

Anybody can attach the plug

The G.E. Flatiron then heats itself in about three minutes and will stay hot without further attention.

### Saves time, steps and fuel

If the washing and ironing are sent out, the G.E. Electric Iron will still be found a marvelously convenient utensil to have in the house. There are many little things women like to iron themselves, and many times it becomes necessary to wash and iron a few handkerchiefs, etc., before the "wash" comes home. When occasions like these arise, and there is a G.E. Iron handy, it is the work of but a moment to attach the cord to a lamp socket—and the iron is ready. Get one today.

## OLD-TIME REMEDY DARKENS HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

For generations Sage and Sulphur have been used for hair and scalp troubles. Almost everyone knows the value of such a combination for keeping the hair of a good even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a hair tonic of this kind was to make it in the home, which was troublesome, and not always satisfactory. Nowadays, almost any up-to-date druggist can supply his patrons with a ready to use product, skillfully prepared in perfectly equipped laboratories.  
An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.  
Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

## ENGLAND REJECTS THE SINGLE TAX

ALBERTA PROTESTS AGAINST HENRY GEORGE SCHEME.

British Columbia Has Not Method of Taxation That U'Ren and Fels Commission Would impose on This State.

BY CHARLES H. SHIELDS  
Secretary, Oregon Equal Taxation League.  
I hate to call any man a liar, but this is a time when I must call an organization of men liars.  
All over Oregon I have heard Single Taxers saying there is Single Tax in British Columbia, there is Single Tax in Alberta, there will be Single Tax in England, there is Single Tax in Quebec.  
I want to take these statements singly and reply to them.  
First of all, as the cut herewith will show, there is no Single Tax in British Columbia. This cut is a facsimile of a receipt for a three-dollar poll tax paid up to December 31, 1912. This receipt was given to W. Howard.  
NO SINGLE TAX THERE.  
Two years ago the Single Taxers secured the passage of a measure as a preliminary to Single Tax. This measure repealed the poll tax in Oregon by purporting to repeal the poll tax.  
So here we have the situation of British Columbia having a poll tax, an obvious proof that there is no Single Tax in British Columbia.  
I may say in addition that British Columbia also taxes banks, manufacturers and other property of various kinds, all of which will be exempt under the Graduated Single Tax amendment in Oregon. Who will pay these taxes? The land-owner and the lot-owner.  
There is a partial application, it is true, of Single Tax, in Alberta. I want to show the result of this:  
Taxes 10 Per Cent.  
In the Calgary Daily Herald of recent date an account was given of a protest meeting of twenty Alberta cities against the Single Tax, which had increased the taxes on land to 10 per cent. Do you want to pay a 10 per cent taxation on your lot or on your farm? If so vote for Single Tax.  
Chancellor Lloyd George of England has just announced that he utterly and entirely repudiates Single Tax, another conclusive proof that there is no intention in England of having Single Tax.  
I have received from the Secretary of State in Quebec the statement that Single Tax has never been contemplated in that province and would not be considered by the government for a single instant.  
One Way to Protest.  
So now you see why I call the people who make these deliberately inaccurate and untruthful statements liars. I cannot call them anything else. Can you?  
If Oregon desires to protest at the ballot box against Single Tax, there are two specific ways in which this may be done. First of all, a vote should be registered 208 X Yes. This will repeal the U'Ren County Home Rule amendment and make Single Tax impossible in Oregon.  
Secondly, a vote should be recorded 268 X No. This will prevent the so-called Graduated Single Tax measure from passing.  
It is just quite up to you people now. Do you want Single Tax or don't you? The Graduated measure is really Single Tax, for by a joker cleverly inserted into it, it becomes Single Tax very easily. So that for just once more I ask you to remember these two numbers—208 X YES, 268 X NO.  
(Paid Adv.)

## THIS MAN THINKS THIRTEEN LUCKY

MOTORMAN 1313 SAYS NUMERAL HAS ALWAYS BROUGHT HIM GOOD FORTUNE.

