

MANDEL TAKES A LONG LEASE

Confidence in the continued growth of Marshfield and a rapidly increasing business were the things which prompted E. Mandel, proprietor of the Marshfield cycle, to take a long lease on the vacant lot adjoining the building he occupies on Broadway. The lot is the property of Wm. Grimes, but is included in a lease made to Robert Mariden, Jr., who sublet it to Mr. Mandel. The lease is understood to be for a period of four years.

Mr. Mandel has taken the agency for the Dayton motor cycles next year.

Don't Blame Your Over Worked Stomach

When your stomach will not digest food, the worst thing you can do is to take a lot of digestive medicines. True, they give temporary relief, but your stomach is the sufferer. Loss of appetite, indigestion, dyspepsia and headache can only be permanently relieved by removing the cause. In many cases, the remedies taken to relieve these conditions result in ruining the stomach and preventing it from digesting food as a natural way.

If you want your stomach to do its work properly, without resorting to artificial digestives or predigested foods, use Jayne's Tonic Vermifuge. Take small doses regularly, preferably before meals. In a little time your stomach will again do its own work and you will eat heartily, keep well and enjoy living. Jayne's Tonic Vermifuge is not a digester in itself, but it sets up the stomach and intestines, bringing you all the nutriment and strength from the food you eat.

Many forms of supposed indigestion are the result of intestinal parasites, for which Jayne's Tonic Vermifuge is prescribed. Insist on Jayne's, accept no other. Millions have praised it for more than eighty years. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

CITY REVENUE FOR ROSEBURG

The Roseburg News prints the following:

The city council is now preparing a revision of the occupation ordinance and it is understood that nearly all the various lines of business will suffer an increase in their taxes. We believe that the city council is trying to solve the problem of getting revenue, but we would like to offer a few suggestions that may make their task easier.

We would first suggest that a tax be placed on bachelors. Roseburg has an over-abundance of this class of citizens. The tax will make them come through with some money to help pay the city's current expenses or it will cause the hardened heart to soften and perhaps cause its owner to take unto himself a wife. In either event the tax will have had a beneficial effect.

Then again there are automobiles—we don't own one—which run around our streets at all hours of the day and night, that do not now and never have paid any city tax. We therefore, propose a tax on automobiles. The fellow that owns a runabout should be taxed—say \$2.00 per year. The four-seated, five- and seven-seated machines should be taxed one dollar per seat. This would bring in a pretty fair-sized revenue. Then the council might tax the mileage that each machine makes. The average cost to run an automobile without any tax is about ten cents per mile. A half a cent more wouldn't make much difference and we are most certain that the auto man would cheerfully pay this pittance.

Then there are married people with and without families. It is a well known economic law that it takes more money to run a family of three than one of two. More to operate a household of four than for three. We therefore propose a tax on married couples without children of ten dollars per year. A man and wife with one child should pay a tax of nine dollars a year. For each additional member of the family up to five the tax is reduced one dollar, so that a man and wife with five children would only pay a tax of five dollars. The man and wife with six children should be free from tax and in addition should be given a dollar for each child that they possess over five. This will have a tendency to do away with the alarm felt by certain people over the race-extermination matter.

Then there are persons who smile and who don't smile. For persons who never smile there should be a tax of \$50. For those who smile occasionally a tax of \$25 should be provided. For people who are always smiling and cheerful there should be no tax. It would be made the special duty of the city marshal to enforce the provision of this section.

Then there should be a tax on girls of a marriageable age during leap year only. As this tax could be collected only once in every four years it would not bring in much revenue, but in this critical time of our city's finances every little bit added to what we have makes just a little bit more.

Then there should be a tax on people who have no occupation. There is no reason why people who have no known work should not be taxed just the same or a little bit more than the people who do have to work.

Then there are the officeholders. They should be taxed for the privilege of holding down public office. For those officers who receive a salary the tax should be at least what their campaign assessment happened to be. This could be ascertained from their sworn statements on record in the county clerk's office. Those officers who serve without compensation and for the honor there is in the office should be taxed 25 per cent of the value of the honor there is in the office.

Attorneys should be taxed on the basis of the number of suits they file within the period of one year. Doctors should pay a tax on the number of prescriptions they write, taxing liquor prescriptions just double the ordinary prescription.

And now that women have a right to vote and stand on an equality with man we suggest—and we do so tremblingly—that they be taxed according to the width of the brim of their hats.

Lovers should not be overlooked in this important classification. This will be a difficult task to perform, but we feel sure that the city fathers in all their wisdom will be able to find a way to tax them. At first blush we would venture to place the tax on the ardor displayed by the lovers.

And there are the school teachers. They are very much underpaid, but why not tax them too. The motorcycle bugs should also be given a touch of tax. They scare the most of us out of our wits when they whiz by us like lightning, and why shouldn't they pay for the fun.

