PRES. WILSON GUARDS AGAINST THREATENED JAP WAR SPEECH

Requests Representative Sisson of Mississippi Not to Offend Japanese in Talk

LATTER TO DELIVER HOUSE ADDRESS FRIDAY

Recent Speech Caused Stir and President Wants to Prevent Outbreak Now

(By Associated Press to Coos Bay Times.)

WASHINGTON, May 21.—President Wilson today sent for Representative Sisson of Mississippi and urged him not to make any speech that would offend the sensibilities of Japan. Sisson who recently made a "war speech" had given notice of his intention to speak in the House Friday on the legal phases of the Japanese alien land question. He had a 20-minute conference with President Wilson, during which, however, he assured Wilson that he would not discuss the pending negotiations or touch on anything of an incendiary character, limiting himself to an argument on the alien land ownership. That was the White House version of the conference, though Sisson himself declined to make any comment, declaring merely that he would speak Friday. President Wilson is known to be anxious about the discussion in Congress at this stage of the Japanese question, especially involving any observations of racial discrimination.

MANDOT BEATEN BY ANDERSON

Bud Wins With Ease Over New Orleans Man at Los Angeles. Fight by Rounds

GUNBOAT WINS.

SAN FRANCISCO, Cal., May 21.—At the conclusion of a twenty round go here last night, Gunboat Smith was given the decision on points over Jess Willard.

(By Associated Press to Coos Bay Times.)

LOS ANGELES, May 21.—Bud Anderson, the Vancouver Cyclone, won with ease over Joe Mandot, of New Orleans, here last night. Mandot did not have a chance any time and was helpless in the twelfth round when the fight was stopped.

Anderson's showing against Mandot was a revelation to the pugilistic fans here. He showed far superior form to the showing he made against Knockout Brown, displaying more confidence and ring generalship than has marked his previous exhibitions. His lukewarm supporters heretofore are today most enthusiastic and declare that even Rivers won't have a show against him. The fight by rounds:

Round 1. They feinted and both went at it hammer and tongs, Anderson planted a terrific left to the jaw that rocked Mandot's head. He immediately followed with another blow similar to this. Mandot seemed awfully slow. This was Anderson's round.

Round 2. Anderson had things all his own way and landed at will. He shot his left which caught Mandot on the jaw that caused the Frenchman some trouble. Mandot reached Anderson's jaw with a few rights that lacked steam. This was Anderson's round.

Round 3. The boys came to the center eagerly, with Anderson apparently in the best shape of his life, starting the milling with a series of left and right jabs to Mandot's face. Mandot tries to fight back but goes into a clinch to evade punishment. After the break he tries long range work and manages to land a left to the stomach and a right to face, Bud smiling, taking the blows. They clinch again, Bud lifting Mandot almost off the floor with a right upper cut.

Round 4. The Vancouver lad landed an awful right on Mandot's jaw and sent in a hard right to the wind immediately. Anderson seemed to have little trouble in reaching Mandot's jaw and landed three times as the bell ended the round. Anderson's round by a wide mark.

Round 5. Bud rushed Mandot to the ropes but was stopped for a moment by a left to the stomach. He comes right back and hammers Mandot's stomach with rights and lefts, forcing the Southerner to clinch. Mandot ripped a right to the head and tried a left to the stomach, but Bud blocked the blow and retaliated with a right to the jaw, the blow sending

Hawaiian Born Japanese do Not Take Advantage of Becoming American Citizens

(By Associated Press to Coos Bay Times.)

SAN FRANCISCO, May 21.—Of the 50 Japanese born in Honolulu and eligible to American citizenship only 15 have availed themselves of the opportunity, according to a statement of Gilbert D. Metzger, a Honolulu contractor, who arrived here today. The Hawaiian Islands have a population of Japanese laborers estimated at 75,000. Metzger's observation is that the Japanese are absolutely loyal to their own government and do not care to become American citizens.

U. S. REPLY IS KEPT SECRET

Japanese Foreign Office Receives Bryan's Message and is Seeking an Answer

JAP VIEW GIVEN.

By Associated Press WASHINGTON, May 21.—Advices from Japan indicate that the American reply was received in good spirit by the Japanese government and that the situation is more favorable.

(By Associated Press to Coos Bay Times.)

