with them.

No Robbery.—Warner Ogren reported to Marshal Carter yesterday that the home of Mr. and Mrs. Harry Folsom on North Second street looked as though some one had broken into it during the absence of Mr. and Mrs. Folsom. Marshal Carter made an examination but could find no trace of a burglar.

Rigs Mired.—Street Commissioner Lawhorne this morning fixed up the mudhole near the junction of Broadway and Front street. While he was doing it, the big auto truck from North Bend, a Smith Lumber company delivery wagon and several other rigs got mired in trying to get around and they had a lively time pulling them out.

Rebekahs Social.—The Marshfield Rebekah Lodge last evening enjoyed an unusually pleasant social session. About forty were in attendance and an informal program and refreshments made it a meeting that will long be remembered by those present, the older members showing the younger ones that they had not lost all their youthful proclivities.

Makes War Map.—Lee Webster, the well known Marshfield veteran, has just completed the first draft of a map showing the operations of his company during the three years' service in the Civil War. The map shows all the lines of march and counter-march, the great battle fields and their relative positions and is a marvel to all who have seen it. Although Mr. Webster was only about sixteen years old when he experienced the horrors of the great rebellion, he has a most vivid recollection of it.

Locates Here.—Mr. and Mrs. Albert Borup and three children of Minneapolis have arrived in Marsh-

field to locate. Mr. Borup, who has been connected with the C. A. Smith Co. for 14 years, is here to take a position with the Marshfield branch of that company.

Returns from Norway.—M. P. Gulovson returned today from a six months' visit at his old home in Norway.

Nearly Ready.—H. P. Leid is hastening the completion of his new bakery and delicatessen on Second street near Central and hopes to open for business sometime next week.

Child Dead.—The two year old daughter of Mr. and Mrs. Ed Lund living on North Broadway, died today of stomach trouble. She had been ill for ten days. The funeral will probably be held tomorrow.

Gets Auto.—The Breakwater today brought in a 1913 Cadillac for George Goodrum. It is understood that Mr. Goodrum has already sold the machine but it probably will not be delivered until Mr. Goodrum returns.

Freak Corn.—Alva Granby brought in an unusual freak in corn from the Granby ranch on Coos River today and placed it on display at the Chamber of Commerce. Instead of the ears being on the stalk each separate tassel has a miniature ear fairly developed with large grains. It would make a splendid fodder corn.

Fine Concert.—The concert given by the Coos Bay band under direction of Director Fenton at the Masonic Opera House last night is declared to have been one of the best ever given here. There was a fair audience present but not as many as the excellence of the program deserved. Dr. W. A. Toye in his solo parts won especial praise from the audience which showed its appreciation of all the numbers by loud applause.

LIBRARY NOTES.

From now on the recent back numbers of magazines will be in circulation. Colliers, Delinquent, Good Housekeeping, Harper's bazar, Leslie's, Ladies' Home Journal, Munsey's, Saturday Evening Post, St. Nicholas, and Youth's Companion.

These magazines may be taken out three at a time. This does not prevent a member of the library from also taking out a book of fiction and one of non-fiction at the same time. The periodicals may be kept three days. When returned the reader's card must be returned with the magazines or the reader will be liable to a fine of one cent. The reason of this is because every time a book is returned without a card a separate note has to be made of it in order that the reader shall not be responsible for the book after its return. When a card is returned with a book, the card is a receipt of its return.

The Oregon Library Commission has just made the Marshfield Library the distributing center for all debate material in this county. This will mean a great saving of time for the high school students of the county. Whereas before every bit of material had to be returned to Salem, and new received from there (now it need only be sent to Marshfield, and new material obtained there.

The library has received two new maps. One of the United States issued by the United States Land Office is very valuable in that it shows government reservations, railroads and territorial expansion—this includes all possessions of the United States. It is absolutely accurate.

The second map is a railroad map of Oregon, Washington and Idaho. It shows projected railroads as well as actual lines.

PRINTS PICTURE OF CONRAD

American Lumberman Contains Article Regarding Local Man.

The current issue of the American Lumberman of Chicago contains a picture of W. J. Conrad of this city who was recently appointed vicegerent snark of the Hoo Hoo in this locality. In connection with the picture, the paper prints the following: "W. J. Conrad, who has been appointed Vicegerent Snark of Hoo-Hoo in the Coos Bay district, is secretary of the Coos County Tax Association and also secretary of the Coos County Fire Patrol Association. Although a young man he is probably in as close touch with general timber conditions in this part of the State as any other man, as the two organizations of which he is secretary include in memberships practically all of the big timber owners of Coos and Curry counties and part of Douglas county." Mr. Conrad was formerly with the C. A. Smith Lumber & Manufacturing company, but has been associated with the tax and fire associations since their organization and the efficient manner in which he has handled the business has brought him into prominence.

ASK DERELICT RESTORER.

SAN FRANCISCO, Oct. 24.—The need for a derelict destroyer on the Pacific coast was emphasized today in the talk of shipping men by the story of Captain Swenson, of the steam schooner Brooklyn.

Late yesterday the Brooklyn towed into port the wallowing hull of the lumber-laden steam schooner Gualala turned keel up by collision with the tanker Argyl. Poking through a thick fog, the Brooklyn passed within 20 feet of the derelict. Realizing his own narrow escape and the danger in which all other coastwise ships stood, Captain Swenson passed a line through the stern arch of her Gualala and took her in tow.
