

Dayton Motorcycles

A Motorcycle Talk

We have ordered a Dayton Motorcycle on the strength of certain claims made for it by the manufacturer and the agents. They claim that it has more hill-climbing power than any other machine on the market.

As soon as it arrives we will invite any and all other dealers to arrange a tryout on the largest, steepest hill we can find.

If the Dayton don't make good, we don't want it and will turn it over to any "headquarters" or "rest room" willing to handle machines turned down by other dealers.

We have absolutely nothing at stake in the matter, except the understood fact that anything handled by the Marshfield Cyclery must make good, must stand advertising, must be first-class.

We don't have to take any more machines.

We would not order this one until the company would agree to that.

About the mile in 37 seconds—that reminds me of the toper who was told that a camel could go three months without a drink. He said: "That may be, but who in H—I wants to be a camel?"

We never exaggerate and we never state what we do not believe to be true.

For the present, we believe that the Dayton is the *Hill Climber*, with its 3-inch tires.

Meet Monday—No special meeting of the city council has yet been called to take up the question of calling an election for the voters to pass on the Terminal Railway matter. It will probably be brought up at the regular council meeting next Monday night.

Ekers Up Saloon—Hugh Sneddon has had the Klahn saloon, which he bought from E. W. Bernitt, the administrator of the Ferd Klahn estate, completely overhauled, redecorated and improved. He has placed Ole Noah in charge. The other Empire liquor places are also to be overhauled.

Estate Small—The estate of Ferd Klahn, the Empire liquor man who died recently will be under \$2000, considerably less than was expected. Mr. Klahn kept no books, his accounts being written on envelope backs, etc. This will probably result in many of the accounts of people indebted to him never being collected.
