UNITED STATES INSISTS THAT MADERO BE GIVEN FAIR TRIAL

Sec. Knox Notifies Ambassador Wilson to Serve Notice on Huerta.

HE DOES NOT WANT EX-PRESIDENT KILLED

Do Not Think That Imprisonment or Execution Is Warranted for Offense.

WASHINGTON, Feb. 21.—Secretary Knox with the approval of President Taft, has instructed Ambassador Wilson to convey to General Huerta the intimation that the United States will seriously object to the summary execution or sentence of Madero. It is not felt here that the former president should be slaughtered or put out of the way for crimes which seemed to be purely political without a fair open trial. The fact is not concealed that the United States looked with disfavor upon the shooting of Gustavo Madero, the president's brother.

WASHINGTON, Feb. 21.—Francisco I. Madero, the deposed president of Mexico, will not be railroaded to jail or thrown into a mad house or executed by the Provisional President Huerta, according to reports from Ambassador Wilson. Madero, the ambassador reports, will be given a fair trial and possibly the worst fate that awaits him will be exile.

DEPEND ON UNITED STATES. Germany Expected America to Care for Germans in Mexico.

BERLIN, Feb. 21.—The Mexican situation came up for discussion in the Imperial Parliament today, when Gottlieb von Jagow, foreign minister, replied to the interpellation as to what measures the government had taken for the protection of Germans in Mexico. He declared that Germany had not sent any warships to Mexico as the only available vessel in American waters was on the way to Philadelphia for repairs. Besides, he said, American warships in Mexican waters were prepared to care for all foreigners of any nation.

More Than 2,000,000 Cubic Yards of Dirt and Rock May Fall in Soon.

WASHINGTON, Feb. 21.—More than 2,000,000 cubic yards of earth and rock are in motion along the Panama Canal and the slides are showing more than usual activity, was the information received today. In addition to the slides which will involve additional work before the water is turned into the Canal, there remains about 4,000,000 cubic yards of excavation before the work is completed. On or about October first the water will be turned into the canal bed, for by that time it will have arisen behind the great dam at Gamboa to a height of 74 feet above sea level.

WILSEY WILL LEAVE SOON

Purchaser of Kinney Property to Go to Portland This Evening.

W. J. Wilsey will leave tomorrow morning via Gardiner and Drain for Portland on business. He had to cut his stay here short on account of other business. He will have a special boat to take him up the Umpqua and a special rig to hurry him through to Drain, to catch the night train for Portland. He will probably return here in the near future.

Today he and his agent, J. M. Eddy, were busy going over papers in the deal for the purchase of Major Kinney's entire holdings on Coos Bay. He had very little to say about it. It develops that J. M. Eddy, who has been here for several weeks, has been devoting his entire time to the Kinney deal and it is presumed that he has it pretty well rounded into shape.

Many Doubt Story. The news of the sale of the Kinney properties caused quite a stir here last evening. There was considerable doubt expressed by many about the deal being bona fide and some declared that they wouldn't believe it until they saw the change.

However, both parties to the deal as stated in The Times yesterday, confirmed the status of it, that the papers and money would be placed in escrow pending the clearing of titles, etc.

Major Kinney yesterday when he notified The Times of the sale, in discussing it, said: "This is the first time I have ever told anyone that I have sold out on Coos Bay and I wouldn't tell it now, only I want to play fair with my creditors and clear things up. I have realized something, but not nearly what I anticipated and what I should."

No Plan Given Out. Whether Major Kinney will personally attempt to straighten out his affairs to give title to Mr. Wilsey or whether Mr. Wilsey will take the property and have Mr. Eddy straighten out matters, meanwhile withholding sufficient payment to protect him, is a problem to the outsiders on the deal. Some think that the only way will be for the Wilsey interests to do the latter.

Sometime ago, Major Kinney estimated his debts at about \$400,000 but others maintain that the claims against Kinney are much greater than this amount.

Some have been running for years and the accrued interest will be quite an item.

Major Kinney has been operating here for over eleven years, coming from Roseburg and Alaska. He has been a great figure and his operations on Coos Bay are known far and wide.

