## To the Voters of Coos and Curry Counties:

Since my candidacy for Joint Senator was announced and my platform published and distributed, I have been trying to meet as many electors as possible within the district in order to understand their ideas and learn their wishes.

It has been a surprise as well as a pleasure to me to find my position on legislative questions as set forth in my platform, almost universally approved, and to receive so many assurances of support from members of all political parties.

I have been frank and have tried to state my position fully on all important questions, but if there is any point concerning which you need a further statement, speak to me about it or write me. If I fail to see you, for I cannot meet you all, and I want a thorough understanding with you.

The next four years will witness great developments in this district, that may be gravely influenced by legislation, and it is important that you be guided in your choice of legislators by sound judgment, uninfluenced by partisan prejudice or personal leanings.

I wish it thoroughly understood that:

First, I represent no corporations and never have had any connections with them.

Second, I am allied to no special interest; my own interests are varied and are fairly representative of those of the people of the district.

Third, I have made no promises outside my platform and no personal promises whatever.

Fourth, I am running my own campaign, and am under no obligations, financial or otherwise, to anyone.

Fifth, I have been a resident of the district for 30 years and am familiar with its needs.

Sixth, I am a strictly independent candidate and stand squarely on my own platform. If it is yours, stand with me.

(Signed) J. O. STEMLER,  
Candidate for Joint Senator for Coos and Curry Counties.
