

ROYAL BAKING POWDER

Absolutely Pure

(From a series of elaborate chemical tests.)

Comparative digestibility of food made with different baking powders:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with phosphate powder:

67 1/2 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking powder raised food is shown to be of greatly superior digestibility and healthfulness.

KNIGHTS TEMPLAR.

One of the gayest and most brilliant events of the season occurred last evening at the Masonic rooms when the fifth commandary anniversary of that lodge was celebrated. A large number were present, all the Masonic bodies and Doric Chapter of Eastern Star being represented. The rooms beautifully decorated with the Knights Templar's colors were made more attractive by splendidly gowned ladies and the costumed Knights, which together with the music so exquisitely rendered by Keyzer's or-

chestra made the scene one of grandeur.

Sir Knight C. F. McKnight greeted the people in a short address of welcome and said in part that no welcome was necessary because if the people weren't welcome, the rooms would be vacant. He also hinted that in the course of the evening, Sir Knight E. A. Anderson, and a few of the other young knights might be persuaded to entertain the guests with a rag dance. In conclusion, Mr. McKnight stated that the lodge rooms had been turned over to the occasion and he wished everyone to enjoy themselves to the fullest extent.

Card tables were arranged for those who cared to play and the musicians retired to the banquet room where they furnished excellent music for the dances. A sumptuous banquet was served at a late hour.

50 PER CENT OR 4 PER CENT—WHICH?

DON'T READ THIS if you are content to make 4 per cent on your investment, for it will not interest you. But if you are looking for a safe and sound investment which will net you from 25 to 50 per cent within one year from date, talk with Reid about Perham Park. There will be a big advance in values here on Coos Bay within the next twelve months. You don't have to be told this, you know it and others know it; that is why they are investing heavily in real estate. It's simply a question as to the best values and the quickest returns.

PERHAM PARK is close in property and naturally is the first residence property to advance in value. Some recent purchasers have already refused big advance offers and are now holding for an advance of 100 per cent. Others will not sell at any price, as they are planning to build. Perham Park offers an opportunity for big returns on a small investment by taking advantage of the easy terms you can invest as little as \$75 or as much as you like. SEE REID ABOUT IT.
