

ROYAL BAKING POWDER

Absolutely Pure

The Only Baking Powder Made from Royal Grape Cream of Tartar.

Safeguards the food against alum

Chemists' tests have shown that a part of the alum from biscuit made with an alum baking powder passes into the stomach, and that digestion is retarded thereby.

Read the label and make sure that your baking powder is not made from alum.

He is third assistant engineer on the Alaskan now. He and others of the crew were planning a ten hour railway trip from Sallinas Cruz to the Atlantic side Sunday.

Steal Lime.—John Longstaff, sexton of the Marshfield I. O. O. F. cemetery, reports that some parties drove up to his warehouse at the cemetery, loaded up two barrels of lime and drove away with them. He has secured a clew as to the identity of the thieves and will endeavor to secure evidence to prosecute them.

Deal Nearly Done.—Judge Sebbrede in a letter here states that he expects the Wilsey-Kinney deal will be closed this week. If it is that nearly concluded Judge Bronough is expected to arrive here on the Breakwater. J. M. Eddy, Wilsey's local agent who was here today from North Bend, said that everything was progressing nicely.

Has New Device.—E. C. Johnson, manager of the Lyons & Johnson mill on the lower Coquille, is reported to have invented a new sorting device that promises to make a big thing for the inventor and be of a great advantage to mills. It is said to automatically sort the different sizes of lumber which now has to be hand sorted. He is now trying out a model. Mr. Johnson is modernizing most of his mills and is introducing the electric crane and package system of handling lumber at Randolph where the Grace Dollar is now taking on big cargoes.

THEY HAVE AGREED TO MARRY JUNE 1.

Just as the Sun Rises From Behind The Eastern Horizon.
 "Mary, my dear, I have come for an answer—yes or no."
 "John, I love you, but I must have your promise that you will protect me and be as thoughtful after marriage as before and take me at least three times a week to Sarter's for their delicious fountain drinks and candy."
 John promised, and they will be wed in June.

CURRY COUNTY LUMBER MILLS

Daily Output There Will Average About 235 Feet Eight Months Out of the Year.

That Curry county will hold her own with the rest of the counties in Oregon when it comes to the manufacture of lumber is evident by the great stride she will make this year in this activity, says the Langlois Leader.

The Brookings company, of Harbor or Chetco, situated in the southern part of the county, will be a great asset to the county and will soon have a mill that is capable of turning out 100,000 feet a day. Just at present there are something like 200 men on the ground who are rushing the mill to completion. This mill alone will afford employment to over 700 men which mean a monthly payroll of \$2,000.

Brookings will be the name hereafter of Harbor or Chetco and eventually through this mill and the surrounding farms will boast of a population of 1,000.

Besides the above mill Curry county has a number of small mills that have a capacity ranging from 5,000 to 30,000 per day. Among the latest of these industries is the Pomeroy-Guerrin mill, formerly the Foster mill of Coos county. Messrs. W. P. Pomeroy and C. T. Guerrin, purchased and removed the same to Gravel Creek, four miles above Langlois in this county. The mill will have a capacity of 6000 feet per day and will be in operation sometime in May. There is plenty of timber of good quality

in that section, which will keep the mill in operation for a number of years.

The following is a table of mills, showing the capacity per day, situated in Curry county:

Mills	Capacity
Brookings	100,000
Chetco	6,000
Smith	6,000
W. T. So.	30,000
Eukr Creek	3,000
P. Orford Shingles	30,000
Elk River	8,000
St. Agness	20,000
Bane	10,000
Langlois	10,000
Hare	6,000
Pomeroy & Guerrin	6,000
Total per day	235,000

Most of our mills run eight months during the year, but the large mills run continually and this year's output will run up into millions.
