USE THE SCHOOLHOUSES.

MORE and more is there the suggestion that we ought to use the schoolhouses for public purposes other than pertaining solely to education.

The Portland Telegram in discussing this question says that we ought seriously to consider this matter of the use of the schoolhouses, not only for voting purposes but for many other purposes that are of public moment outside of the conduct of the schools.

The fact is that all over this great country of ours the schoolhouses are coming into more common use by the people; and it is about time we woke up to the enjoyment of privileges which other people in other cities enjoy.

WITH THE TOAST AND TEA

"SHIFTO," THE CANDIDATE.

(The friends of A. J. Savage and Tom Coke say they favor municipal Ownership p. now.)

I've shifted on the "water," I've shifted on the "street," I've shifted on improvements in a way that's hard to beat;

I shift on public questions, Like grains of shifting sand— Shift Monday's declaration To Tuesday's countermand;

Oh, you, who cast your ballots, Why do you all persist? Why ask such foolish questions? You really must desist;

MALLISTER'S TRIP. The Portland Journal says: "The failure of E. S. J. McAllister, named in a complaint from the juvenile court in connection with the recent investigations of depravity in this city, and the lack of information at his office as to the time of his expected return Wednesday, caused the officers of the court to telegraph to Marshfield, asking his arrest on the warrant issued several days ago."

LIBBY TO GET NEW SCHOOL

Vote Six to One in Favor of \$10,000 Bond Issue— Only Seven Voted.

By a vote of six to one, the proposition for issuing \$10,000 bonds to erect a new school building was carried at the special election in the Libby district Saturday.

The election was conducted under the direction of Judge John F. Hall, who was secured by the directors to see that everything was legal.

Only seven votes were cast and one of these was against the new school. Those voting were Esther Stromberg, Enoch Holland, Emma Gosney, Anna Fitzgerald, J. E. Fitzgerald, Florence Burroughs and Mary Holland.

The school board will endeavor to place the bonds at once, so that the new buildings may be erected soon for the district, the old schoolhouse being a very poor one.

BIG MILL IS MAKING RECORD

Average Daily Cut for November So Far About 435,000 Feet.

The C. A. Smith Company's big mill is establishing a new average cut for the month of November. To date, the daily average for the month is about 431,000 feet.

The high record of the mill for a ten-hour cut was 535,000, made in spruce, but this was before the re-manufacturing plant was put in. It is believed that the mill on a ten-hour cut of spruce logs would now exceed the 600,000 mark.

The Eastside mill at Bay City may reach a 250,000 output in ten hours when the proposed improvements and changes are made, according to the expectancies of some. This would bring the probable maximum cut of the two mills in a ten-hour shift to about 850,000 feet.

The recent delays in the schedules of the Nann Smith and the Redondo on account of the rough bar is threatening to tie up the mills, the yards being almost blocked with lumber. It is the plan to increase the mill yardage soon, but until other facilities are put in, it would take a hundred men or so to pile lumber unless it is promptly taken out by the boats.

When the Adeline Smith, the big sister ship of the Nann Smith, which will be turned over to Capt. Olson of the C. A. Smith Co. at Newport News, Va., this week probably, is in the service, there will not be much danger of the yards being blocked. The Adeline Smith will carry a cargo of 2,000,000 feet without stowing. With a cargo of 2,000,000 feet aboard her, it is estimated that she will draw about eighteen feet four inches of water, the same as the Nann Smith draws with a quarter million of lumber less in her cargo.

The Smith-Powers Logging Co. will shut down for a week for the Christmas-New Years holiday, but the C. A. Smith mills will only close for Christmas day. In consequence the logging camps will be crowded a little during the next month to get a supply ahead for the Christmas week layoff. It now takes about 120 carloads of logs daily to keep the mills busy. The new Coaledo camp is supplying quite a few logs, 63 carloads being brought in Saturday from that vicinity.
