**Trout Eat Huckleberries**—E. L. Robinson, who has returned from Ten Mile, reports that the trout are now feasting on huckleberries and salmon eggs. It was not generally known that trout would eat huckle-

berries, but Mr. Robinson says the ones he caught were crammed with the little berries.

# CLOSE TODAY FOR HOLIDAYS

## Loggers Will Enjoy Week's Vacation for Christmas and New Year's.

The Smith-Powers Logging camps will close down tonight for a week's vacation for the Christmas-New Year's holiday. Many came in from the camps today, but the influx will come tomorrow, as a great majority of the employes will spend part of the vacation in Marshfield.

The McDonald & Vaughan camp on Daniels Creek was planning to close down for a couple of weeks or so to make some extensive improvements and alterations in their logging road.

Practically all of the men from Camp 4 came up on the Vega this morning and will spend their holidays in town.

## Mills to Close.

The C. A. Smith lumber mills will close tomorrow night for a week to enable the employes to enjoy the Christmas and New Year's holidays. Both mills have a big cut of lumber ahead as a result of the ships having been held up so that the cargoes can be supplied all vessels as usual. While the mills are closed down, some minor repair work and alterations will be made to enable the mills to run steadily from now on. Just as soon as the Adeline Smith reaches here it is planned to increase the cut considerably and plans for this are now being carried out.

## LOGGER IS INJURED.

Burgess Colvin was seriously injured at Rink Creek logging camp of Aason Brothers Wednesday morning. The injured man is in a serious condition, as the result of internal injuries, the full extent of which have not yet been ascertained.—Coquille Sentinel.

lower limbs. He was brought to Mercy hospital by Ernest Harrington, timekeeper at the camp.

**Gets Fine Dog**—W. E. Catterlin of the Star Ranch in Curry County and Dr. Pemberton of Langlois passed through here today, enroute home from Portland and Eugene. They came in via Drain. Dr. Pemberton brought a thoroughbred Cocker Spaniel pup with him. The dog is a very small one and he had to carry it in his arms most of the way.

**Recovers Curtain**—Through a lost ad in The Times, C. H. Fisher Saturday recovered a side curtain of his auto which he had dropped somewhere on the street. He put a lost ad in Saturday's Times, and a few hours later Billy Wade brought back the missing curtain to him at Hillier's cigar stand. A young boy had picked it up on the street and brought it to Mr. Wade.

**Gets Swedish Paper**—August Friezen has just received some copies of a Swedish paper that is one of the finest specimens of the printer's art that has been seen in a long time. **Prices Lower**—F. S. Dow has received word that the wholesale price of eggs has declined, the northern market dropping to thirty cents and the southern to thirty-three cents. Butter is also on the incline dropping to 33 1/2 cents a pound in San Francisco. The decline in butter is due, Mr. Dow says, to a large amount of the San Joaquin valley product coming, which will probably make California the low butter market of the world for awhile.  
**Danger Removed**—Master Howard McLaughlin determined that everyone living in Railroad Addition, both old and young, should go to the Christmas trees if his little hands could make it possible, at the corner of 7th and Hall Avenue, is a very dangerous passage to pedestrians, caused by some sloping steps that each winter, on account of the snow-frost and clay in this locality, cause several people, especially women, to receive a vicious fall with more or less injury to their spines. Knowing this, little Howard has securely nailed some cleats on each step, that will make it quite impossible to slip on these steps now. Hail the spirit of little Howard and his early recognition of civic duty. May his number increase!
