WILL BE LATE

PORTLAND, Ore., March 24 .-The Telegram says:

"Strawberries, the first of the new Spring fruits, were due last week, and would have come but for the set-back in the Spring opening programme occasioned by the queer turn taken by the weather. Local dealers looked for small offerings of California berries the latter part of this week, for the first of the season usually appears by Easter time, but reports from the southern state tell of weather just like Oregon has had for several days, and berry shipments have been delayed.

"There will probably be some California berries in the market the coming week, and dealers say that in all probability they will have lim-ited offerings of the fruit from Louisiana about ten days hence. From that time on the supply of the fruit will steadily increase, and within a few weeks at the most there will be plenty of berries on the local mar-

Until that time consumers will have to be satisfied with apples, oranges, grapefruit and rhubarb and in this connection it may be of interest to householders to know that apples now are going at even lower prices than those of a week ago. The dealers realize that with rhubarb already in good supply and the Spring fruits near at hand the end of the apple season is not far away, and they are offering Oregon's staple fruit at prices calculated to get it out of the way. Apples today are selling at prices all the way from 10 to 50 cents a dozen and by the box at the lowest prices known since the open-ing of the season.

"Oranges are rather firmly held, owing to the scantiness of supplies in the South, and the tendency of prices is upward. Fancy navals are going at 40 to 60 cents a dozen. Florida grapefruit of good quality is available at two for a quarter.

In the vegetable market this week there are two new arrivals—1913 potatoes from Florida and new Ber-muda onlons from Mexico—and both show good quality for first offerings. The potatoes are retailing at 15 cents a pound and the onions at two pounds for a quarter. Asparagus from from California is

in fair supply and the best of the is going at 50 cents a bunch of two pounds. Other grades of the product are selling at 15 cents a pound. Oregon asparagus will be in evidence soon. Rhubarb has been coming in a fairly free way for a week and is now retailing at 10 cents a pound. Wax beans are available in a small way at 35 cents a pound and green peas at 30. Cucumbers are still a rare commodity, retailing at a quar-ter apiece, and artichokes hold at 15 cents each. In the fish market a few import-

ant price changes are noted. Chi-nook salmon, which is relatively scarce, has gone up to 25 cents a pound and salmon trout now is re-tailing at 27 cents. Columbia River smelt is available at four pounds for a dime and herring hold at four pounds for a quarter. Black cod repounds for a quarter. Black cod re-tails at 12 1-2 cents, sturgeon at two pounds for 35 cents, sole at 10 and perch at 15.

Crabs hold at 12 1-2 to 20 cents apiece, razor clams at 15 cents a dozen and shrimp at 15 cents pound. The market is well suppl with all sorts of smoked and dried

"Poultry prices remain the same as those of a week ago and no change is noted in the butter market. Eggs have stiffened a bit, the best now retailing at 25 to 30 cents a dozen."

Comfort Your Stomach We pay for this treatment if it fails to promptly relieve Indiges-tion and Dyspepsia.

Rexall Dyspepsia.

Rexall Dyspepsia Tablets remedy stomach troubles because they contain the proper proportion of Pepsin and Bismuth and the necessary carminatives that help nature to supply the elements the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Rexall Dys-

Carry a package of Revall Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that they will keep indigestion from bothering you.

We know what Revall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia, or to refund your money, if they fail to do so. Doesn't it stand to reason that we wouldn't assume this money risk were we not cartain Revall Dyspepsia Tablets will satisfy you? Three sizes: 26 cents, 50 cents, and \$1.00.

DAMAGE IN NATIONAL FORESTS
LAST YEAR COMPARATIVELY
SMALL—LIGHTNING STARTED
MOST OF CONFLAGRATIONS.

WASHINGTON, March 21.—The Department of Agriculture has been figuring up the losses by fires on the National Forests for the calendar National Forests for the calendar year 1912, and finds that they were the lowest in recent years Less than one acre to every thousand of timbered lands was burned over, and the total damage is estimated at \$75,-290, or less than one dollar to every 2,000 acres of area.

