ALLEGANY BRIEFS.

(Special to The Times.)

U. S. Shaver is putting the finishing touches on his fine new two-story house. He built the house himself and has been nearly two years doing the work.

Bert Gray is erecting a large storage house on his place.

Clarence Gould got all his logs out on the freshest and delivered them at the Simpson mill without the loss of a log.

SAWMILL INVOLVED

Bane Plant Near Port Orford Has Been Closed.

The Bane sawmill, on Sixes river, has been having some trouble. The following regarding the matter is printed in the Port Orford Tribune: "The Bane sawmill on Sixes has been shut down for the past week or ten days owing to the trouble over the wages of the men. It has been filed with the County Clerk on 15000 feet of clear cedar at the mill and also on a few thousand feet that is on the wharf awaiting shipment. Last week Atty. Topping and an agent for the Eastbrook company at Bandon, came down and tried a case in Justice Wright's court involving an injunction against the lumber on the wharf, and the injunction was dismissed. In the meantime the lumber was delayed from shipment until liens could be filed against it in the County Court. Bills aggregating \$1600 or \$1800 have been filed for collection. It seems that the trouble has been caused by those who were to back Mr. Bane going back on their promises. The working men are all high in their praise of the manner in which Mr. Bane has acted and the way he has tried to protect them from loss. It is probable that the matter will be adjusted and the mill start up again in the near future."

FIGHT IN PARLIAMENT.

Home Rule Bill Causes Great Excitement When Acted On.

(By Associated Press to Coos Bay Times.) LONDON, Nov. 16.—The Pope's connection with the Irish home rule bill was destroyed when Speaker Lowther held in an order of the premier's to rescind the decision of the house in the committee by which the government was defeated last week. The debate precipitated a stormy scene, during which Sir William Bull of London, a member, was ejected from the house for calling Premier Asquith a traitor.

Speaker Lowther said the premier's motion was unprecedented but quite in order. The premier then submitted his motion and in support of it said if the house did not reverse the decision reached by the committee on the amendment of Sir Frederick Banbury, the government would be unable to proceed with the bill. The debate continued amidst the wildest excitement.

BREAKWATER BRAVES BAR

The steamer Breakwater was the only vessel that would venture out over the Columbia river bar when she left there. Regarding the incident the Oregonian says: While the series of gales that has been blowing along the coast since October 18, has subsided the bar at the mouth of the Columbia river is still extremely rough and the only vessel to cross out today was the steamer Breakwater. The Rose City, also of the San Francisco & Portland Steamship Co.'s fleet, is waiting here for subsidence of the waters so she can leave for California ports. Other vessels coast-bound are the American-Hawaiian steamship Lyra, steamers Coaster, F. H. Leggett, Camino, Iaqu, the tanker Asuacion, British steamship Manchuria and British Bark Owee-nee.

The Owee-nee, which had been blown on the sands by last night's storm, was pulled back into deep water today.

WHY NOT OWN WATER WORKS?

Editor Times:—
Commenting upon the sure to be successful efforts of "The Times" on the Marshfield water supply or lack of it and the earnestness in the letter or views of Carl Albricht I desire to ask if there be one individual within the extensions or boundaries of the Coos Bay Water Co. who is so illiterate or unobservant as not to know beyond the shadow of slightest uncertainty that f-r-a-n-c-i-s-c-o spells R-o-b-b-e-r-y.

Can it be possible that the figure-heads of the Coos Bay Water Co. are not fully aware that they are wasting this valuable or valueless time in this present effort to renew what is already short lived, out-of-date, and a thing of by-gone days. Of such material is the Taft Republican made—no matter where you find him. Not caring to, he will not see.

If a private water company can float bonds on the strength of water receipts, cannot a municipal water company with the city back of it do likewise and better?

What other security would the privately issued bonds have apart from the water rates? None.

How ridiculous it is to even debate such a question.

What pays these water works bonds? The water receipts.

What pays the interests? The water receipts.

What pays the profits? The water receipts.

Who guarantees the franchise (license to rob), pays the bonds, interests, profits and commissions, etc.?

The water users. You, yourself, and promptly, too. And after you have paid them all to the last red, what have you got? Just what you've been getting—not even water and tomorrow you need it.

The "Figure-heads" have your money and are actually asking you for more of it in larger pieces.

We want a municipal water works and it's easy to get it—will some kindly "hobo" come along and hand it to us. We're so busy—you know Robbing our neighbors and customers, only "hoboes" have time on their hands.

Don't forget now that in English f-r-a-n-c-i-s-c-o spells robbery and any city council or councilman in Marshfield that hands out or helps to hand out another one of those creatures to a "Within the Pale of the Law Pirates", is as guilty as the pirate himself, and commits a crime against the city and its citizens that should and soon will be punishable only in the penitentiary.

We might let the Garrisonians go in preference, but we'll lock the councilman up as being a still more "undesirable citizen."

And right here let me suggest that some wiseacre lawyers have a goodly referendum petition ready drawn and that he hunt me up the day after any franchise is granted to any private water company and I will guarantee to him and to the city at large that I will have it filled with DESIRABLE signatures in sufficient numbers before I sleep and then I'll volunteer to carry the flag in a "bread line" to get those councilmen in the same way to sign it.

Further, I desire to heartily commend the Coos Bay Times and its cheerful editor and recommend them both to the public of Coos county—The Times as being their most upright, popular and meritorious daily and of the editor, the best work I have ever read in his columns is what he has published from time to time against the beastly service of the Coos Bay Water Company, and his fight for its municipal ownership.

WOMAN CLAIMS FRAUD.

Trouble Over the Election in Los Angeles County.

(By Associated Press to Coos Bay Times.) LOS ANGELES, Nov. 16.—Alleging that ballots cast in several precincts of Los Angeles city and county were tampered with on the return sheets, Mary Foy, Democratic presidential elector, obtained in the district court of appeals, a writ of mandamus to compel the county board of supervisors to give fair and honest count of the ballots cast at the election November 5. The writ is returnable next Monday. Several thousand ballots are involved, it is alleged.

Way Should They Shiver?

Emergency heat for households during autumn weather is easy to provide.

There is no need for women and children to shiver in cold, damp rooms.

A little gas room heater makes the room cozy and warm nights and mornings during the period that the furnace cannot be used.

These low priced heat makers are convenient to handle and cheap to operate. One is enough for the ordinary household.

See them at our showrooms.

MAKE THE BEST CARE OF OLD RAGS

Not for their value, but because they cause fires. Most people do not know that old, particularly oiled cloths, for dusting, etc., will often burn spontaneously. Many where "cause is unknown" can be traced to carelessness disposing of rags.

Everybody knows it's wise to be against loss by fire, and everybody may find out, by the investigation, that we are one of the greatest insurance companies on earth.

We know how to write policies that protect perfectly, too.
