

# BIG REMOVAL SALE!

## STARTS THURSDAY, MARCH 20TH, AT 9 A. M. SHARP. Everything Goes Regardless of Cost

Our entire stock of suits, coats, dresses, ladies' misses' and children's furnishings must be sold by April 1st, when our new home on Central Avenue will be completed. We will positively not move a dollar's worth if we can help it. We have marked every article down to nearly nothing. Ladies will find bargains here that will astonish the most critical shoppers. Everything goes in this big sensational bargain event.

#### REDUCING THE PROBLEMS OF LIFE.

**A** CONNECTICUT Yankee has invented a contrivance which he calls a "gastograph" to produce the sensation of eating and drinking when you have no actual food and drink before you. The gastograph works on the principle of the phonograph, and a "sensation recorder" tickles the palate with all the delights of a genuine feast. It looks like a great thing for our professional banquetters, and may yet put the "food trust"—if there is a food trust—out of business.

In connection with Professor Munsterberg's enchanted relaxation chair, designed to do away with the necessity of sleeping, it seems as if some of the toughest problems of life had been solved. After these two achievements, it should be easy to invent something which would keep us an even temperature without clothes, and it remains for Luther Burbank to produce a cactus that will grow twenty-dollar gold pieces in place of spines.

However, with a gastograph, a Munsterberg and no necessity for clothing, there are some of us who might manage to pull through without the coin.

#### WITH THE TOAST AND THE TEA

#### GOOD EVENING.

All power is the result of the spark of inspiration properly applied. Be the spark and some one will be ready to supply all the gasoline you can explode.

Dead men make no sales.

A rolling stone gets the hard knocks.

Give a pretty girl a mirror lest she get lonesome.

Few men so live that when they die the undertaker sheds tears.

A male never realizes how insignificant he is until he attends a suffragette meeting.

Though married to a cooking school graduate, many a man would rather fight than eat.

Looking for little faults in your

neighbors enables you to overlook a lot of big ones in yourself.

Why does a successful man always give his friends the same brand of advice that he uses in his own business?

#### EVERYTHING'S SAFE.

Let it never be forgotten that the times are rotten—rotten!—The chorus swells and smites our civic ear.

We're assured our would-be statesmen demagogues are, addle pates, men

Who give cause our nation's speedy end to fear.

But in criticizing men, seeking fatal faults, and then

Building wide with means the critic's art employs,

It may prove that such conclusions are the outcome of delusions—

It must be they've overlooked one point—our boys!

So you're told in books and powwows that we're going to the bowwows.

That our sun the zenith high fare-well has kissed;

Don't believe it for a minute, there is really nothing ill!

It's just twaddle from the foolish pessimist.

If you're still inclined to doubt, step outdoors and look about;

On the lawns and lots and playgrounds—what a noise!

There disports the coming nation—there's the state in incubation—

Good old-fashioned, dirty faced, rampaging boys!

Yes, I know it happens sometimes—that to all of us there come times

When we doubt our brighter hopes will e'er mature!

But when faith in men is shaken and dismay its place has taken,

Then a glance around our hearts should reassure.

See the boys! While we have such there's no need to worry much—

Let the present show its lack of solid poise;

Leave your pessimistic humors, flout all horrifying rumors—

There's salvation in our hordes of romping boys.

#### AKUTAN REACHES HARBOR.

A Portland paper says: "Without meeting with a mishap the hull of the new tug Akutan, belonging to the Alaska-Portland Packers' Association, arrived at the plant of the Willamette Iron and Steel works at 1:30 Monday morning. The Wallula brought the craft to the Columbia river and the Ocklaha from Astoria to the local harbor. The boiler and machinery will be installed in the Akutan at the Willamette Iron and Steel works. She is expected to be ready to leave for the company's salmon grounds on the Nushagak river, Alaska, about May 1.

#### AMONG THE SICK.

F. A. Sacchi was able to be down today after being laid up for a few days as a result of an attack of blood poisoning. While he has not fully recovered, he is much improved.

George Welstead is recovering from the grip.

Mrs. Frank Marhoffer is confined to her home on South Broadway by grip and bronchitis.

The young child of Mr. and Mrs. C. S. Hoffman of West Marshfield is reported ill.

Mrs. James Forty of Flagstaff, who has been so seriously ill, is reported much improved today.

Gladys Perry is reported ill at the home of her grandparents in Railroad Addition of grip.

Mrs. W. S. Turpen, who has been suffering from a severe attack of the grippe and rheumatism, is reported improving.

A peculiar feature of the grippe has developed here this spring and that is what nearly all who have had the ailment have suffered attacks of rheumatism before recovering. In some cases, the rheumatism has been quite acute.

Miss Julia Holms, clerk at Sarter's, who has been quite ill, is reported improving rapidly.

John Lemure is recuperating from a severe attack of la grippe.

#### MILL ELECTS OFFICERS.

Coquille Manufacturing Company Holds Meeting.

The Bandon Recorder says: "The stockholders of the Coquille River Manufacturing Company held a special meeting at Bandon on Tuesday afternoon. The officers of the company are: President and Manager, George Caisendorfer; Vice President, S. P. Bartlett; Secretary and Treasurer, John Neilson; These gentlemen together with C. A. Smith of North Bend, and R. W. Bullard of Bullards, constitute the board of directors. The other stockholders in the company are D. A. McCloud, J. L. Kronenberg, F. S. Perry, H. L. Houston, Chas. Ashton, O. A. Trowbridge, J. W. Mast, Lyons Johnson Lumber Co.

### COOS BAYITES IN BERKELEY

Miss May Preuss Initiated by Sorority—Portland Club Entertains Many.

(Special to The Times.)

BERKELEY, Cal., March 19.—Miss Mae Preuss, '16, of the University of California, her friends will be glad to learn, is no longer one of the small number of the uninitiate of the Oregon students at the university. Miss Preuss was recently "rushed," and is now a member of the Alpha Omicron Pi sorority of which her classmate, Miss Nora Tower, is also a sorority sister. The Alpha O's represent one of the oldest and most solidly established of the American sororities and is a national association of widespread influence. This speaks the popularity of our home students in California.

One of the most brilliant social affairs of the season at the university was the reception and dance given by the Portland club of the University of California to the general college public. The dance was held at Cedar and Arch streets in Berkeley, at the Hillside clubhouse. The club was represented by most of the Oregon students. All of the ten or twelve Coos Bay students are members of the Portland club, and most were present. The Portland club, which is composed of students in the University from all parts of Oregon, was established several years ago to promote fellowship and home interest among the northern students of the university. Quite a number of the club members are Idaho and Washington students.
