

ANDERSON WON GREAT FIGHT

(Continued from Page 1.)

clined and fought fiercely close in. Brown landed hard on Anderson's neck and the Medford lad showed signs of tiring. However, he planted a hard right that drew blood copiously from Brown's mouth and sent him reeling.

Round 9. They met in mid-ring and Anderson landed on Brown's undefended jaw. Brown missed a left swing and Anderson countered with a right upper cut to the jaw, following up with more hard uppercuts that landed on Brown's solar plexus. Brown retreating shot a hard left that nearly closed Anderson's right eye. Brown's round easily.

Round 10. This was the round in which Anderson said that he would finish Brown and leaping out at the bell he shot in a snapping right to the jaw. Brown staggered but he countered with a left to the jaw. Anderson apparently felt temporarily the loss of the sight of his right eye. He swung wildly, Brown landing repeatedly. Brown's round.

Round 11. They rushed into a clinch and Brown volleyed lefts and rights to the body. On points, Anderson seemed to have the better of it up to this round but he appeared to be tiring rapidly. Brown also was not loath to rest. Toward the end of the round both rallied and landed hard lefts and rights to the body. Brown hit Anderson's sore eye as the bell rang.

Round 12. Refreshed by a minute's rest, Anderson rushed and snapped back Brown's head with two hard rights, that landed on the mouth and nose. He followed with a hard right to Brown's wind. They exchanged light face and body blows and clinched. On the break, Brown rocked Anderson with a left swing to the face. Anderson's round.

Round 13. Both missed and they fell into a clinch. As they broke, Anderson whipped over a hard right to the jaw. Anderson was hooted for using his elbow. Anderson sent Brown reeling against the ropes with right to the jaw. Brown was badly hurt but fought back gamely. Brown went to his knees under a volley of rights and lefts. He r shed Anderson to the ropes as the bell rang. Anderson's round.

Round 14. Anderson knocked Brown flat on his back with a right swing to the jaw. Brown took a count of nine and was groggy when he arose. Brown hung on. Anderson missed several vicious swings. Brown drove in a terrific left to Anderson's stomach. Brown went down twice under rights to the jaw. Once more he failed to take the count, hanging on at the bell.

Round 15. Anderson sent Brown against the ropes with a volley of rights. Brown was apparently helpless. Anderson with a volley sent Brown down. He took the count of nine. Brown hung on. Another right to the body sent Brown down a second time. Again he fell under a third blow to the jaw. Referee stopped the battle while the New Yorker lay prone.

Price Higher.—It is stated that the price paid by W. H. Dindinger for the corner of Ninth and Commercial was \$2500 instead of \$2000 as was given yesterday. The corner is a fine one.

In Old Stand.—August Frizeen has moved back into his old stand in the Donaldson block on Central avenue and is gradually getting his stock into place. He will have a much more attractive store than before. Mrs. Owen expects to be able to move the Ladies' Emporium back into the old location soon. Fine new fixtures have been put in.

Start Building.—Contractors Wright and Nason have started the excavations for the construction of the fine new Chandler block at the corner of Central and Broadway. While no basement will be put in, it will be necessary to excavate about five feet to get the proper foundations. The company has received some of the materials for the building.
Lost Scow.—According to a report received here from Gardiner, a scow which was being towed up by the tug Gleaner from here for Warren Reed, was lost on the bar, the line breaking. John Graham, who was aboard the scow, was washed overboard to the mercy of the seas, but the Umpqua Life saving crew quickly took him off. The scow washed inside and up on the beach without being much damaged.

Expect Captain Polhemus.—While it has not been definitely settled, it is expected that Captain Polhemus, who aided in the original construction of the north jetty, will be delegated here to supervise the rebuilding of it by the Port of Coos Bay. He will be given a leave of absence and then hired by the Port. L. J. Simpson believes that the Port has sufficient money to reconstruct the entire standing portion of the jetty.

PLAN LEAGUE OF SIX TEAMS

Bandon and Lower River
Towns Propose to Furnish
Two Clubs.

A six-team league with Bandon, Randolph, Prosper and Bullards furnishing two teams, will probably be agreed upon within a few days. R. E. L. Bedillion, of Bandon, was here last evening in conference with President Kern, of North Bend, and other baseball enthusiasts about the situation. Mr. Bedillion will confer with Coquille while en route home today and arrangements will probably be perfected for calling another meeting to arrange for starting the league.

Mr. Bedillion was a little irritated to find some of the North Bend fans going back on their original stand and to indicate that they might support a plan to have a four-team league of Marshfield, North Bend, Coquille and Myrtle Point with Bandon left out. Some of the North Bend fans were also angry at Marshfield because of the stand they recently took and intimated that Marshfield might be left out and Bandon, Coquille, Myrtle Point and North Bend constitute the league.

However, Mr. Bedillion wants to see baseball and wants it arranged on the best basis possible. He proposes that to make a six-team league, which will be easier to handle than a five-team league. He and the Bandon people will arrange for a team in Bandon and also a team of the mill towns near there. This will give Bandon continuous ball and also an opportunity for Saturday games there, which will be beneficial owing to the opposition of many to Sunday baseball.

