The physics class has been studying the effects of changing the states of substances and the practical applications made of the heat and cold derived from such changes. The liquid air machine, manufac-ture of ice, and the cold storage process were discussed. The means of transference of heat have been studied this week also and the principles of heating and ventilating buildings studied in detail.

The chemistry class experimented with the metallic element softium, studying the physical and chemical properties and also several of its compounds. The elements born and silicon were studied in class. The manufacture and blowing of glass were taken up in connection with the study of silica.

Twin City Auto Stage Line

Jerry Kinney, formerly with the ralace Cafe, has inaugurated a new automobile stage fine, between Marshfield and North Bend. The service is known as the "Twin City Stage Line," and starts with two seven-passenger Cadillac will have more if the service warrants it. He inaugurates a round fare of 20 cents between the two cities. Inis, he believes, is all the service justifies since the new waterfront road reduces the time and also the cost of the service. He has made arrangements for the through service only, leaving the local service to the local autos but in case of an emergency will provide local service for
