EUROPEAN POWERS SEND FLEETS TO SCARE TURKEY INTO SUBMISSION

Many Men of War Rushed to Constantinople to Avert Threatened Bloodshed.

Young Turks Are Wreaking Vengeance

Effort to Invoke Every Penalty Possible to Retain Control of Empire.

TURKS SHOCKED BY BAD QUAKE TODAY

CONSTANTINOPLE, Jan. 25.—A severe earthquake shook occurred here early today. No loss of life was reported up to noon.

LONDON, Jan. 25.—Italian and British war ships are being rushed to Bosphorus as a result of the powers' decision to a naval demonstration before Constantinople.

American, German and Russian fleets are already there.

Constantinople is practically in a state of siege, according to dispatches received by the peace delegates of the Balkan allies. The Young Turks, fearing that the reigning power may again escape their hands, are said to be harassing political adversaries right and left, searching for clubs and confiscating armaments. They hope in this way to break up the opposition.

The allies express the opinion that under these circumstances any peace may be expected. With this aspect in view, the European powers are sending war vessels to enforce the ordinary guard ships stationed at Constantinople. Italy is especially alarmed over a return to power of the Young Turks, who were inexorable during the Liberator war. The position of 6,000 Italian residents of Turkey is now regarded as so precarious that Italy has despatched to Constantinople two of her best cruisers and a gunboat which is prepared to land 500 bluejackets.

At the same time the admiralty has ordered the entire Italian squadron, now stationed in the Aegean Archipelago to hold itself in readiness. Other vessels will be prepared for an emergency.

VIEW IN TURKEY.

Young Turks Will Try to Retain Adriatic and Aegean Islands.

CONSTANTINOPLE, Jan. 25.—The young Turks' cabinet has determined to retain the ports and territory which their predecessors were willing to surrender to the allies is the belief here. It is regarded as certain that an effort will be made to retain Adriatic and part of the Aegean Islands. Many diplomats think that there will be no assumption of hostilities. They base their belief on the ground that the powers think the powers will not maintenance further fighting and force the allies to modify their demands.

Moslem superstition has provided for the earthquake which rocked the city for several seconds today. The natives are convinced that the disturbance presages trouble with the young Turks.

No disorders have occurred today.

HOTEL STRIKE IN NEW YORK

Five Hundred Extra Police to Cope With Waiters—Not to Call National Guard.

NEW YORK, Jan. 25.—A detail of 500 extra police were distributed through the hotel district today in an effort to check further rioting by the striking waiters. Special officers are assisting the uniformed force and the sheriff is ready to wear in any number of deputies to cope with the situation. With these steps taken the hotel men's association said today that the idea of calling on the governor for national guards had been abandoned. The hotel workers claim 4,000 waiters and kitchen helpers are out. Thirty big hotels are crippled by the strike. Over a thousand waiters are out and the leaders predict there will be 20,000 others out in three days.

BERKELEY IS CATLESS TOWN

War Declared on Felines in California University City—Fear Smallpox.

BERKELEY, Cal., Jan. 25.—War to death on cats, large and small, stray and domesticated, was declared here today by the police department in the interest of public health. The order has gone out that if it is possible to rid the town of cats, North Berkeley shall be the first catless town in the country. The hostilities began immediately on the declaration of war. Prize Persians became no better than the ordinary stray "tommy" or the mewling kitten, who makes her home where night ever takes her. All were fair game. Policemen armed with small rifles, shot anything furry and feline on sight, without regard to pedigree or ownership. The theory that cats are responsible for the dissemination of small pox was the cause of the order.

WILSON WILL OPPOSE CANAL BILL

President-elect Declared to Be Opposed to Special Favors for Coastwise Shipping—Adamson's View.

WASHINGTON, Jan. 25.—Chairman Adamson of the House commerce committee issued a formal statement today that one of President-Elect Wilson's first requests upon the incoming congress would be for the repeal of the free passage provision in the Panama Canal act, applying to American ships. "If Secretary Knox succeeds in avoiding or postponing the demands of England, he will undoubtedly also remove all foundations for the illogical claims of our people, who say they are opposed to subsidies, but shall foster discrimination in coastwise ships from tolls which is a subsidy. England may justly complain that if the canal is to be used as an instrument to distribute subsidies under the treaty, these subsidies must be equal to all nations. The true issue for us to determine is shall we rob our own people by a discrimination to enrich the coastwise shipping trust. I would not at all object to a brush with England if we had a just cause but it is very foolish and unprofitable to maintain any sort of a row with commercial friends and it is warlike to defend the infliction of an incidental discrimination by immoral and unjust robbery of our treasury and the masses of the people to confer benefits upon a special interest."

BANDON LINE PROMOTER GONE

Henry E. Lee Wanted in San Francisco to Answer Law-suit Over Promotion.

The following from the San Francisco Call will be of considerable interest in Coos county, as the Henry E. Lee mentioned is understood to be the man who was connected with J. H. Somers last year in promoting a railroad eastward from Grants Pass, the two of them spending considerable time in the Coquille valley and having rather a warm session at Myrtle Point, where it was given out that they were representing the MacArthur-Perks company. "Attorney Henry E. Lee is named as defendant in a suit filed yesterday in the superior court to recover money for supplies furnished the men who recently failed in an attempt to perfect claims to the valuable potash deposits at Searles Lake. Efforts to serve Lee with papers have proved unavailing, as he has not been seen for several days at his offices in the Mills building, which, during the time of the armed expedition was forming at Los Angeles was kept under watch night and day by Burns detectives.

The action filed by Attorney Earle M. Leaf of Los Angeles names as co-defendants Judge T. O. Toland of Los Angeles and T. W. Pack, a San Francisco real estate man, who claimed to have financed the first raids on the properties claimed by the California Trona Co. The complainant is M. A. Varney, automobile man of Los Angeles, who unceremoniously dumped the 'gunmen' together with their supplies on the desert 17 miles from the claims and forced them to walk 25 miles to the nearest railway station. "Varney alleges that Judge Toland, Lee and Pack were members of a co-partnership and that they purchased supplies from him and obtained his services from the period between December 10, 1911, and February 21, 1912. Varney alleges that his work was worth \$4,180 and that he has received \$535."

The Lee-Somers et al company and the Smith-Powers Logging Co. clashed over right of way for the latter company's line beyond Myrtle Point, the Smith-Powers company charging that Somers was simply trying to hold them up on the right of way. Somers was formerly a resident of Marshfield, but has been in San Francisco and Oakland for some time, and in addition to the railroad project was promoting a coal mining proposition on the lower Coquille.

HILL LINE TO BUILD IN HERE

Report That Extension Will Be Made to Roseburg and to Coos Bay.

PLANS OF HILL LINE ARE GIVEN

According to a Salem paper the Oregon Electric will be extended from Eugene to Roseburg by way of Cottage Grove this season. From Roseburg the road will be built to Myrtle Point and Coos Bay and thence south along the coast to San Francisco. It is the intention of the company to complete this line by July 4, 1915, in order to get a share of the exposition passenger traffic. It is stated.—Eugene Guard.

According to a report published in a Salem paper, the Hill lines have made arrangements to continue their extension southward through the Willamette Valley to Roseburg and will then build to Coos Bay via Myrtle Point. The line is now being rushed into Eugene and another season may bring it into Roseburg and possibly into Coos county.

While the announcement is not made officially, parties who are familiar with the railroad situation declare that it is well founded. They point out that the knowledge of these plans have resulted in the Southern Pacific rushing its work in here and also in hastening plans for a continuation of its line on down the coast to Eureka. Early announcement of the latter is expected.
