Community Development

THE greatest injury done to any community is by sending surplus money to develop another community when there is development work to be done at home.

There is no section in the United States today in greater need of development than Coos Bay and Coos county.

There is no section that offers as large rewards for investment. There is no place where the investment is protected with such certainty of permanent value and prospective profits as Coos Bay—North Bend, Marshfield, Bunker Hill, Eastside, Coouston—they are all good.

When a smooth stranger approaches you and wants to sell you a Florida fruit farm or California cut ranch, just ask him what's the matter with Coos Bay. Every additional dollar that is put into the development of Coos Bay and Coos county increases the value of every other dollar. You can see every lot and piece of land in Coos county before you invest. You know the prospects and possibilities of this section.

You make an investment here from \$10 to \$10,000, with confidence and certainty that the values are substantial.

Why take chances? Faraway farms are fair, but investments here at home are more secure.

The smooth promoter paints a pretty picture of the orange groves and celery fields of Florida, but he forgets the fever and does not mention the malaria.

California is a great state, but there is grief as well as gold in its vast expanse of garden. The pot of gold at the end of the rainbow has never been found and the gold in the golden opportunities far away is usually fools gold.

Invest your money at home.

Wind: Northwest; clear.

W. C. T. U. Meeting.—The W. C. T. U. will meet Monday afternoon at the home of Mrs. Fannie Wheeler, instead of Saturday.

Major Morrow Due.—Captain T. J. Macginn reports that Major Morrow will be in Portland Saturday or Sunday and he expects that he will bring some good news for Coos Bay harbor and bar.

Gets Auto.—George Goodrum today received a 1913 Cadillac touring car for Carl F. Johnson. Mr. Johnson and family will leave soon for California and will take the auto with him to tour that state.

Meet Today.—A meeting of the directors of the Terminal railway will be held this afternoon. Just what is coming up and what bearing it will have on the negotiations with the Southern Pacific for the steam franchise is not certain.

Play Bandon.—The Marshfield high school basketball team left this morning for Bandon, where they will play the Bandon high school team tonight. Prof. Grannis went with the team and Ed Bolt also accompanied them. The Marshfield high school girls' team was not able to make the trip this time.

Meet Tonight.—A public meeting has been called to be held at the Marshfield Chamber of Commerce this evening to make arrangements for a public reception to Senator I. S. Smith on his return from Salem, where he has done such efficient work for Coos county in the Oregon legislature. The affair will be non-partisan. It is called for 8 o'clock.

One Arrest.—Last night, a Mexican who was celebrating, was taken into tow by Marshal Carter and this morning when it was found that he did not have any pesos, he was given a job cleaning out the fire room for Engineer Stutsman. Whether he was Maderista, mourning for the loss of his leader, or a Huerta follower, celebrating the latter's victory, Marshal Carter did not ascertain.

Instal Elevator.—An Otis elevator which W. S. Chandler ordered last October for the Coke building arrived here today and will be installed at once. It is a ten-horsepower elevator with a passenger cage five feet square. The Coke building will be the first office building in Marshfield to have an

elevator and it is the second elevator in this section, the other being in the Chandler Hotel.

Still Very Low.—There is little change in the condition of Lee Webster, the Empire pioneer, and today very little hope was entertained for his recovery.

Very Low.—It was stated today that Jas. Learmond, who, while demented, threw himself under a logging train near Bunker Hill yesterday, is still unconscious. It is doubtful if he can recover.

No Partnership.—S. C. Puter of Portland, who is here on some land matters, says that he and E. L. C. Farrin are not working together, the report circulated here being erroneous. He is here on private business and looking after some timberland, he says.

Move Soon.—Frank Smallwood, who will merge the Baltimore and Merchant Cafes, this morning closed the Baltimore and will overhaul it before moving his other restaurant in next week. Fred Knudsen, who sold the Baltimore has not decided whether or not he will leave the Bay.

Dies Today.—Andrew Johnson, a native of Sweden, died today at Mercy hospital at North Bend. He was 71 years old and for many years made his home with the C. E. Hansen family on Haynes Inlet. He has no relatives in America. A complication of diseases caused his death. The funeral will be conducted Sunday morning at 11 o'clock by Rev. B. F. Bengtson from Wilson's chapel.

Build New Road.—Geo. Snyder is down from Daniels Creek, where he has been employed at McDonald & Vaughan's camp. The camp has been shut down for awhile owing to some changes and extensions in the logging road. About two miles of new road will be built and the camp will soon be moved further down. While the new road will not be completed for some time, it is expected that logging operations can be resumed in a week or so.

Prospects Good.—E. W. Wright of Portland arrived here today to look after property interests. He intended to return on the Breakwater tomorrow, but has decided to remain over and attend the North Bend celebration. He says that many in Portland are much interested in Coos Bay now and that there will be a big influx here this summer. The Coos Bay-Eugene road will be finished

ed to Mapleton soon. Porter Bros. are planning to rush the rest of the work and a steam shovel will be brought to North Bend soon to start actual construction there.

Along the Waterfront.

The Nann Smith crossed out at 7 o'clock this morning for Bay Point, having made a new record here. She crossed in, loaded and sailed in about 22 1-2 hours, taking on about 1,600,000 feet of lumber. Captain Magee was highly elated over the work, having planned to make a new record.

The Glendale sailed from Bandon today for San Francisco with lumber.

The Sausalito sailed from Bandon for San Francisco yesterday.

The insane asylums of all civilized countries are now overburdened with patients as never before. Dr. T. B. Hyslop of London, a leading brain specialist, predicts that in 50 years half the world's population will be insane.

WITH THE TOAST AND THE TEA

GOOD EVENING.

Channing observes that there is one thing which makes all men truly equal and which may place in the front rank those most depressed in worldly condition. He says, "I refer to the sense of duty, to the power of discerning and doing right" * * * to the inward monitor which speaks in the name of God, to the capacity of virtue or excellence. This is the great gift of God.

"A PRAYER."

God, though this life is but a wraith, Although we know not what we use,

Although we grope, with little faith, Give me the heart to fight—and lose. . .

From compromise and things half done Keep me, though all the world deride,

And when at last the fight is won, God, keep me still unsatisfied, —Louisa Untermeyer.

It's a poor mule who has no kick coming. —H—H—

GOV. MARSHALL THERE.

Vice President-Elect Reaches Washington Today. (By Associated Press to Coos Bay Times.) WASHINGTON, Feb. 28.—Vice President-Elect Marshall arrived here this afternoon and was met by a committee including a delegation headed by Senator Kern and Representative Dixon. His arrival marks the beginning of the inaugural period.
