TAKE THE BEST CARE OF OLD RAGS

Not for their value, but because they cause fires. Most people do not know that old rags, particularly oiled cloths used for dusting, etc., will often take fire spontaneously. Many fires where "cause is unknown" might be traced to carelessness in disposing of rags.
Anybody knows it's wise to insure against loss by fire, and anybody may find out, by the least investigation, that we have five of the greatest insurance companies on earth.
We know how to write policies that protect perfectly, too.

ALL HAIL QUEEN COW.

Civilization and the dairy cow are closely associated. As a food producer, the cow returns 18 pounds for every 100 pounds of feed given her, while her nearest competitor, the hog, returns only 15 pounds, and the hen, with all her cackling, gives the owner but a scant 10 pounds of food in return for his investment of 100.—Country Gentleman.

Daily Christmas Hint

An Invalid Friend Will Appreciate This Useful Gift

If an invalid friend is to be provided with a Christmas gift, why not present her with a hot water bottle fitted with a pretty cover? When not in use this bottle becomes a thing of

beauty as well as a joy in time of suffering.
The cover is not difficult to make. Cut two pieces of rubberized cloth. Stitch the edges of these two pieces together with a binding of wash ribbon, machining the binding top and bottom to keep it in place.
