Announcement

We have just opened our stock of plate glass, window glass, art glass, mirrors, prismatic glass, etc., at 727 South Broadway, Marshfield.

While all of our stock has not arrived we are now prepared to take care of all ordinary orders.

We will be pleased to show you samples of our glass or or to talk over any order you have in mind. We have made arrangements to supply you anything you need in the glass line—no matter how large or how small, how heavy, how ornamental or for what special purpose it is required.

We will cheerfully furnish estimates on large windows, show cases, mirrors, etc., and will give special attention to telephone orders.

Drop in and let us show you. Give us a trial order the first time you need anything in this line. We make a specialty of glass.

Coos Bay Business College

You know what you are worth today. What are you going to be worth five years from today? When we build a house we have a plan. When we build a career, most of us putter, dawdle, dream dreams, and wait for some favorable breeze to waft us to harbor. Lack of business training is not only a handicap—it is an absolute block to your advancement. Will you consider this a little while you are building the man or woman who later will be YOU? Start right by starting NOW—For something worth while. Positions in abundance and no trained help.

Why You Should Read These Talks Every Day

By JOHN P. FALLON.

They were started four months ago in one newspaper which is purchased by 132,000 people every day. Now they appear simultaneously in nearly four hundred and fifty daily newspapers which are read by more than twenty million people every day.

The purpose of these talks is to show the importance, the value and the economy of reading advertisements. They will convince you of the superiority of advertised goods and the reliability of merchants and manufacturers who advertise continuously and persistently.

It will be of interest to read each of these daily talks every day of this month and profit by the information and suggestions they contain. Read the advertisements in THE TIMES tonight and every night for the latest merchandise news and for the money-saving opportunities they feature.

PEOPLE SHOULD GUARD AGAINST APPENDICITIS
Marshfield people who have stomach and bowel trouble should guard against appendicitis by taking simple buckthorn bark, glycerine, etc., as compounded in Adler-i-ka, the German remedy which became famous by curing appendicitis. A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY because this simple mixture antisepticizes the digestive organs and draws off the impurities. BOOMS ON SIUSLAW.
Clash Over Wendling-Johnson Plans For Logging.
The Eugene Register says:
The application of John E. Ryan, representing the Wendling-Johnson company, to have the Siuslaw river declared a public highway for the transportation of logs, occupied the county court all forenoon. After listening to the arguments it was said that a new and more definite application will be made by the company.

The company proposed to lease the river, improve it from above Mound to tidewater, making it more useful for the floating of logs, and in return the company proposed to collect 10 cents per thousand feet toll on logs put into the Siuslaw between tidewater and the mouth of Lake Creek. From points between Lake Creek and the mouth of the Wildcat, 20 cents; for points between the Wildcat and Mound, 30 cents; from points above Mound, 40 cents.

Objection was made that the rates were too high and likewise that the extent of the improvements that the company would make was too indefinite. Objections were made not to the improving of the river, but to the leasing of it as a toll way. Other timber owners along the stream are willing to point in the expense of making it navigable for the floating of logs, but do not want to have to pay toll to another company.

Pending a more definite application from the Wendling-Johnson Co., and the action of the legislature on the matter of guarding logging streams, the court will make no order.

LANE COUNTY FARM SOLD.
The Eugene Register says: "The Great Western Land Company has just completed another important realty transaction, in selling over 300 acres situated on the Coos Bay line nine miles west of Eugene, highly improved with orchards, and in a splendid location to E. M. Warren of this city for $40,000."

THE ELECTION IN NOVEMBER

Wet and Dry Issues Can't Be Submitted Except at That Time.

The following is Judge Coke's opinion in denying the writ of mandamus to compel the Coos county commissioners to call a special election in Myrtle Point, April 7, to submit the "wet and dry" issue:

"The only question presented me was as to whether an election can properly be held for said purpose on a date other than the first Tuesday after the first Monday in November.

"Section 4922, Lord's Oregon Laws, provides as follows: 'The election hereunder shall be held only on the first Tuesday after the first Monday in November of any year. . . In every county . . that shall return a majority vote for prohibition at any election the law shall take effect on the first Monday of January following the day of election.' It is further provided that if the election is called to be held at the time of a general election the regular judges and clerks of the election shall act, but if called for the time of any city election it shall be held by the judges and clerks appointed under the city charter. It is also provided that if the election is 'To be held at the time of a city election occurring in a year in which there is no general election' then the county clerk shall notify the proper city authority that such election has been demanded, etc. These are the only provisions of the statute which bear upon the question presented.

"Petitioners insist that where the election is to be held in any city or town that it may be held at the time of any city or town election, but the first provision of the statute above quoted prohibits in positive terms the holding of any election for the purpose named on any date other than the first Tuesday after the first Monday in November, and, therefore, if the election is be held at the time of any city election and not at a general election such election must also be held only on the first Tuesday after the first Monday in November.

"Based on the foregoing consideration it is my opinion that the writ should be denied."

ROAD TAX LAW

The Roseburg Review says:
Under the provisions of Senate bill No. 336, introduced by Senator Geo. Neuner, and passed by both houses of the legislature, the special road taxes levied for the present year are validated and will be collectible. This bill especially provides for curing two defects in the 1909 law, pointed out by the Supreme Court in a decision recently handed down on an appeal from Lane county, in which case the appeal was remanded to the lower court and where it is still pending. The old law was held defective in that it provided that "the taxpayers of any road district" . . . may vote an additional tax for road purposes," etc., without requiring them to be residents of the road district. Without such restriction it was held that votes might be cast by persons living in other road districts, counties or states, if they owned property within the district in which the tax was being voted upon. The new law provides that the voters on such special tax levies must be "resident" taxpayers of the road district.

Another defect was in the matter of holding elections for voting special road taxes. To cover this more specifically, the new law provides:
". . . At least ten per cent of the taxpayers of said district shall give notice by posting notices in three public places in such district, and one in the court house in the county in which said district lies, at least ten days prior to the meeting hereinafter provided, and publish one notice at least three weeks in one weekly newspaper of general circulation in said county, which notices shall be signed by at least ten per cent of the taxpayers of said road district, and shall give the time, place and object of said meeting," etc.

The supreme court has ruled.
"The amendment of 1909 is defective in that it does not expressly provide for the calling of a meeting. It does not specify whether the notice shall be given prior or subsequent to the meeting nor the length of time during which such notice shall be extant."

The amendment above quoted fully covers this defect.

Two very important new sections were added to the measure just passed, as follows:

"Section 2. All taxes heretofore levied and raised under the provisions of Chapter 202, laws of 1909, and prior thereto, are hereby invalidated and declared to be lawful taxes and collectible, notwithstanding any formal defects in the levy thereof, or in the law providing for the same.

"Section 3. Whereas, by the recent decision of the Supreme Court of this state, many road taxes in the state are not levied in strict accordance with law, and that the same are immediately necessary for the maintenance of roads and highways, it is hereby declared that the provisions of this bill are necessary for the immediate protection of the peace, health and safety of the state, and that an emergency exists, and is hereby declared, and that this act shall go into immediate force and effect after its passage."