The good record is attributed to. first, favorable weather conditions in most localities, and second, the increased efficiency of the fire-fighting organization. As Congress makes available the means for extending the system of communications on the National Forests, the equipment of trails, roads, telephones, and look-out stations is yearly enlarged and the fires, it is said, are discovered more quickly and fought more rap-

An especially good showing was made by the Forest officers last year in extinguishing fires outside the National Forests before they reached the Forest boundaries. Such fires constituted more than one-sixth of all fought by the Forest rangers and guards. About nine-tenths were exguards. About line tents were ex-tinguished before they touched the Forests. Of the fires within the For-lest boundaries more than 18 per cent were on lands in private ow-nership. Nearly one-fourth of the extra expenditures due to fighting fires—that is, expenditures outside the time of the regular Forest force -was incurred in fighting these

Lightning caused more fires than any other agency, followed by rallroads, campers, and incendiaries, in the order given. The greatest losses occurred in Arizona, Arkansas and California, in which states there was also the largest proportion of fires caused by lightning and by in-cendiarism. About 27 per cent of all the fires were started by lightning. and about 38 per cent were due to to carelessness. The proportion in The proportion in each case was practically the same as in the previous year.

The total number of fires was 2. 472, as compared with 3,369 in 1911 They b rned over, in the aggregate, 230,000 acres as against 780,000 in 1911. California led all states in Thereans total number fires, and in the number caused by lightning. Arizona stood second in both of these classifications. Arkansas stood fou, th in total number of fires, and first in those of incendiary origin, with Callfornia second. The one National fornia second. The one National Forest in Kansas had only one fre, which buruned over less than ten acres and cost \$1.11 to extinguish. North Dakota had no fires on its one small Forest.

Of the 2,472 fires, over 75 per cent were put out before 10 acres were burned over, and nearly 50 per cent before one-quarter of an acre was covered. Only 12 fires caused damage of more than \$1,000 each.

OPERATE TO DESTROY TYPHOID "CARRYING"

Sailor Who Transmitted Disease to Shipmates Is Recovering at

the Marine Hospital. SAN FRANCISCO, March 25,—0scar Olsen, a sailor, is recovering at the Marine hospital from an operation made in an effort to rid his system of typhoid germs, which he transmits to all who come in contact with him. His gall bladder was removed, the attending physicians believing that organ to be the breed-ing place of the offending germs.

Over a year ago Olsen was singled out by investigators as the cause of numerous cases of typhoid fever which broke out on every ship on which he sailed. He was confined at the Marine hospital and apparently his body ceased to generate the typhoid germs under the treatment administered.

Several months ago he was allowed to leave the hospital as cured, with the proviso that he return each month and allow himself to be examined. He engaged in coastwise sailing, and two weeks after he ac-cepted a position on a ship plying between Los Angeles and San Francisco two cases of typhoid were reported on board. The cause of the disease was traced directly to him with the result that the state board of health ordered his confinement at the Marine hospital and the operation. ation performed.

The outcome of the operation is being watched with interest by phy-sicians throughout the city.

HOW LONG MAY SPONGE STAY IN MAN'S ABDOMEN?

Question Before Court as to When Statute of Limitations Would Begin to Run. CHICAGO, March 18.—After a sponge is left in the abdomen of a

patient after an operation and is not pre-Easts discovered for seven years, does the shows the the date of the insertion of the sponge or the date of the discovery?

That is a legal question which than they are going to the discovery?

That is a legal question which than they are going the deliberation of the states of statute of limitations apply from called upon to decide. It arose in otters, the case of George N. Montgomery last conof Jacksonville, Alabama, against Dr. Charles K. Kalke of Chicago. The plaintiff avers that the physician negligently left the sponge in the abdomen after an operation for appendicitis.

appendicitis. Seven years later, Montgomery higher. Seven years later, Montgomery foxo ends says, physicians found the sponge fetching fetching and removed it.

Attorneys for the defense insisted that the statute of limitations cline as had expired in the case, averring it cent charabegan to apply at the time of the ago.
