Council Tonight.—The Marshfield city council will meet tonight to take up street improvement matters and other business including the extension of the territory covered by W. S. Chandler's heating franchise.

Suit Transferred.—A personal injury case of Coleman vs. the Smith-Powers company for \$10,000 for personal injuries sustained in an accident in one of the camps has been transferred to the federal court.

Expected Here.—Karl Samuelson, an expert mechanic, arrived here last Saturday direct from Hedenora, Sweden, to install sulphate machinery in the Coos Bay Pulp and Paper company's plant. The machinery was manufactured at the Hedenora Machine shops in Sweden.

Wants Divorce.—Mrs. Fred Wilson has begun suit for divorce, charging many and various offenses against her husband. Wilson was formerly in the "shine" business here, later operated an automobile and was in Eureka when last heard of. He was known as "Slim."

Will Return.—Lowrey Owen received a letter today from August Eickworth saying that Alex Wilson, who recently went to Lane hospital for treatment for paralysis, was getting along very slowly and suggested that it would be better for him to return to the bay. Arrangements will probably be made for him to return within a few days.

Settle Case.—The damage suit of C. J. Brusckie vs. E. A. Konkright, over the claim for \$125 homestead location fee, has been settled. A jury in Justice Pennock's court awarded Brusckie \$50 and ordered him to pay the costs amounting to about \$36. Brusckie threatened to appeal and later they settled, Konkright paying the verdict and part of the costs.

On Long Cruise.—August Carlson of Coos River was in Marshfield Saturday. He reports that it is uncertain whether his son, Milton, who is a cadet at the U. S. Naval Academy at Annapolis will be able to visit here this summer. Milton will go on a three months' cruise and this will cut down his time so that it will be difficult to make the long trip here.

Lecture Tour.—Dr. Joseph E. Shafer of the department of education, University of Oregon, is making a lecturing tour of Coos county this week. According to schedule his services are available to Marshfield Friday, April 18, when he will speak at 8 o'clock in the evening at the high school auditorium before patrons and all interested in school and educational movements. There will be no charge for the lecture. Dr. Shafer is at North Bend today. He will speak at Bandon tomorrow, Myrtle Point Wednesday and Coquille Thursday.

Alaska Murder Case.—D. L. Hood left today for Portland and will probably have to go to Juneau, Alaska, to testify in the McDonald murder case. This murder occurred about 11 years ago and the accused man was recently arrested in Texas.

Operation Necessary.—Mrs. P. A. McNabb, of Millington, is going north on the Alliance to procure treatment for her little daughter, Olga, at the Good Samaritan hospital in Portland. The bridge of the child's nose was broken and has widened and flattened, making an operation necessary. Mr. McNabb is a scaler at one of the Smith-Powers camps.

Expect Hydroplane.—V. C. Gorst is expected home on the next A. M. Simpson with his new hydroplane, which he bought at San Diego. The A. M. Simpson goes to San Pedro this trip and the machine will be taken on there. It is expected that E. W. Steele, formerly an auto expert here, who has been taking lessons in aviation, will come with the machine to operate it.

To Fill Mill Slough.—A telegram from Washington, says: "Senator Chamberlain introduced a bill granting the town of Marshfield authority to close Mill Slough and fill it up." There were many rumors here today that some citizens besides F. M. Friedberg, Chas. Hieko and others would take steps to prevent the filling of the Slough unless the property thus created went to the city instead of the abutting property owners, some indicating that they would take it up with Senator Chamberlain at once.

Meat Shortage.—Some of the local meat markets were practically out of all kinds of meat nearly all day Saturday. The bulk of the meat is now shipped in here from Portland, the delay of the arrival of the Breakwater caused the shortage. The price of meat has been steadily going up and the meat markets are paying thirteen cents per pound for dressed beefs and hogs, and fifteen cents per pound for dressed calves, making the real price to the consumer much greater. Some are suggesting the elimination of the meat diet and becoming vegetarians.
