## SOCIAL CALENDAR

**WEDNESDAY**  
Ladies Auxiliary of the Presbyterian church with Mrs. J. E. Burkhardt.  
Methodist Ladies' Aid in the church parlors.  
Pricilla Club with Mrs. F. Grinolds.

at 2:30 at the Christian church. They will have charge of the services at the Christian church next Sunday evening.

**Postpone Meeting**—The Ladies' Art Club has postponed its next regular meeting until a week from Friday when Mrs. F. M. Flye will be hostess. This will make the next meeting March 28.

**May Build**—Capt. Wm. Magee of the Nann Smith has bought a lot in South Marshfield near E. A. Anderson's residence and expects to build a fine home there soon.

**Railway Workmen**—The Nann Smith today brought in forty-seven more workmen for Willett & Burr. Supt. Riggs of the company said, while here the other day, that the force of men was being increased as rapidly as possible and that they hoped to have 500 or so rushing the work before long.

**Many at Concert**—The concert at the Masonic Opera House Sunday afternoon, drew a large attendance and the program was an unusually enjoyable one and most excellently rendered under the direction of Director Fenton, the various numbers being loudly applauded. At a meeting last evening, the band adopted new by-laws and constitution and made arrangements to try and get out the vote today to insure municipal support of the organization.

**Discuss Pastor**—A meeting of the Marshfield Swedish Lutheran congregation will be held Wednesday evening to arrange for a successor to the Rev. John E. Ostlund, who has resigned. Several are said to be under consideration. The North Bend congregation will meet Thursday night for the same purpose.

**Gage at Salem**—W. W. Gage of Coquille, the sheriff of Coos county, was in Salem yesterday. Mr. Gage was after extradition papers for a man at present in Utah, who is wanted in Coos county for forgery. He will probably leave for Utah today. Mr. Gage is now serving his seventh term as sheriff of his county.—Salem Statesman.

**Coming to Coos Bay**—In a business letter to The Times, F. F. Triant, superintendent of the Arizona and Southern railway at Silverbell, Arizona, stated that he and Mrs. Triant expect to make a trip to Coos Bay the coming summer to spend their vacation. Mrs. Triant will be pleasantly remembered here, having visited on Coos Bay a couple of years ago.

**To Michigan**—Miss Agnes Carpenter, one of the Marshfield high school teachers, says that the report that she is planning to go to Honolulu next year is erroneous. Her parents have been urging her to spend the next year with them at Muskegon, Mich. as all the other children will probably be away. She has about made up her mind to comply with their wishes, but if she does teach she will probably return to Marshfield, much to the gratification of the many friends she has made here.

**Made Fast Time**—The Nann Smith which returned here today made a new record, having made the trip to Bay Point, discharged her cargo and returned in over the bar again in 9 1/2 hours. Her fastest round trip was two weeks ago, when she made the round trip in one hour less than five days. The Adeline Smith unloaded at Oakland this time, but the Nann Smith made as good time to Bay Point. The Adeline is working better now and when a new electric crane is installed, she will make better time. She will not be able to carry within about 400,000 feet as much lumber as it was first estimated that she would.

**J. C. JONES** left for his homestead this afternoon, where he will make active preparations for the coming season's crop, which he expects will be large. He will remove his family there later.

**MRS. JAS. FAULKNER** has arrived in the city from Portland for a visit at her old home here. Jimmie Faulkner, who will be well remembered here, has gone to Alaska and as soon as he is located Mrs. Faulkner expects to join him.

**GEO. B. LAIRD** and **L. B. MURPHY** of Bandon were here today en route home from Florence, where they have been looking over the situation with a view to installing a water system.

**MRS. GUY C. LATTIN**, who has been spending the winter with her parents at Alpine, N. Y., has written Mr. Lattin that the old folks are now arranging to sell their ranch and come back to Coos Bay with her to make their home. They will probably reach here some time next month.

