

# Resolved, That

## A New Year Resolution

I will during "Nineteen Thirteen" place a portion of my monthly income in Marshfield real estate, the best investment today on the Pacific Coast.

I will buy a lot on the "South Side," the best residence section, where the new homes are building, the streets are being improved and the direction the city is growing.

It will be high and sightly, sheltered and accessible; the section where I'll build my home.

I'll invest in FIRST ADDITION, where for \$300 I can buy, on terms, a 50x120 lot facing on an improved street; where I'll secure the greatest value for the least money.

I'll call for a plat and make my selection now, while the choice is of the best.

### FORGETFUL

—BY—  
BOB STANLEY.

We dream our dreams as days go by,  
And build our homes 'neath azure sky,  
We hope and trust to Future day,  
With naught but joys of life to sway.

We live and love, forgetful, all,  
Of those about, upon whom fall  
The cloaks of pain and discontent,  
Whose hearts are torn, whose hopes are spent.

We never pause to hear their cries,  
To look with pity in their eyes;  
We pass them by, we spare no glance,  
For each has had an equal chance.

Sometimes, I think 'twere better, far,  
To be for these a guiding star—  
To cease our dreams, e'en for a day—  
To hear their calls, and then obey.

#### GOOD EVENING.

Deeds survive the doers.—  
Horace Mann.

#### THE MAIN CHANCE.

Berton Braley.  
He worked and he schemed when others were playing,  
To bargain and beat gave him glee;  
And these are the words he was evermore saying:  
"Well, what is there in it for me?"  
Love never could move him, nor friendship, nor pleading;  
A flinty young fellow was he,  
And this slogan he used for succeeding:  
"Well, what is there in it for me?"

He hasn't a friend he could trust and could tie to  
Whose love and devotion are free;  
He hasn't a sweetheart whose arms he could fly to  
If all of his fortune should flee;  
His life isn't pleasant or cheerful or sunny,  
A crabbed old fellow is he;  
But then, he has gathered a whole mint of money  
By saying, "What's in it for me?"

The "slow" girl is often the soonest wed.  
One thing about wild oats—they never fail to grow.  
If you find a bad habit growing on you, be a man and cut it out.  
Many a woman has found her widowhood so sad that she refused to keep it.  
When you feel a cranky spell coming on, go out and hunt a grindstone.

Some of the charity that begins at home is too feeble to cross the road.

#### THE QUIET OBSERVER SAYS:

"It doesn't take a very strong woman to break a man."

The best capital for a man to begin life on is a capital wife. So says a woman.

Most of the people who talk about the blessings of poverty have never been poor.

To a number of Coos Bayites who are taking cold these days, all things are to be sneezed at.

Talk about Spartan heroism! Did you ever see a girl dance with an ingrowing toenail at a dance?

Sometimes a woman wishes she were a man so that she could break the hearts of other women.

About the only library that domestic felicity really requires is a check book and a good cook book.

If a woman hasn't anything else to worry her, she can claim that her hair is coming out by the handful.

About the greatest economy in getting married is that the man usually gets his trousers pressed at home.

It is my experience that charity doesn't usually get out of her own boudoir, much less beginning all over the home.

It is a mighty poor excuse for a man that can't convince some women that he is the wisest and best on earth.

Often a woman buys so many bargains that she has nothing left to pay for the things that she really needs.

When a woman begins to feel happy she begins to be miserable for fear that such happiness is too perfect to last.

NOT TO BE TAKEN LITERALLY

You have heard people say they "worked like a dog" all day. "If this were literally true," says the

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Compound is a reliable household medicine for coughs and colds equally effective for children and grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs. For sale by Lockhart-Parsons Drug Co., the Busy Corner.

Concordia Press. "the twenty-four hours would be spent thus: One hour digging out a rat, two hours gnawing a bone, one hour waiting for a cat to come down from a tree, half an hour begging to get into the house, and the rest of the time sleeping on a mat in front of the door fighting fleas."

A man can be more kinds of a fool than a woman in a given time, but in endurance she beats him to a standstill.

When a coquette begins to think it is about time for her to get married, she finds that it is too late in the opinion of men.

When a Coos Bay man celebrates the anniversary of his birth he takes a day off, a woman usually takes a year off.

#### THE QUIET OBSERVER SAYS:

No black balls are cast against the man who makes application to join the down and out club.

I have noticed that there haven't been any great books written since the invention of typewriters and fountain pens.

Syndicated.

He called her darling years ago, Ere care had marked her brow; But others share her love, and now He calls her mother now.

#### THE FEMINE OBSERVER SAYS:

I often wonder how preachers got married if they never tell a lie.

Men who work for a living get it; men who work for more than a living get it.

It is my personal opinion that there are no women in Hades. That is why it is Hades.

I wonder why it is that "good" Christian women always wear such stunning clothes?

How does a man spend his money? Investments.

How does a woman? In vestments.

#### TALENTS FOR THE LAW

"I'm certain, William," she began, "When Johnny grows to be a man, And his mind's bias finds expression, He'll choose the medical profession. Last night I noticed at the table, How thoughtfully he cautioned Mabel About the hurtfulness of pie." "His talents," William answered, "lie, Judging from what I heard and saw, Rather along the lines of law; Though all be told her might be true, He ate his pie and Mabel's too." —Selecto.

#### "NELL ROSE" THE NEWEST COLOR FAD OF THE YEAR

Following the fad of recent years of naming a color for the daughter of the President, Nell rose, named in compliment to Miss Elinor Wilson, daughter of Woodrow Wilson, has been added to the list of novel shades for hats and gowns. Alice blue and Helen pink have had their day, and Nell rose promises to be quite as popular as were ever either of those charming colors. It is a shade between American Beauty and cerise, but with more of an electric quality than either.

#### CURRY MAIL SERVICE.

WASHINGTON, Dec. 25.—Senator Bourne is urging the postoffice department to establish a daily mail service between Dothan, on the Southern Pacific, and Gold Beach, in Curry county, with a view to giving Curry county 30 hours' quicker mail service.

#### SWALLOWS A PEARL.

SEATTLE, Dec. 25.—While eating oysters in a restaurant here, Louis Lajardo, 54 years old, suddenly jumped up with a cry of pain. For several minutes he was speechless but he finally made it known that he had swallowed a big slug pearl from an oyster.

#### THE BUSY WOMAN'S DAY.

It begins early, ends late, and is full of work. She often has kidney trouble without knowing it. Her back aches and she is tired and worn out. Sleeps poorly. Is nervous, no appetite. Her bladder gives her trouble, too. Foley's Kidney Pills will cure all that and are the best medicine made for kidney and bladder disorders. For sale by the Lockhart-Parsons Drug Co., the Busy Corner.

## Let Power Experts Work For You At Our Expense

We want to sell every kilowatt of electric energy that we can.

But we do not care to make a contract with a power user unless the customer knows that it is to his advantage to do so.

Our power engineers have devoted years to their work; they know their business.

They are at the disposal of every power user, large or small. They will make a complete, thorough investigation and test, and compile a scientific report upon which you may rely.

When these experts have finished you will know your particular power problems from all sides. Nothing will be left to guess work.
