

Visitors to Portland Are Invited to Our New Store

—With the completion of this great retail establishment a new era in merchandising is introduced. Greater and broader fields in commercial activity are opened up. An epoch emphasizing the power of price—of quality—of courtesy—of efficiency—and the sterling worth of service dawns with this new store.

—To the people of Oregon, that we must receive and serve, we recommend our army of co-workers, who, imbued with enthusiasm and pride, eagerly await your commands and stand ready to fulfill their duty. This is a store for all the people, and its contents represents the genius of all the world.

—If you are in Portland you will surely wish to visit this store, with its million of dollars' worth of new goods, many special exhibits and many new innovations.

—This store is, in many respects, unique; it represents an aggregation of stores, each one complete of its kind, all under one roof, with stocks so varied that your every demand may be met and filled to your entire satisfaction.

—The conveniences of the store are at your command—free parcel checking rooms, rest and retiring rooms—writing desks, telephones, postoffice, directories and information bureau.

—The picture galleries—the display of art wares and other European novelties on the sixth floor are special attractions. The Oriental Rug Bazaar—the exhibition of imported gowns, furs and coats, the display of infants' wear and junior wear are worthy of your inspection.

—The Great Book Store—the largest west of Chicago. The wonderful Linen Store and the exclusive Shoe Store—The Jewelry Store—The Doll Show—The Hair Goods Store—are especially interesting.

—Altogether this store—the finest in appointments in America—makes one of the principal points of interest for visitors to Portland. On the Mezzanine Floor we set apart the major portion for the public as a rendezvous, a place to meet your friends. Make it your headquarters while in Portland. Welcome.

—At this season of the year the arrival of Holiday Goods transforms this store into a "fair"—an exposition to which you are especially invited. The display is for your pleasure—you will never be urged to buy.

SIX CHILDREN IN 13 MONTHS

Triplets Twice in Pennsylvania Family in Little Over One Year.

(By Associated Press to The Coos Bay Times.)

FRANKLIN, Pa., Nov. 1.—Six children in a little over 13 months is the remarkable birth record in the family of Stephen Nagotte of Frenchtown. Mrs. Nagotte has bore 15 children in 12 years, of whom 13 are living. On September 10, 1911, she gave birth to triplets, two girls and a boy and this week three boys, arrived, 13 months and 3 weeks after the other trio.

VALUABLE INFORMATION FROM MANY SOURCES.

Mines of the United States last year yielded \$2700 worth of diamonds, \$9500 worth of emeralds and \$215,313 worth of sapphires. At Adon, Arabia, the water is pumped from the sea, condensed and sold at 73 cents for 100 gallons. All food is imported.
 During the last three years a quarter of a million new telephones have been installed in various farmhouses throughout the country. The steel entering into the manufacture of automobile wheels during last year amounted to 15,000 tons in this country alone.
 Tokio has more than 800 public baths where more than 300,000 persons bathe daily at a cost of about two cents.
 White seaweed from the Kentish coast is used by London milliners for trimming hats.

SOME THINGS STEMLER ADVOCATES.

My study of the legislative needs of the State and of this district has determined me that, if elected, I shall endeavor, in addition to the general matters set out in my platform to promote special legislation, along the following lines:
 The general appropriations of the last legislature exceeded \$5,000,000 and there is a crying need that proper system be introduced into the handling of this vast amount of money. I shall try to see that the same business methods which I use in conducting my own affairs and which govern all good business men, shall be adopted by the state in conducting its business.
 The present election laws are the result of numerous different enactments passed during a series of years, and should be simplified and codified so that while preserving the safeguards to the ballot the expense would be lessened and election officials and voters alike could readily understand the requirements of the law.
 The game laws should be simplified so as to be readily understood and the law should be drafted with reference to the peculiar climatic conditions of Coos and Curry counties, the local habits of the game therein, the requirements of settlers and the convenience of hunters and fishermen.
 There is at present no provision for the distributing of money received from automobile licenses and a law should be enacted so that this money would be equitably divided to the counties for the maintenance of their roads in accordance with the needs of each county, and the expense of maintaining roads therein.
 The Legislature should memorialize Congress to enact laws that would allow of the rapid and easy taking up by honest settlers of agricultural lands within the forest reserve, also to give national aid to the building of roads.
