Railroad Man Coming.—J. Statkey, representing Copenhagen Bros., the railroad contractors of Gardner, is expected here today on business.

Build New House.—Messrs. Swanson and Davis are arranging to erect another bungalow on their property on Central Avenue near Eleventh. It will be built between the C. C. G. and E. F. Morrison homes.

To State Hospital.—Ellen N. Brown, aged 63 and unmarried, was taken to the State hospital at Salem today. She resided at North Bend and had been suffering from melancholia.

Trouble Ended.—The charges preferred against a young man named Howard of Eastside yesterday were dropped. The trouble arose over a family altercation and was slight, it is stated.

Is Senator Now.—Word has been received here that Jas. Coke, a former Coos Bay boy and brother of Judge Coke and Tom Coke, has recently been elected a member of the Hawaiian Senate. He has been practicing law on the islands for several years.

Bother Motor Houses.—Mrs. Frank Herman of Eastside was in Marshfield and reports that they are planning to prosecute persons who have been breaking into a boat house belonging to the estate of her mother, Mrs. Mary E. Peterson. A number of articles have been stolen from the place and yesterday they detected a man entering the place.

Gets Patent.—Ernest J. Larson, blacksmith at Smith-Powers Camp No. 5, was in town today. He has just secured a patent on a logging hook which contributes greatly to the safety of the loggers working on cables. It has a special catch to prevent the line slipping out. August Frizeen helped him patent the device.

Will Leave.—Miss Louise Blatt, who has been temporarily filling the position of secretary of the Marshfield Chamber of Commerce, will quit the work December 15 to take up a permanent position. President Greene has been authorized to secure a substitute until John Motley returns from his Eastern trip to take up the work.

Takes Body East.—The body of J. T. Atkins, one of the victims of the wreck on the Seeley & Anderson logging road, was shipped on the Breakwater this morning, to Clarence, Ill., for interment. R. W. Atkins, a brother of the unfortunate man, arrived on the Bay from Minnesota this week and will take the body to the old home for burial.

Stop Paving Work.—Messrs. S. C. Small and E. F. Morrissey returned last evening from Myrtle Point. Owing to the bad weather, they have concluded their paving operations there until spring, the wet weather making it impossible to do grading. They have got all the work they had started concluded, and are arranging to rush the balance of it in the spring. It is expected that next year both Myrtle Point and Coquille will put in considerable additional hard paving and Bandon may also start permanent street work.

Recovers Old Gift.—Through a Times want ad, Mrs. J. H. Flanagan today recovered a locket and chain, which she prized very highly, her father, Mr. Proctor, having brought it to her from England when she was a child. A few weeks ago, her little daughter, Eleanor, lost the locket on South Broadway. Gus Bronson picked it up a few days later but it was covered with dirt and did not appear to be valuable. However, he cleaned it up and discovered that it was probably a keepsake and brought it to the Times. Mrs. Flanagan saw the ad last night, the first time it appeared, and this morning claimed the locket and chain.

ALONG THE WATERFRONT

The Alliance arrived in late this afternoon from Eureka.
The Newberg arrived in last night from the South.
The Hardy arrived in today from San Francisco.
The Nann Smith is due in tomorrow from Bay Point.
The steamer Coos River hung up on a rock yesterday on her afternoon trip at a point in front of the Frank Hodson place, and had to wait two hours for the tide to float the boat. The position for a time was serious, those on board were obliged to stand without moving and support themselves by holding the rails. Fortunately there were no passengers except the crew. Those on board were: Capt. Stephen Rogers, O. Earnest, Herbert Rogers and a man known as "Dod".

ROYAL BAKING POWDER

Absolutely Pure

(From a series of elaborate chemical tests.)
Comparative digestibility of food made with different baking powders:
An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.
The percentage of the food digested is shown as follows:
Bread made with Royal Cream of Tartar Powder:
99 Per Cent. Digested
Bread made with phosphate powder:
67½ Per Cent. Digested
Bread made with alum powder:
67 Per Cent. Digested
Royal Baking powder raised food is shown to be of greatly superior digestibility and healthfulness.
