BANDON VIEW OF BASEBALL VS. MARSHFIELD

Manager Bedillion Scores Attempt of Some to Shut That Town Out of League.

Bandon, April 28, Editor Coos Bay Times:

In the Saturday's issue of your valuable paper, I notice that there was an article headed, Bandon Shut Out of the League. Kindly correct same, as it is a fact that Bandon is not shut out. It seems that Marshfield, also North Bend decided to let the three river towns draw lots to see who would be in the league, and so informed the different teams. While, we were already in the league, we offered to do anything possible to settle the difficulty, and called Baxter up over the phone, and asked him when he was ready to draw lots, and at once settle matters. He informed us that they would not draw lots; we then offered to shake dice, they would not do that; then we offered to flip a coin, nothing doing; then we offered to throw up, wet or dry, for choice, they would not do that; then as a last resort, we offered to split at a crack in the sidewalk, and they would not consent to that. The only thing to which they would agree, was for Coquille and Myrtle Point to vote against Bandon. Such a brilliant idea, and what a chance we would have too. Of course, we would take no such chance, and at once wired President Kern of the results of our efforts. We will take an even break and if beaten will lay down and quit, and work for the success of the league; but we fail to see wherein Baxter has any legal right to block anything. We also agreed to put three slips of paper with the names of the three towns on them, blindfold some child, let it draw out two slips, which would be the two towns to be in the league; nothing could be more fair than this; but was not to their liking. Any good, game or true sport will always take an even chance, but these fellows would not. Now we have confidence enough in the fans of Marshfield, and also President Kern of North Bend, to feel that Bandon will not be thrown down, and out of the league by any such unfair methods. The man who said that Bandon refused to draw lots is a malicious liar. All Bandon asks is an even break. We know we have every team beaten now except Marshfield, in other words, the other three towns have icicles hanging from their feet. Any town who will not stand for a square deal is unworthy of being admitted into any league and should be permitted to mingle with people of their own class (sure thing men.) As Bandon is the only town on the river, they should be given at least, a square deal.

I am truly yours,
BANDON BALL TEAM,
R. E. L. Bedillion, Manager.

BIG FIGHT IS DRAW.

Dundee and Kilbane Go Twenty Rounds—Kilbane Favorite.
LOS ANGELES, May 1.—Johnny Dundee, of New York, was given a draw at the end of his twenty-round fight with Johnny Kilbane, the featherweight champion, at the Vernon arena. Kilbane apparently outpointed the challenger in every round, but the Italian's desperate twentieth finish, in the opinion of Referee Eytton, earned him a draw.

The decision was decidedly unpopular and the crowd voiced its disapproval at the termination of the battle.

Everet Nymanover Returns From Old Mexico and Tells of Thrilling Experience.

Everet Nymanover, the Marshfield piano tuner, who returned yesterday on the Redondo, from a trip through Mexico, relates a strange experience he and a company of American tourists had down in Lower California. They were staying, early in February, through the coast country between Ensenada, the capital of the province, and Tia Juana, when of a sudden the whole staging outfit was surrounded by an armed band of Mexican rebels and made to march under drawn sabers to the provisional fort at Tia Juana. Here they were unceremoniously lined up as so many cattle against a high wall and were to be shot stone dead at sunrise the next morning. Meanwhile a loud desperate cry was heard all over the neighborhood: "In the name of fair common sense and inscrutable justice," Nymanover cried out, and being an honorable and worthy citizen under the stars and stripes, I dare you, gentlemen of Mexico, to execute your evil designs! We are not 'spinoes Americano,' (American spies.) No, on the contrary, we are good, quiet, peaceful travelers." A dusky Mexican soldier who heard Nymanover's voice, and who understood English, ran straight up to the rebel general and told all about the singular personal protest, whereupon the situation changed at once and the hostility ceased. Next morning, instead of being shot, the strangers were let loose and commanded to take a bee-line for the nearest frontier, which they did, Nymanover more so in haste than all the rest. Next evening the whole company of supposed spies were found safely landed in San Diego, and booked some at the Hotel Imperial and some at U. S. Grant Hotel and for more than two months Nymanover remained in sunny San Diego, taking a rest, sight seeing and doing business, besides over there in the coming great Panama Exposition city at Point Loma Bay.

TIMBER CRUISE CASE UP.
Simpson Logging Company Will Test Credibility of Figures.

MO. TESANO, Wash., May 1.—The suit of the Simpson Logging Company, of Mason County, to test the credibility of the recent cruise of Chehalis County will be tried before Judge Clifford, of Pierce County, here tomorrow. Judges Sheeks and Irwin were both removed from the case when Attorney Abel swore that they were prejudiced. Jerry McGillicuddy, chief cruiser, accompanied by Assessor R. W. Wiley and others, cruised the eight sections in question and states that they will make a good showing tomorrow.

The county cruised the Simpson Logging Company's holdings, then ordered a re-cruise, the difference being 100,000,000 feet. The company then brought suit for a rebate in taxes.
