**To Buy Timber.**—Parties are understood to be negotiating for the purchase of the North Bend Lumber company's mill and also reported to be trying to buy the Merchant Estate's tract of 800 acres of timber on Coos River. Nothing definite has materialized in negotiations yet.  
**Railroad Work Delayed.**—Herman Larson who returned yesterday from the Sluslaw where he has been dredging a log boom says the rough weather is delaying the construction of the Southern Pacific line from Eugene down the Sluslaw, making it almost impossible to get in supplies. Rough weather has prevented the bringing of the steam shovel to Gardiner for work on the tunnel. Mr. Larson is dredging about 104,000 yards for the Sluslaw mill.  
**Was Fine Car.**—The Cadillac car which George Goodrum brought in the other day on the Alliance for A. H. Powers and which was broken in unloading, was a rather notable car. It was the first 1913 auto to reach Coos Bay. It was the finest ever brought here and contained more modern equipment than any car ever seen in this section. Mr. Goodrum is greatly disappointed by the accident which put it out of commission before it was ever operated.  
**Fish Plentiful.**—Foreman John Lamure of the Tallant Cannery reports that the run of silversides in the Bay is better than it has been for some time. About three tons of fish are being handled daily now. Mr. Lamure succeeded in saving a cask of 800 pounds of mild cured salmon, which was shipped from Rogue river to the Tallant company here on the Osprey. The cask was washed ashore without damaging the contents, which were worth about \$85.

**PARDON THESE BLUSHES.**

(From Bandon Recorder.)  
Our friend M. C. Maloney of the Coos Bay Times has the honor of being responsible for the first airship flight pulled off in Coos county, and again shows his enterprise as the greatest newspaper man and booster that Coos Bay ever had. The Times is always there with the goods and puts up a neat, clean paper that the people are anxious to get, and he does not have to resort to cheap contests to get the people to subscribe for his paper. "Mike" is all right and is giving Coos Bay more and better advertising than she ever had before in her history.

**Excelsior Motorcycles Will Lead All Others In 1913**

John L. Koontz is congratulating himself these days that he is the Coos county agency for the famous Excelsior Motorcycles of the year 1913. The Excelsior made a great record in 1912 and promises to surpass it in 1913.  
Recently in the race for the Considine trophy at Seattle, Archie swept the board and carried off everything in sight with his motorcycle. He won the 5-mile, the 10-mile, the novelty, the mile race, the Considine trophy and the \$100 in cash. There was nothing to it but the Excelsior from start to finish.

**The New 1913 Excelsior**

Mr. Koontz is in receipt of a letter from the Excelsior branch in Portland in which they tell of some of the good things in the 1913 model. They say:  
The Excelsior is going to be a hummer for 1913 as we have seen in already and they have the following improvements: The front fork has more clearance and the tank is a one-piece affair, with two braces on the inside, the valve pockets are lined with a special machine, the pump is on the inside and a lock on it, or rather a catch to stop people from giving it all when you don't want it. The striping is some different. The rims are quite a little heavier—I mean more metal in the rims to prevent them from kinking so easily, and the enamel is better.  
I got the first shipment in last Tuesday and they are going to get hot cakes already. I presume that you know that the Mod. 7. C. and 7. B. are not made any more and in future the Mod. 7. C. and 7. B. also the 4. B. and 4. C. or the seven and eight and the Four Chain and the Belt are all the models that we will have henceforth. All others being discontinued. Several days ago the Excelsior won the Chicago hill race in the remarkable time of 1:45 and the best the 9 h. p. Excelsior did was 1:48, and again in Los Angeles the Big X won the race.  
And everywhere the Excelsior is in the front rank and making good.  
Don't buy a motorcycle until you see the new Excelsior.
