NEW FASHION FACTORY HERE

**E. D. MARATHUR ESTABLISHES
LARGE AND IMPORTANT IN-
DUSTRIAL PLANT ON COOS
BAY THIS WEEK.**

Coos Bay is about to become the Paris of fruit fashions and the Pittsburg of Pacific Coast manufacturing cities. E. D. McArthur has recently inaugurated a factory for placing on the market a fine line of hoop skirts for bananas. The hobbie, semi-hobbie and sheath styles are being manufactured by the latest improved machinery.

Frank Laise and J. Albert Matson were so impressed with the new forms that they promptly placed an order for a year's output to supply their banana plantation in the Sand Hills.

The factory already employs one small boy and a skirt designer. Plant B is assuming the lively air of a manufacturing center. Maj. Kinney, who instigated the enterprise, is special agent and is preparing to float a stock issue of \$20,000,000 for working capital. "Mac" hopes to be able to furnish garments for all the bananas raised on Coos Bay. Later the peaches may also be supplied.

IMPORTANT NOTICE.

Owing to the fact that there was a heavy fog this morning the Western Union wires are down again and we are unable to get any press dispatches, thus greatly curtailing our news service. The important information about the child lost in the storm was received by wireless. On account of the slide on the wagon road and the subsequent hold up of the mail and non-arrival of the Portland papers, our telegraph news, in common with our contemporary, is taken from yesterday's papers.

Exchange of tickets and reserved seat sale begins Monday, Dec. 2, at the Busy Corner. First come, first served. Reservations limited to six tickets to any person for each performance.

The lines of poetry appearing in this issue have all been carefully measured by the Oregon Power Co.'s meter. That's why they're so rotten.

FERDIE PAINTER.
As Lenore, the Leading Lady in That Awful Drama, "Why Don't You Take Her off the Track."

STRAYED FROM HOME IN STORM

**EXCLUSIVE STORY OF THRIL-
LING RESCUE OF A CHILD
WHO WAS LOST DURING THE
RECENT HEAVY RAINS.**

During the recent severe rain and wind storm which swept over the north Pacific coast, a tot wandered from home and so far all efforts to trace him have been in vain. Searchers have been out all day Friday, Friday night, Saturday and Sunday night, Sunday and Sunday night, Monday and Monday night, Tuesday and Tuesday night, Wednesday and Wednesday night, Thursday and Thursday night, searching the hills and the beaches for the lost one and as they straggled in—faint, weary and footsore, tell of the great torrents in the deep gulches in the hills, the agony of the parents was pitiful, for as each face they scanned, they read in the averted eyes, the ever same answer—No Trace.

Volunteers Called For.
To take up the search a call was issued today by Sheriff Gage for volunteers. In less than an hour over one hundred men had offered their services and were soon on their way to the hills. Relief wagons are being loaded in great haste with provisions and blankets, for all those who already have gone on the search, some of whom have been in the hills without food for the past ten days. Arrangements have been made to light an immense bonfire on the Divide in the hope that the lost one will see it and be guided toward his home and his sorrowing parents.

Reinforcements.
It was learned by long distance telephone from the Sheriff's office this afternoon that parties volunteered and were accepted from Marshfield, North Bend, Conville, Bandon, Battle Rock, Myrtle Point, Sumner, Allegany, Libby Eastside, Millington, Cooston, Glasgow and Bridge. Therefore, a cordon of men is now stretched in a great circle with Marshfield as its hub, the rim being forty miles away, and have commenced to close in slowly, searching every foot of the ground as they draw the net closer and closer together.

Public Comment.
Judge Hall, one of Coos County's oldest residents, who has held public office in this locality for the past forty years, when interviewed by our representative today, expressed himself as being fearful for the life of the youngster. He stated that when he was lost in the fall of '49, '62 and later in the winter of '98, he was always discovered in less than one day.

Signals Seen.
At dusk this evening the signals and lights of some of the searchers could be seen from the Chandler Hotel as the great circle of searchers slowly approached the city. This paper has made arrangements with Harry McKeown to remain on guard in the tower to catch any signals which might indicate that the search was fortunately ended.

All but one section is in sight. The look-out has just reported that the lights of the entire circle can be seen with the exception of those in the direction of Nob hill. This has given rise to the rumor that the party has found the strayed one.

LATER.
(Exclusive Dispatch to The Big Noise.)

The search was ended at 4 o'clock this morning when the lost one, J. Albert Matson, was found in the back room at the Millicoma club playing solo with Herbert Lockhart, who was later charged with "Kid" napping.