A large number of his creditors are Coos Bay people, many in Marshfield, as well as North Bend. In addition to the direct indebtedness, it is figured that the deal will enable many who own property in the Kinney holdings to finally get their titles cleared up.

MADERO PLAN TO SLAUGHTER

Ex-President Is Charged with Plotting Whole Assassinations.

MEXICO CITY, Feb. 21.—Charges that were not altogether substantiated were made today by the new authorities tending to indicate that the Madero administration in its extremity was contemplating wholesale slaughter. More than one alleged list of names of those prescribed was found. A police officer declared that Madero personally and verbally gave him a list of forty-three deputies, a number of senators and all the newspaper men including foreign correspondents, with instruction to have them assassinated. The officer said that since the order was not in writing, he did not feel obliged to carry it out. Such stories as these are arousing bitter sentiment against Madero.

The father and son fought desperately for possession of the revolver with which Goldberg killed his wife, three shots being fired by the father during the struggle. The son finally wrested the revolver from his father's hands and shot him through the head, killing him instantly.

The Goldbergs had been separated about a year. Goldberg went to the house today and shot his wife in the fight that followed. Young Goldberg was detained by the police and freely admits his part in the affair.

Governors of Four States and Some Rebel Leaders Will Not Support Huerta.

CONSIDERABLE MISGIVING SHOWN IN MEXICO CITY

Government Is Unsettled Because of Opposition to Huerta and Supporters.

MEXICO CITY, Feb. 21.—Concern over the actual coming of peace to the Republic today, supplanted the speculation as to the fate of Francisco I. Madero, the deposed president. Dispatches from Chihuahua indicated that General Pascual Orozco would accompany David de la Fuente, chosen from the rebel list, as a cabinet minister, to the capital to personally express his allegiance to the new government. No word from Zapata and disquieting reports that governors of four states have openly refused allegiance, made the situation more complex. The federal forces, it is understood, will be despatched to these states to check any rebellious movements. Madero with Suarez and Garsa remained under guard all night. General Huerta personally assured Senora Madero that the ex-president would not be executed.

Huerta Protects Madero. Solitude for the personal safety of Madero was given by Provisional President Huerta to the diplomats today as the reason the ex-president cannot be removed from the capital for the present. Huerta recalled to visitors the historic attack on the train that bore ex-President Diaz to Vera Cruz as his way to exile in Europe. Huerta himself was in command of the escort. President Huerta added that the investigation of the records of the Madero administration was being continued with great care.

ADELINE TO MAKE RECORD

Four-Day Schedule Between Coos Bay and Bay Point Is Possibility.

A round trip between Coos Bay and Bay Point in four days. Sounds rather startling but nevertheless it is expected that the Adeline Smith, the new lumber carrier of the C. A. Smith Company, will make that record in the near future.

Designer Hough figures that the Adeline Smith should be about twenty hours faster on the trip than the Nann Smith and the Nann Smith under Captain Olson maintained a regular five-day schedule between here and Bay Point for a long time and is practically doing so under Captain Magee now. This would be one hundred and twenty hours for the Nann Smith's round trip and with twenty hours off this, as is estimated by Designer Hough, the time of the Adeline is left at one hundred hours, four hours more than four days. It is expected that Captain Olson by figuring and pushing will trim off these four hours and bring the Adeline up to a record that will be more than gratifying to C. A. Smith and Arno Mersen.

The Nann Smith arrived in today and will finish loading and get out tomorrow. The Adeline will immediately take on her cargo and will probably get out Sunday. She has been freshly painted and overhauled after her long trip to Coos Bay and will leave port on her initial trip on her new run spick and span. Designer Hough will make the trip on the Adeline to watch her.

It is not expected that the Adeline will be loaded to capacity the first trip and may not take much more than 1,600,000 because Captain wants to have a little leeway to try out the new vessel. While she will carry about 2,000,000 feet of lumber with nineteen foot draught, the lumber now is water-soaked and heavy and any way the lumber here is heavier than the average.
