#### AN ABSURD GUEST.

DR. LOUIS D. EDVARTS, referred to in Washington dispatches as a German scientist, is entitled to wholesome sympathy and a cordial word of good cheer if his estimate of the future young American is correctly outlined.

"Your future young man," said he, "will be like lots of the boulevardiers of Paris and Berlin of today. Many of our rich young men spend hours preparing themselves for the street each morning. They go through endless bathings and manicurings. As a result they are a set of pampered cynics. Many of them are what you call here 'mollycoddlers.' I regret to imagine the future American youth of the city. He will probably be of slight frame, wear a monocle, carry a short, delicate walking stick. He will be up 'till early hours of morning. The late afternoon will be his rising hour. This is the sort of man who comes before the fall of nations."

Herr Edvarts is as amusing as the other men of foreign training who undertake to understand America after a week's visit. Nevertheless, a guest who suffers from dyspeptic pessimism to the extent indicated by this interview is entitled to sympathetic enlightenment whatever our judgment of him may be.

The man who will count in this country is the man who does things. Every nation has its mollycoddlers, always has had them, in this country they do not count; in Berlin and Paris they may.

#### GOLD BEACH ROOM.

The town of Gold Beach, which has been enjoying a healthy growth for the past three or four years, is continuing to grow. A hardware and drug store are among the latest additions to the business houses of the town, which also boasts of two merchandise stores, two first-class hotels, one bank, two soft drink establishments, and other business enterprises, as well as a number of new and up to date dwellings. With the opening of Rogue river, Gold Beach will enjoy still further prosperity. Port Orford Tribune.

Dr. C. W. Tower Visits With Harvard Classmate at Monrovia.

The following from the Monrovia Daily News will be of interest to many on Coos Bay:

"A few weeks ago Dr. Tower arrived here from Coos Bay, Ore., seeking the sunshine and warmth of southern California. E. C. Perkins, a lawyer of Boston, sojourning in Phoenix—a classmate at Harvard—learning of this, came to this town. These old friends then arranged for the coming of the third. And Dr. Jay Tuttle, A. A., surgeon, U. S., P. H. S., from Astoria arrived yesterday. It is fifty-one years since these three friends were all together. In the year 1862 they were preparing for Harvard College at Exeter, N. H.

"There has been a great talkfest going on in a certain room at 'Leven Oaks.'"

## CALL ELECTION ON MARCH 18

(Continued from Page One.)

said that they could refuse to ratify the transfer and thus block it.

There was talk about calling the special election for Monday, March 17, St. Patrick's day, but Councilman Albrecht said that would not be fair to the women because Monday is "wash day" and they could not get out to the polls. Finally Councilman Coppel made a motion calling the election for March 18, from 8 a. m. to 7 p. m., and providing for two questions to be submitted.

One question will be, "Shall the Terminal Railway transfer the steam line franchise in Marshfield with its present common user clause to the Southern Pacific?" The other is: "Shall the Southern Pacific transfer its franchise with the 'cinch' common user clause to the Southern Pacific?" The wording may be changed by the special committee, but that was the sense of the motion.

**Who Pays For It?**  
 In its original request for the election the Terminal Railway offered to defray the expense of it. However, the election is not called exactly for the purpose they wished and City Attorney Goss said they might not make good. Councilman Ferguson said that if they didn't the city could pay for it.

Mayor Straw wanted to know what good the election would do. Councilman Allen said it would relieve the council of responsibility and Councilman Ferguson said that it would put it up to the directors to make good as the trustees of the people.

J. H. Milner, S. B. Cathcart and W. P. Murphy were named as judges of the election and W. E. Wilson, Max Timmerman and Alva Doll as the clerks of election. Councilman Winkler wanted a woman appointed a member of the board, but the others did not favor the idea.

**Stafford's Candy Is the Best**

man appointed a member of the board, but the others did not favor the idea.

#### Band Proposition.

After the special election had been called, F. E. Wilson asked that the question of the town supporting the band be also submitted. Councilman Coppel thought that it would not be a good idea to submit the band matter as it might confuse the railroad and band issues with the voters. He said the band was provided for now for this year and that the matter could be submitted this fall and made binding instead of advisory.

Councilman Ferguson thought it would be a good time to submit the band question also as it would bring out a bigger vote.

It was finally agreed to place it on the ballot also.

#### ALONG THE WATERFRONT

**New Meat Company.**—According to an authentic report here, the Armour Meat Company is arranging to establish a branch house on Coos Bay. It probably will be through Libbey, McNeil & Libbey, which is now understood to be controlled by the Armours. The opening of railroad construction here will mean a big increase in the demand for meat and the Armours want to get in on it as well as to establish a branch supply house here for this section.

**Veterans Attend.**—The funeral of Lee Webster yesterday was attended by more members of the G. A. R. than has been assembled here on any occasion for a long time. Baker Post members present were: D. W. Small, A. D. Wolcott, E. W. Schrock, I. S. Kaufman, B. Coleman and R. J. Walrath as honorary pall-bearers, S. Miller as color bearer and S. B. Cathcart as commander. Two or three others attended the services at the Marshfield Presbyterian Church, but
