

What Is a Bargain?

MOST of us when we think of the meaning of "bargain," think first—and maybe last—of the price. That's why, so many times, when you see bargains mentioned, the price is strongly emphasized. A good many people seem to be unable to get by this price fact; it fills the mind and the eye.

But a moment's thought will tell you that the price is only a relative thing; it may look like a very low price and still be high, according to what you get for the money. If you can buy \$10 gold pieces at \$9.75, buy all you can get; that's a bargain, because you know exactly the value of what you buy; it's fixed and guaranteed. But you could, for instance, buy a horse for \$50 or another for \$150, and the latter might be a bargain, while the former might be dear at \$40. Depends on the horse.

Now, that's the way with clothes; whether a price is high or low depends on the clothes, not the price.

Hart Schaffner & Marx clothes are \$10 gold piece clothes; the value is guaranteed. Under our new selling plan we're selling them at a little less than "face value" every day in the year.

At Our Clearance Sale Prices the Bargains Are Better Than \$10 Gold Pieces at \$9.75

Wed. in Seattle—G. W. Tribbey has received word that his daughter, Nellie, and Ben Sterling were married at Seattle, Jan. 16, the Rev. Dr. Matthews officiating. Sterling was formerly employed in W. Libby School.—J. E. Fitzgerald of the Libby school district states that A. Y. Myers of the Reynolds Development Co. is marketing the \$5000 bond issue for the new school building there. The Reynolds Development Co. are guaranteeing the bonds and it is expected that the money will be secured soon so that the building can be put up this spring.

Street Work.—The Eastside city council at a meeting this week adopted new grades for E street between Second and Tenth avenues and for Fifth street between D and E streets. The city engineer was instructed to prepare plans and estimates for grading and planing it fifteen feet wide. One half of Fifth avenue will be improved from the long wharf to connect with E street.

School Rushed.—The Eastside school building is rapidly nearing completion, but the occupancy of it is being delayed by the non-arrival of the boiler for the heating plant. C. E. Jordan, clerk, stated today that it was being hastened as much as possible. Mr. Jordan says that the Eastside candidates who won out in the county examination were Anna Lund, James Whitty, Ida Schetter and Maydream McLean and all had excellent grades.

Damages Bridge—A government scow, which was taken to South Inlet bridge last summer and moored for future use, broke her ropes last Saturday and drifted up the Slough with the tide. Returning on a strong ebb, she struck the bridge, broke five piling and tore away the shear boom. The damage is about \$500. The scow is still at large and doing some damage owing to the fact that the gasoline launches have not sufficient power to tow or handle the craft.

Wants Divorce—W. H. Burghagen has filed suit for divorce, alleging cruel and inhuman treatment, etc. She has answered the petition and makes sensational charges against him, alleging that he tried to get her soon after their marriage, to conduct an immoral place. Burghagen is today circulating a petition among Marshfield business men who have known him a long time, certifying that his character has always been good. The case will probably be a very salacious one, even though the grand jury probes it as is expected.