**SUPT. T. C. RUSSELL** of the Beaver Hill mines was in Marshfield today on business. He reports that good progress is being made on the new shaft and that he hopes to be taking out coal in good quantities this fall. Inspector Brooks who recently inspected the mine, was simply one of the traveling inspectors of the Southern Pacific mines and his visit here did not signify anything.

## AMONG THE SICK.

Miss Annie Rankin of Daniels Creek left for home this afternoon after a week's stay in town during which time she has been under the care of a physician.

Roy Layton, son of Mr. and Mrs. Frank Layton, the well known traveling man, is suffering from a severe attack of rheumatism, being confined to his bed in his quarters in the Chandler hotel.

Mrs. Duncan Ferguson, who has been quite ill, is reported improving. Dr. E. E. Straw is suffering from a slight injury to his leg, sustained while on a fishing trip up Coos River Sunday. While he is not laid up, he has to limp considerably.

Mrs. Dorsey Kreitzer, who has been seriously ill of la grippe is expected to be able to be out today.

E. K. Jones is confined to his home by a badly sprained ankle, sustained by slipping on the walk near his home Sunday. He will probably be laid up quite a while by the injury.

Mrs. Will Button of Bandon, who recently underwent an operation at Mercy hospital, is reported to be getting along nicely now and will be able to return home in a week or so. Mr. Button spent Sunday with her here.

## Along the Waterfront.

The Agnes H. is running in the place of the Rainbow today, the latter having met with an accident near Allegany yesterday afternoon.

The Breakwater has been delayed in Portland this trip and will not leave the Rose City until Thursday forenoon. She will sail from Marshfield for Portland at 9 a. m., Saturday, one day later than her usual schedule.

A Portland paper says: "The gas schooner Mirene has been bought from Barnes & Co. by George Mays and an associate, and is expected to maintain a weekly schedule between this port and Wadport and Newport."

The Adeline Smith and the Nann Smith arrived in early this morning from Bay Point and both will sail early tomorrow with cargoes from the Smith mill.

The Hardy sailed this morning for San Francisco with a cargo of lumber.

Like an echo from the past, is the following item from a San Francisco paper about the sailing of a whaling ship from that port last week:

"Whaling is not altogether a lost art, although the great fleet that formerly flitted out here yearly has few survivors. One of the few old-timers still making the cruise is the auxiliary power whaler Belvedere. For some days the old boat has been fitting up at the Harrison street wharf, and yesterday Captain Cottle took out his clearance papers and sailed toward evening. As in former days, no particular port is given as the destination of the Belvedere. She cleared for a 'whaling and trading' cruise by way of Seattle and Petropovalsk.

Whalebone is not in demand as it was not so long ago for the stays in milady's corset, and it is even difficult to get a worth while price for the oil.

## BLANCO LIGHT IS ORDERED

A Portland paper says, "Announcement was made by Henry L. Beck, inspector of the 17th light-house district, that the Bureau of Lighthouses has ordered a change in the Cape Blanco light, to be made in the fall.

Cape Blanco Light—Characteristic of light to be changed about November 1, 1913, from fixed white to occulting white, showing group of two occultations every 20 seconds, thus: Light, 13 seconds; eclipse, 2 seconds; light, 3 seconds; eclipse, 2 seconds, without other change.

## NOTI TUNNEL WORK.

**Twohy Brothers Have Contract About Two-thirds Done.**  
The Eugene Register says: "The big Noti tunnel on which Twohy Brothers have been working for so long is now more than two-thirds completed. As soon as the west slope of the mountain through which it is being bored gets a little drier, work on the other end will be commenced and the rate of cutting will be more than doubled as they will not have so far to haul out the refuse.

"Two cars of horses for railroad construction work arrived over the Southern Pacific yesterday and will go to the front as soon as they can be taken. They will work on the Willamette Pacific between Eugene and the tunnel."

## VOTE FOR THE SUPPORT OF THE COOS BAY BAND

"Music hath charms," you know, "to soothe the savage breast." Vote early and often. But don't forget that SARTER'S fountain mixes drinks to soothe the throat.