The decision to reduce the imported men to three to a team will enable Bandon to carry two teams for what it was figuring on putting into one team. The Bandon fans raised \$1500 to support the first team and when it was seen that it might be necessary to have another team, they raised \$700 more, making \$2200 available.
Mr. Bedillion proposes that each team take its own gate receipts entire, thereby making each town support its home team.

This will require each team to pay its own traveling expenses and make its success depend on its showing the enthusiasm it can stir up at home.

NEWS OF FLORENCE.

Events Along Siuslaw as Told by The West.

Kirby Bros. are getting ready for active logging operations on the Ed Potter place. They have bought the C. M. Andrews donkey and expect to log with two donkeys.

The tug Roberts brought the schooner back to Florence.
The launch Lena took a scow load of lumber to Mapleton Wednesday for Boie & Co., the railroad contractors. The boat brought back a scow load of hay for J. C. Flint, the Glendale liveryman.
The canvassing board, consisting of J. W. Bergman, mayor, D. E. Severy, recorder, and J. U. Goude, justice of the peace, met last Friday and canvassed the returns of the election in Florence. They declared the result the same as that given in returns as first announced.

150 CHICKENS KEEP FAMILY
Average Weekly Income From Flock Is Thirteen Dollars.
COTTAGE GROVE, Or., April 16.—What can be done with chickens in the Grove country is illustrated by a farmer who states that he keeps himself and wife with 150 chickens. They have no children. This farmer gets about 130 eggs a day. At present prices they bring him about \$13 a week. In the winter when the production is not quite so high the price is enough higher to more than offset the difference.
This farmer pays little money for chicken feed, raising that himself, together with the vegetables needed for family use. He finds that the \$13 a week is a great plenty to provide all miscellaneous wants.

FIVE BABES BORN.

ITHACA, N. Y., April 16.—A quintet of infants was born recently to Mrs. Charles Smith, of Danby, a few miles south of here. Mrs. Smith writes her nephew, Robert Wafer, a prominent Ithaca street railway official, that the five are well and healthy and the physician expects them to live. It is said that the birth of quintets has been recorded in this country only three times.

Give Yourself a Square Deal

Use your "grey matter" on this clothing proposition.

Ask yourself if a big part of your clothes money hasn't been going to pay bad accounts and other items that add not a "whit" to the quality or the style, or the tailoring of the clothes you wear.

You have been paying for all these bad debts for years, perhaps you couldn't help yourself in the old days, but why not break the habit right now and keep that money in your own pocket.
Dozens—Scores—Hundreds of men know that by buying clothes at Hub Stores saves them \$6.00 to \$10.00 on each suit.
You are just as wide awake, just as alert to get the most value for your money, as any of these patrons of ours. Then isn't it about time that you came here and bought your clothes the HUB way.

CURRY PORT TROUBLE

Langlois People Want Investigation of Old Port Commission Affairs.

The Langlois Leader prints the following:
"The people of the upper end of Curry county were represented last year by five Port Commissioners composed of E. A. Lownie, J. McKenzie and W. White, of Port Orford; E. B. Thrift, of Langlois, and A. Adolphsen, of Denmark. The two latter gentlemen were practically rendered powerless on the different questions that came up before that body on account of Messrs. McKenzie, White and Lownie working hand in hand, voting down and objecting to any suggestions that Messrs. Thrift and Adolphsen put before that body."
"Now the Leader understands that a special tax of one mill was levied on the Langlois and the Port Orford districts' property to support the port proposition, which amounted in the neighborhood of \$1500, or thereabouts. Whether this money has all been used up or not the Leader can not say and would like to ask Mr. Lownie, who was secretary of the Commissioners, why he has never published a fiscal report of its receipts."
"Just what portion of the people's money has been spent and for what is unknown, but it has leaked out that of about \$250 remains or thereabout of the \$1500 collected as taxes. If this be true what became of it? It is said Mr. Peck, an attorney at Marshfield, was paid \$250 for assisting Attorney Meredith, and that the latter was paid \$300 for being assisted by the former. Is this true? But the most startling report is one to the effect that J. D. Goss, another Marshfield attorney, and representing the Smith interest in their fight against the Port, received \$250, either as a fee or as a rebate on his clients' taxes. How much of this is true? Let us have a report."

WIFE'S PARENTS CAUSE MORE TROUBLE THAN DO HUSBANDS'

Drink, However, is Major Cause of Infelicity.

CHICAGO, April 16.—Drink is the cause of the wrecking of most homes whose affairs came under the Chicago court of domestic relations in the last year. The novel court is about to close its second twelve months and Judge Gemmill has compiled its report for that period. Three thousand, six hundred and ninety cases were heard this year. Nearly seven thousand have been handled in the two years of the court's existence.
Following are the causes of domestic trouble as tabulated today by Judge Gemmill: Liquor, 46 per cent; immorality, 14 per cent; disease, 13 per cent; temper, 11 per cent; wife's parents, 6 per cent; husband's parents, 1 per cent; mar-