TOKIO, May 21.—The Japanese foreign office has received and is studying the reply of the United States government to its original protest regarding the California alien land ownership legislation. It declares that by agreement with Washington the document will not be made public. Officials will make no comment on the subject and no statement as to whether it is satisfactory or not. The Japanese public is apparently awaiting information before expressing its opinion on the American reply. Meantime the press reiterates that the question goes deeper than the ownership of land or the making of a treaty and that it is a racial discrimination which must be wiped out by mutual education and understanding and fusion of ideas.

WASHINGTON, May 21.—Senator Williams, chairman of the finance sub-committee, which is considering the agricultural schedule, announced today it had been decided to treat beef cattle, sheep, hogs and their products, wheat and flour and oatmeal on an equal basis. If a duty is to be put on raw material, it will likewise be upon the products or vice versa. The sub-committee had decided to put cattle, wheat, etc., on the free list with beef and flour. Senator Williams denied, declaring it had not been determined on what basis all such articles would be treated, whether dutiable or undutiable. WANT TO KNOW ABOUT YACHT

New Yorkers Today Guessing About Plans for Defense of America's Cup

(By Associated Press to Coos Bay Times.)

NEW YORK, May 21.—With almost universal satisfaction prevailing in yachting circles over the news from London that the New York Yacht Club has accepted the latest challenge of Sir Thomas Lipton to race for America's cup, gossip was busy today regarding the probable plans for defense of the trophy. While confirmation of the news was not forthcoming at the New York Yacht Club last night, the word was generally accepted as true. The greatest satisfaction is expressed that the coming series of races will be held under the present rule of measurement and time allowance. It is freely predicted that with 75-foot yachts designed under this rule, good sea-worthy boats will result. Instead of the flimsy racing machines which participated in the last contest.

CITY TO GET WATER SUPPLY

MEMBERS OF COUNCIL HAD CITY ATTORNEY GOSS FILE ON WATERSHED AS POSSIBLE SOURCE OF SUPPLY FOR MUNICIPAL PLANT

City Attorney John D. Goss, pursuant to instructions from members of the Marshfield City Council, has filed on the water rights of Clear Lake, northeast of Coos Bay, for the city of Marshfield. The filing has been made with the state water commissioner.

It is understood that others have filed previously on the water rights of Clear Lake but have lost out because they have not complied with the law.

The Clear Lake water supply, as a source of supply for the city of Marshfield, had long been considered and was recommended in Engineer Richardson's special report as the most feasible one.

Searched Homes.—A woman from the Henessey mine on Isthmus Inlet appeared before Justice Pennock today and wanted to have a minor there arrested. The miner lost a suit of clothes, became irate and started in and searched all the homes in the camp, declaring some one there had stolen the clothes. The woman, whose name Justice Pennock did not get, said that when he came to her house, she told him to go ahead and search. When her husband heard about it he became angry and wanted the man arrested. As she had given her consent for the search, the miner did not commit any offense. However, she said the miner searched other homes by force.

John J. Breen, Lawrence Funeral Director, Admits That He Suggested Scheme

MILLIONAIRE WOOD KNEW NOT OF IT

Says Frederick Atteaux, Dye Manufacturer, Paid \$700 for "Planting" Explosive

(By Associated Press to Coos Bay Times.)

BOSTON, May 21.—Frederick A. Atteaux, dye manufacturer and co-defendant with President William M. Wood, of the American Woolen Company, in the dynamite conspiracy trial, hired John J. Breen, a Lawrence undertaker, to "plant" explosives in the buildings occupied by the striking textile operatives, according to Breen, who testified for the state today.

Atteaux, the witness said, gave him \$500 before the dynamite was placed and made a second payment of \$200 some time later. Breen testified he had said to Atteaux: "If I were fighting those fellows (meaning the strikers) I would fight them by their own methods." Atteaux, he said, asked him if he meant dynamite, and he replied: "Dynamite or anything else."

Ernest Pitman, of Andover, who committed suicide when the grand jury began its investigation, was named by Breen as the person who delivered the dynamite to Breen and to Dennis J. Collins, the third defendant, who yesterday turned state's evidence.

On cross examination the witness declared that he never had conspired with Wood, Atteaux or Pitman to injure any person or property. Breen said he asked Atteaux after the dynamite had been placed "if Wood knew anything about the matter" and he said he did not.

Until January 1, 1914, they will have the active assistance of John H. Peet, who was associated with Colonel Peyton for 20 years. Thereafter the Peyton boys will have full charge, subject only to services of Mr. Peet in an advisory capacity. Both boys have traveled extensively, but the beginning of their business experience dates back only two years. Their late father amassed a fortune from mines and real estate investments in the Spokane country, where he was an early settler."
