

WHICH?

A Smaller Outlay or a Larger Outfit

MORE money ahead or more clothes on hand is what Clothcraft Clothes at \$10 to \$25 mean to you.

Either way it's a big saving that you can put in the bank or in more Clothcraft Clothes.

In the latter case, it's both a saving and a good investment. There's a big advantage in having more than one suit. Frequent change of clothes, having one suit pressed while wearing the other is a plan that will give you more satisfaction and service from your clothes and a reputa-

tion for being always well dressed.

Let us show you a Clothcraft combination—preferably a light and a dark suit—that will afford you pleasing variety and freshness in your dress.

The cost of both suits at Clothcraft prices will not be greater than men often pay for one suit no better. Our special Clothcraft values at \$15, \$18 and \$20 offer some splendid suggestions along this line.

Come in Today and try on the **Clothcraft Blue Serge Special, No. 5130**, at \$15.

Trouble at Florence.—According to a rumor reaching here, the schooner Oakland had to jettison part of her cargo of lumber in crossing out from Florence. She struck on the sand and it was with difficulty that the tugs got her off, even after a considerable portion of her deckload had been thrown overboard.

Postponed Exhibit.—Owing to the Turner art exhibit being delayed in transit, the art exhibit and ex-

hibit of school work which was to have been given at the Central School building this week has been postponed until next week. It will start a week from today and continue each afternoon until Friday.

Boys Engine.—Ed Ansen, representing Aasen Brothers, loggers of Coquille, has been a business visitor to Marshfield returning on the morning train. While here Mr. Ansen purchased the big donkey engine used by Selem & Stora on Catching Inlet. The engine was transported to Marshfield on a scow and will be taken to the valley by train.

Baby Is Dead.—A telegram from Mrs. M. G. Coleman brought the sad news to Mr. Coleman at North Bend this morning that their infant son had died last night. The little baby had been ailing for a long time and was taken to San Francisco last week where an operation was performed in a futile effort to save his life. The body will be brought to North Bend for burial.

Sister Wedded.—In an item in The Times yesterday concerning a trip of Mrs. Wm. Hyden to Menominee, Wis., to visit her sister, who formerly was cashier in the Western Union office in Marshfield, it failed to state that Miss Halverson was now Mrs. Sandahl, having wedded a prominent Menominee man last fall. Mrs. Hyden and children will leave Saturday on their trip.

Wants Divorce.—Suit for divorce has been instituted by Adelaide Rollinson vs. Chas. R. Rollinson. Description is charged and she wishes to resume her maiden name of Adelaide Snyder. His whereabouts are unknown. Another divorce suit started is J. F. Wendling vs. Anna B. Antola Wendling. He charges desertion and says he doesn't know the present whereabouts of the woman.

Move West.—Mrs. Steffen and daughter, May Tulley, the star actress of the Orpheum circuit, and Mary Hague, have moved from New York to Los Angeles where they will spend the summer. The change was made because of the advice of Miss Tulley's physician who prescribed a circuit in crossing the continent. Miss Tulley is a niece of Mr. and Mrs. Eugene O'Connell and F. E. Hague.

After Another.—A Portland paper,

in announcing the arrival of Deputy U. S. Marshal Griffiths and Marshal Anderson of North Bend in Portland with W. F. La Shelle, charged with white slavery, says that another man is being sought in connection with the case.

Plan Celebration.—The Norwegians of Marshfield and North Bend and surrounding country will unite on the evening of May 17 in a big celebration of the anniversary of freedom of their old home. May 17 is the Norwegian Fourth of July. It was expected to have a speaker here from Astoria. A program is being prepared, a number of addresses by Rev. R. O. Thorpe and others being included as well as musical selections etc. The exercises will be held in the Finnish hall.

Speedwell Affected.—Owing to some contracts which they had for carrying lumber having about expired, the A. F. Estabrook Company is trying to make some new ones. The Speedwell is principally affected. It is possible that arrangements may be made whereby the Speedwell will handle the out put of the new North Bend mill, which Manager Dimmick expects to have in operation soon. In consequence of the lack of a deck load on the Bay this time, the Speedwell will not come to Coos Bay, but will sail direct from Bandon for San Francisco.

Leaves Tonight.—S. H. Hedges, of the Puget Sound Dredge and Bridge Company, leaves tonight for Portland to make arrangements for bringing his dredge in here to deepen the harbor channel, for which he was awarded the contract by the Coos Bay Commission. Mr. Hedges will bring in a twenty-inch dredge in about sixty days and says that he will have the contract completed in considerably less than the fifteen months specified. He is an enthusiast over Coos Bay and says that there is bound to be a population of twenty-five thousand people within five years. Mr. Hedges is a close personal friend of Sec. Ballinger and says that the latter was most unjustly and cruelly treated.

Smallest Baby.—The Times printed a press dispatch the other day telling of the birth of the smallest baby in the world. The item was of more than passing interest to Mr. and Mrs. J. C. Swinford as it came from their old home in Illinois. Today they received a copy of their local paper, which gives the following additional particulars of the "littlest baby": "The Russell infant, the tiny girl babe born at Mattoon recently, will be wealthy by the time she reaches womanhood. The steady stream of visitors to the Russe home to see the baby generally leave something to repay the parents. A lady from Charleston, who saw the child Wednesday night, said that the little one's feet were not larger than matches. She has now reached a height of twelve inches. The parents do not charge anything for exhibiting the child, but nearly all who visit their home pay something, and they are getting a nice little income already through their daughter."