There are hundreds of other things that could be taxed that would bring in revenue to our bankrupt city. Among them are the men who play billiards and pool. Charge a small sum, like a penny a game. This alone would bring in about \$5 a day. Tax a man for smoking a cigar. A penny on a nickel cigar and a penny on each additional five cent piece that the havana happens to cost. There's the Coco Cola fiend. Charge him a penny a drink. The soda water man should be taxed a penny on each five cents that the drink cost. Then tax a man (and women now) when they go to vote. This comes only twice a year, but it would bring in a hand-

ACCIDENT IS BLAMED ON EIGHT PAIRS OF TROUSERS

Chinaman, Wearing His Whole Wardrobe, Unable to Dodge Automobile.

LOS ANGELES, Dec. 9.—Quan Wink, from Canton, invested himself in his entire wardrobe last week. He was hit by an automobile and while recovering from the injuries he received, he said he would limit hereafter the number of his garments as wearing too many at a time made it almost impossible to avoid the street traffic.

It required an hour to disrobe Quan. He wore eight pairs of pants, two sweaters and three shirts, besides a coat. "Eight pair pants, no run," said Quan. "One pair pants, plenty run," and when he left the hospital he carried seven pairs under his arm.

HICCUGHS SEVEN DAYS

New Remedy Discovered After Old Stand-Bys Fail.

SALT LAKE, Utah, Dec. 9.—Only the timely discovery of a new remedy for hiccoughs saved the life of Rudolph Wright of Salmon City, Idaho, a patient in a local hospital, in the opinion of attending physicians. As he was about to be discharged, following a surgical operation, the spasms of the diaphragm commenced, and for seven days and nights the hiccoughs continued without intermissions. All of the remedies suggested in the medical text books were tried. Morphine, compression of the chest by bandaging, vinegar, Scotch snuff, all proved of no avail. Fearing the early death of the patient from exhaustion, the doctors fell back upon the traditional remedies, such as sponful of sugar, seven drinks of water and the fright cure. When everything else had failed, and the patient was nearly dead from the hiccoughs, and the remedies, a powerful emetic was administered. When this had acted a sedative was given. The patient then fell asleep and forgot to hiccough.

30c BUTTER THE LIMIT

Association to Endeavor to Secure Reduction.

OMAHA, Dec. 9.—The executive committee of the American Association of Creamery Butter Makers met in secret session here and took steps to secure a reduction to a maximum of 30 cents a pound for creamery butter.

Incidental to this meeting came the announcement that the Chicago butter and egg board, which for years has given out butter quotations, has discontinued that practice today. Fifty-two of the largest creamery concerns in the middle-west were represented at the meeting, which was presided over by President J. E. Walker of Chicago.

"Thirty cents a pound is enough for the consumer to pay for butter," said Mr. Walker after the meeting. "In the future the price of butter will be regulated by the law of supply and demand. We do not believe the price of butter should be more than 30 cents, but the packers, who deal in oleomargarine, have had much to do with the higher prices."

HONOR BOB SMITH

According to press dispatches Robert Smith, re-elected mayor by a flattering majority. According to the correspondent who reported the election to the Portland newspapers, Mr. Smith can attribute his selection as chief executive of the city to the women voters, who stand for a moral and clean government. Although not a prohibitionist, Mr. Smith stands for law enforcement.

some revenue. If the ballot is worth anything it is worth a small tax. Then last, but not least, tax the men who make, impose and collect the taxes.

We believe that if the council would adopt some system like the one outlined here, there would be no more calamity howling about the sad state of our city finances. This system would, of course, entail a considerable police force, but what's the difference if it brings in the revenue. And furthermore it would shift the burden of taxation to all the people and not only on the business man. The system taxes pleasure as well as business.

ONE APPLICATION DARKENS HAIR

A Simple Remedy Gives Color, Strength and Beauty to the Hair.

You don't have to have gray hair or faded hair if you don't want to. Why look old or unattractive? If your hair is gray or faded, you can change it easily, quickly and effectively by using Wyeth's Sage and Sulphur Hair Remedy. Apply a little tonight and in the morning you will be agreeably surprised at the results from a single application. The gray hairs will be less conspicuous, and after a few more applications will be restored to natural color.

Wyeth's Sage and Sulphur also quickly removes dandruff, leaves the scalp clean and healthy, and promotes the growth of the hair. It is a clean wholesome dressing which may be used at any time with perfect safety. Get a fifty cent bottle from your druggist today, and see how quickly it will restore the youthful color and beauty of your hair and forever end the nasty dandruff, hot, itchy scalp and falling hair. All druggists sell it under guarantee that the money will be refunded if you are not satisfied after fair trial.
