CLASH WITH WATER CO.

North Bend City Council Refuses

to Pay Hydrant Bill.

The North Bend Harbor says: Manager Corey of the Marshfield

Water Co. presented a bill for \$530

claimed to be due for installing five

hydrants and for hydrant rentals.

This charge the council has persistently refused to pay on account of the company's utter failure to

give good service. The council stands ready to pay for the hyd-

rants attached to the tank on the

hill, but as the others are entirely useless and as the water committee

has for nearly three years endeav-

ored to get eatisfactory service from

the company does not feel that the

city owes the company a penny for

LET US TALK IT OVER

"I come not friends to steal away your hearts, I am no orator as Brutus is; but as you knew me all, a plain, blunt man I only speak right on,"—Shakespeare.

THE Marshfield City Council meets tonight to consider the application of the Coos Bay Water Company for a new thirty years franchise at considerable advance in water rates.

The Times thinks that it has already presented sufficient facts and figures to prove that this franchise should be promptly and emphatically refused for many reasons.

The Coos Bay Water Company is already in possession of a fran-

thise that runs for seventeen years. They have violated many of its provisions and if granted a new one there is no assurance but that the people will be accorded the same scant and unsatisfactory service. The length of time of the new franchise is too long and the rates

Roseburg, where a private company operates and pumps water, which is brought sixteen miles, furnishes service to private dwellings for \$12 per year, while Marshfield residents pay \$18 and under the new franchise, this is to be increased to \$23.70. Ashland, Oregon, pays only \$6 to \$15; Portland \$9 to \$15; Tacoma, \$6 to \$9; Senttle \$7.20 to \$9; Los Angeles, \$6 to \$9. These are all Pacific Coast cities and Jurnish a basis of comparison with Marshfield. Conditions Among Sultan's

The Coos Bay Water Company desires a long time, high rate franchise so that it may go out and sell the plant at a high price, or sell honds, and increase the capitalization for future profits. If the city must furnish the security and the streets, why not build Its own plant and let its citizens pay the money to the city that will redound to their own benefit and profit later?

There is not one reason why this franchise should be granted and

there are a hundred why it should be refused.

The council should turn it down hard.
