

Abraham Lincoln's Birthday, February 12.

THIS illustration reproduces the figure of Abraham Lincoln as it appears in the great statue by Augustus Saint-Gaudens at the entrance to Lincoln Park in Chicago; a noble work of art, before which thousands of Americans stand every year as a great shrine of patriotic inspiration.

We can all do what he did, in our own work; it may be running a clothing store or a farm, or a home; it may be as an employe or as an employer; it may be something big, or something little. Let us do it as well as we can.

Lincoln served his country and his fellowmen, according to his best judgment and ability; if he had made no mistakes he would have been more than human; but he did his best.

Has Big List.—The Breakwater sailed from Astoria at 8 o'clock this morning with 105 passengers and a cargo of 400 tons of freight. If it is bright moonlight and no fog this evening it is possible that Captain Macginn may be able to cross in this evening. He is making a fast trip in order to reach here in time to participate in the welcome to the Adeline Smith.

Dogs Damage Gardens—There is considerable complaint from some sections of South Marshfield that dogs are doing damage to gardens there by playing in them and scratching up newly planted flowers and vegetable plots. Complaint has been made to Marshal Carter and unless the deprecations cease there will probably be a few less canines in that section of the city.

Bicycle Accident.—Last evening at about 5:30, E. C. Walrath on a bicycle and Thorston Fiesberg on a motorcycle collided on Central avenue in front of the Chandler hotel. Walrath was carrying a board on his wheel. Both riders were thrown from their wheels and the bicycle was badly smashed. The motorcycle was not damaged. Neither rider was injured except for a few minor bruises.

A Motorcycle Talk

We have ordered a Dayton Motorcycle on the strength of certain claims made for it by the manufacturer and the agents. They claim that it has more hill-climbing power than any other machine on the market.

As soon as it arrives we will invite any and all other dealers to arrange a tryout on the largest, steepest hill we can find.

If the Dayton don't make good, we don't want it and will turn it over to any "headquarters" or "rest room" willing to handle machines turned down by other dealers.

We have absolutely nothing at stake in the matter, except the understood fact that anything handled by the Marshfield Cyclery must make good, must stand advertising, must be first-class.

We don't have to take any more machines.

We would not order this one until the company would agree to that.

About the mile in 37 seconds—that reminds me of the toper who was told that a camel could go three months without a drink. He said: "That may be, but who in H—l wants to be a camel?"

We never exaggerate and we never state what we do not believe to be true.

For the present, we believe that the Dayton is the Hill Climber, with its 3-inch tires.
