SAY GREENLEAF ADMITTED ALL

Len Lambeth and Tom Peak Give Sensational Evidence. Case Ends Tomorrow

COQUILLE, Or., April 30.—The state rested its case in the prosecution of Guy Greenleaf, charged with a statutory crime against Erna Knorr, the 14-year-old Marshfield girl who committed suicide a few weeks ago, at 3 o'clock this afternoon. It is not expected that the case will be ended before some time tomorrow.

The state had a strong case, some new evidence being introduced by Deputy Prosecuting Attorney Liljeqvist, which he did not give out before. This evidence consisted of admissions which Greenleaf made to two different people. One was Len Lambeth, the former roommate of Greenleaf at the Lloyd Hotel, who testified that Greenleaf told him that he had Erna Knorr there all night. The other was Tom Peak who testified that Greenleaf had admitted to him the crime in full. Peak was the owner of the cabin where Greenleaf was caught. Dr. E. Mingus and Dr. A. L. Houseworth gave expert testimony about an examination of the girl's body, proving that the wrong had been committed.

They have not paid their fine and may go to jail.

Edmunds, the Marshfield forger, was sentenced on two counts. On one, he was given one to five-years and on the other indictments two to twenty years.

The grand jury is still grinding away and returned two secret indictments today.

BILLIONS FOR ROAD IMPROVEMENTS

Former Senator Bourne of Oregon Has Great Scheme for Improving Highways.

WASHINGTON, April 30.—The expenditure of three billion dollars for good roads, one billion for construction and two billion for maintenance investment extending over a period of 50 years was proposed today in the plan submitted to the joint Congressional committee on Federal aid to construction of post roads by former Senator Bourne, of Oregon. The plan provides for Federal and state co-operation. He also suggests the establishment of a National school of highway and bridge engineering, from which

trained specialists in road building can be supplied to the various states. The billion dollars for the construction fund in Bourne's plan would be apportioned among the states upon a basis of area, population, assessed valuation and road mileage. The states will be required to deposit in the United States Treasury 54 per cent bonds for the amount due them. The Government would loan to the states at par value thereof for road construction, the Government raising its funds by the sale of 50-year non-taxable three per cent bonds. By crediting each state every year with the excess one per cent interest paid on the state bonds and allowing three per cent interest on the amount, compounded annually, a sinking fund competent to pay off the bonds would be established.

The Port Commission expects a number of dredge owners here May 12, when they will meet to submit bids on widening and deepening the channel and may award that contract then. Plans for reconstruction of the North Jetty will soon be prepared and the contracts for it may be let within a few months.

RAILWAY NEWS OF COOS BAY

Party of Officials Leave—Delay North Bend Work—Steel for Terminal.

That it will be another ten days or two weeks before the steam shovel arrives to start the big cur in Simpson Park in North Bend was the belief expressed by members of the railroad party who left here this morning via Drain for Eugene and the North. Engineer Hoey, Assistant Engineer Fontaine, T. M. Dixon, J. P. Porter, H. Crosby and K. D. Hauser left after having gone over the situation here and familiarized themselves with it. The steam shovel which was started from Wenatchee, Wash., has been slow in reaching Portland. J. P. Porter will try and hasten it. K. D. Hauser, of the firm of Hauser, Hauser & Company, who will have the work in North Bend and the construction of 15 miles to the Ten Mile tunnel, expects to get back here from British Columbia, where he goes to conclude a contract on the Pacific Northern, in two weeks, to start the steam shovel. Messrs. Gardiner and Kaiser may have some preliminary work done in North Bend before his return.

COAST LINE SURVEY.

Weir Party Finishes and Others Nearly Done.

The Del Norte Triplicate says: "The meeting of the two surveying crews south of Crescent City, Tuesday afternoon, marks the completion of the preliminary survey of the Southern Pacific's coast line from Portland to San Francisco. The crew that has been working out of Crescent City under R. J. Weir packed up their outfit and took passage on the Del Norte for San Francisco, where they were ordered to report for work on another project. Mr. Weir will go via Eureka to inspect and look over the work on that section and will sail from there for San Francisco.

"The crew working up from Eureka will finish up the work this week and leave for San Francisco. "Definite news is lacking as to when the work of construction will begin here, but the graders are active on the gap south of Eureka, and it is expected that trains will be running into the Humboldt county city early in the summer, and that it will not be much later when they reach Cres-

CALIFORNIA ENACTS ALIEN LAND LAW SOON AFTER BRYAN TALKS

WILSON WAITS FOR CALIFORNIA

President Will Not Act Further on Jap Matter Until Final Action Is Taken.

WASHINGTON, April 30.—Probably not until the legislative status of the substitute alien land owning bill adopted by the California Senate last night clarifies will it be possible for the administration here to determine upon the next step. There is little expectancy on the part of some that the Assembly will reverse the action of the Senate in view of the reported breaking down of party lines in the Legislature.

