facing one of the most critical weeks in its history. It may end in war, in which the whole continent may be involved, or it may be remembered as a week in which diplomacy succeeded in solving problems that appeared insoluble before. On one side of the Balkan peninsula there is an acute conflict between the aims of Austria-Hungary and Serbia, which if not arranged might start a general European outbreak. On the other side King Ferdinand's Bulgarian army is at the point of entering Constantinople and that will be resented by Russia. The existing jealousies are so intense that it will take much pressure to induce either Austria or Serbia to recede from its demands. Austria, in fact, takes so seriously the advance of the Serbian force toward the port of Durazzo that she has despatched a steamer there to remove the Austrian residents when the Serbian troops arrive.
Serbia's friend, Russia, is also preparing for eventualities. Besides keeping her time-expired men in the army, she is mobilizing her forces. At Sebastopol transports have been prepared to convey the Russian troops across the Black Sea and her arsenals and commissary departments are working day and night.

SEND SHIPS TO TURKEY.
PHILADELPHIA, Nov. 12.—The armored cruisers Tennessee and Montana sailed today for Constantinople to safeguard American interests in war-stricken Turkey.
Zest to the trip and inspiration to the stokers was given, it was learned today, when the crew of the Montana bet the bluejackets on the Tennessee that the Montana would arrive in Gibraltar 12 hours ahead of the flagship. The warships sailed under sealed orders, but their known destination is Constantinople.

Peevish Children Suffer With Worms
Don't be angry with your child because he or she is continually irritable. In ninety-nine out of one hundred cases you will find that the trouble is worms. Among the common symptoms of the presence of round worms are nervousness,—which often leads to epileptiform attacks;—dizziness, vertigo, capricious appetite, restless sleep, itching of the eyes and nose, nausea and often hysteria. Round worms are several inches in length and infest the stomach. Occasionally several hundred are found in a single person. Thread worms are smaller, often not longer than a quarter of an inch. The symptoms denoting their presence are about the same, but in this case the child has no appetite. Jayne's Tonic Vermifuge is unsurpassed in removing worms. Not only will it destroy them, but its tonic effects will restore the stomach to healthy activity. As Jayne's Tonic Vermifuge seldom purges, the indications of its beneficial effects will be the improved condition of the person using it. Millions of parents have praised this medicine for more than eighty years. Insist upon Jayne's Tonic Vermifuge, and accept no other. Sold by druggists everywhere. Dr. D.
