VOTE 314 YES.

W E DO not hesitate to say that every voter should mark his ballot 314 X yes, which means a vote for the Malarkey bill, called the public ulitities bill, because it gives the present railway commission of Oregon control of all street railway lines, all heating, lighting and power plants, catering to the public. Our excellent railway commission has accomplished splendid results in their eversight of the railways. If these other public utility corporations are put under control of the commission we may expect equally good results.