LOS ANGELES, Cal., Oct. 31.—E. G. Grant, a Pacific Electric motorman running between Los Angeles and San Pedro, has no superstitious dread of the hoodoo number. Upon his breast he wears a badge marked "1313," and here is the way "13" has contributed to his advancement:  
He came to this city on the 13th of March, 1910, occupying berth 13 enroute. He worked here 13 weeks and then, on the 13th day of July, applied for a position on the Pacific Electric. He was transferred to the southern division on the 13th of May a year later and then given badge 1313.  
"Thirteen" again came to the front when he began his San Pedro run. And during all his wanderings with "13" tagging him, this man declared that an accident has never befallen him.  
He has a little song which he hums to himself as his car speeds along the route to the harbor. Here it is:  
"Now, thirteens sure are lucky things,  
And this you all will see;  
For thirteen thirteen on my hat  
Has brought good luck to me."  
Grant's number which many of his friends claim ought to bring the hoodoo upon his trail, has often excited attention. Grant says that on several occasions he has had passengers look with apprehension at the dreaded number as they boarded the car.  
"But when I see what they are looking at," said the motorman, "I assure them that I am a most careful motorman and know the signals by heart. Even then I don't think some of them feel assured."  
"All this stuff about hoodoos is nonsense," he continued. "I used to run a car on the Denver & Interurban road, and there my lucky number was 13. If anything ever happens to me on the 13th of the month, or if that number is in any way connected with it, it is sure to be for my good."  
When Grant was transferred to the San Pedro run and ordered to make his run Friday, the 13th, many of his fellow motormen urged him to lay off a day, but he ridiculed the suggestion.  
"Why should I?" he asked. "That is my lucky number and all I want is a car with a string of thirteens painted on the side, but I guess a car like that would scare away a lot of possible passengers."  
MAN TO MAN.  
Many people of this district are acquainted with my record as Prosecuting Attorney, and will judge for themselves as to whether I have given good service. As public prosecutor, I have done my best to uphold the law. Crime is crime, and I have spared no honorable effort to bring the guilty to justice. No man can fill the office of Prosecuting Attorney and do his duty without making enemies. I have made mine; some of them are influential.  
To the voters I would say, don't accept the statements of enemies or those who want me out of office because I have prosecuted their friends. The purpose of the law is to establish justice, and it has been committed to the Courts to be administered for the protection of society and the punishment of criminals.

Mayor James C. Dahlman is serving his fourth term as mayor of Omaha, Neb., having received the overwhelming support of the voters of that city. His steadily increasing popularity parallels that of a famous medicine he has used of which he writes: "I have taken Foley Kidney Pills and they have given me a great deal of relief, so I cheerfully recommend them." For sale by Lockhart-Parsons Drug Co., the Busy Corney.

## STEAMERS TO HAVE LOOKOUT

Sequel of Titanic Disaster Is to Watch Icebergs.

(By Associated Press to The Coos Bay Times.)  
LONDON, Oct. 31.—A permanent iceberg lookout ship in mid-Atlantic is suggested by the British Board of Trade as a sequel to the report of Lord Mersey on the Titanic disaster.  
At present the plan is being considered by the advisory committee of the Board of Trade. If the proposals are carried out, the vessel will be stationed in the track of Atlantic travel and she will cruise along the boundaries of the ice region. She will then be in a position to warn the hurrying liners by her powerful wireless equipment of the exact position of the various icebergs. The proposed ship will also send warning of drifting icebergs and any derelicts which she may encounter.  
According to reports made to the advisory committee, the most suitable iceberg ship would be about 2,000 tons displacement; 250 feet long and 32 feet broad, with a draft of 13 feet 6 inches. She would have a speed of 10 knots and consume about 12 tons of coal every 24 hours. Her wireless telegraph equipment would be of the most powerful type and widest range.  
The Board of Trade officials express the belief that the stationing of such a ship in mid-ocean would add immeasurably to the safety of ocean traveling.

## WINNING IN DENMARK.

Prohibition Movement Makes Rapid Strides There. (By Associated Press to The Coos Bay Times.)  
COPENHAGEN, Oct. 31.—The prohibition movement has made such great strides in Denmark that during the coming elections the prohibitionists are to make strong effort to secure parliamentary representation.  
Hitherto the backers of the movement have been content to bring pressure upon the candidates of the regular parties in an effort to interest them in the propaganda, but now they feel they are influential enough to be directly represented in parliament.  
In every district where there is a possibility of polling a majority vote they will have candidates for the lower house. This will introduce a novel and interesting feature into the Parliamentary elections which have formerly been a straight fight between the government and the social-democrats.

## WHY THESE PRICES ARE LOW

We have explained why advertised goods sell cheaper than unadvertised goods. The reason is that advertising reduces selling cost. This point is made in a most interesting way in the course of an editorial on advertising in the September Woman's Home Companion, an extra from which follows:  
"A firm that spent \$250,000 annually exploiting a certain article found that the selling cost of it was five cents.  
"For a test it tried to push another article of equal value without advertising it, and the selling cost was found to amount to 46 cents.  
"In other words, if the manufacturing cost of both articles were the same and the advertised one sold for a dollar, the one not advertised would have to be sold for \$1.35 to give the manufacturers exactly the same profit.  
"Advertising pays for itself by increasing the volume of business, which in turn makes possible great economies in manufacturing. It pays for itself by lessening the selling cost, and thus the selling price of a heavily advertised article is lowered."