HOT SHOT IN TOLL SPEECH

Illinois Congressman Raps Proposed Exemption of Coastwise Shipping.

WASHINGTON, April 30.—The repeal of the exemption amendment of the coastwise vessels from the Panama Canal tolls and an amendment to place all coastwise vessels doing interstate commerce business under regulations of the Interstate Commerce Commission was proposed today by Representative Britten of Illinois. "In my judgment," said Britten, speaking of the exemption, "that provision was one of the most unfair, unjust, dishonorable high-handed, iniquitous things that Congress has ever done, a palpable fraud in the interest of the interests."

BARTON CASE MAY GO OVER

Report That Continuance Will be Asked on Account of City Being Wrought Up.

COQUILLE, Or., April 30.—It was stated here today that Judge Sperry and C. F. McKnight, attorneys for State Representative J. S. Barton, who was indicted for attempted assault on Miss Madge Yeakam, would ask for a continuance of the case. While the application has not been formally presented, it is understood that it will be on the grounds that the accused would be unable to get a fair trial now. It is pointed out that as a result of the petition asking for the prosecution of the case, most of the people here are highly wrought up and apt to be biased and that the venire of jurors have heard more or less about it.

The word has filtered up that the Southern Pacific intends to carry its Exposition traffic from the north over the new coast line, and this means that work will have to be pushed rapidly from all points in order to make the connections in time.

The Redondo, which arrived in today, brought five carloads of rails for the Terminal Railway. They are being unloaded at F. S. Dow's dock as they will be used on North Front street. Revised Measure, Eliminating Words Objected to, Adopted by the State Senate.

DELAY FINAL ACTION UNTIL BRYAN RETURNS

President Jordan and Others Score Attack on Japanese—Fear Japanese Citizens.

Bryan Is Silent. SAN FRANCISCO, April 30.—Secretary of State Bryan had absolutely no comment to make today on the action of the California Senate last night in adopting the Webb bill against his recommendations.

SACRAMENTO, April 30.—California's first step toward the enactment of an alien land law contrary to the wishes of Secretary Bryan and President Wilson, was taken last night within three minutes after Secretary Bryan told the legislative conference that his official message had been spoken.

The senate, before which the Bird-sall-Thompson bill was pending, met in hurried session and within three minutes voted to substitute for it, a measure, the draft to be known as the Webb act, which was completed yesterday by Attorney General Webb. The substitute was adopted as an amendment and the bill was sent to the printer with rush orders. Because of the absence of Secretary Bryan in San Francisco, whether he went today to be the guest of the Panama Exposition company, it is the plan of the Senate leaders to take no further action on the bill until Thursday, when it will come up in the regular course of business and undoubtedly will be passed, it is said. It must go to the assembly and finally to Governor Johnson, who it is stated will sign the measure at once.

Provisions of Law. The Webb act provided that all aliens eligible to citizenship may acquire and hold land in the same manner as citizens of the United States, all other aliens may acquire and hold land "in a manner and to an extent for the purpose prescribed by any treaty now existing between the United States and of the nation or country of which such alien is a citizen or subject." The present holdings of the aliens, regardless of their rights to citizenship are protected. Corporations if aliens, other than those eligible to citizenship may acquire and hold only according to the terms of existing treaties. The state specifically reserves the sovereign right to enact any and all laws relating to the acquisition or holding of real property by aliens.

View of Jap Friends. As the treaty between the United States and Japan specifies land may be acquired or leased only for residential purposes or for factories or shops, the act is held to be a rigid restriction upon the acquiring of farming lands by the Japanese. Senator Leroy A. Wright, Republican who opposed the bill, declared that the wording is a subterfuge intended to deceive the Japanese. Dr. David Starr Jordan also declares that the measure carries the sting of discrimination contrary to Bryan's advice.

Japs As Citizens. The ineligibility of Japanese subjects to become citizens of the United States under the laws of this government is considered the keynote of the strength of the Webb alien land bill in spite of the fact that the words objected to by Bryan are not in the act. The Progressive leaders admit the proposed law will be ineffective if the Japanese brought test suit before the United States supreme court, and were successful in establishing their right to become citizens.

"It would be a serious mistake for the federal government to confer citizenship on the Japanese," said Senator Thompson, leading Progressive. "The feeling in California has reached an acute stage and such a step by the government undoubtedly would result in reprisals of various kinds, with far reaching consequences."

Along the Waterfront.

The Rustler has loaded for the Sluslaw after a trip to the Rogue River. Captain Olson reports about twelve feet of water on the Rogue River bar now.

The Alliance will sail tomorrow morning about 7 o'clock for Eureka.

The Redondo will sail at 8:30 Saturday morning for San Francisco.

Get Autos.—The Alliance today brought in three Hupmobiles. Two were new ones, one being for P. N. Reberg of North Bend and one for Dr. L. G. Johnson of Myrtle Point, the third was Dr. Johnson's old Hupmobile, which a Bondson man bought and had shipped back from Portland.
