become heated throughout more quickly than enamel utensils. Food therefore can be cooked in aluminum ware with less fear of scorching and with less fuel. "Wear-Ever" utensils save you food and expense, time and temper.

Each "Wear-Ever" utensil is made without joints, seams or solder, from thick, hard sheet aluminum. Strong, light to

SOCIAL CALENDAR

FRIDAY

Ladies' Art club with Mrs. Wm. Schroeder. Ferndale Sewing club with Miss Hilda West of Eastside.

Highlights, on June 14, Louis' many friends will hasten to extend congratulations and wish him and his fiancée a world of happiness.

Bandon Buildings—Geo. P. Topping is here from Bandon and reports there is much building there. He says the First National Bank of Bandon is figuring on erecting a fine pressed brick structure this summer. He says the oil prospects at Langlois are fine and he looks for a big strike soon.

North Bend Hotel—L. J. Simpson, of North Bend, was a Marshfield business visitor yesterday. He is expecting Mr. Weisede, of Portland, formerly manager of the Dewey Palace Hotel at Spokane, here within a few days, to figure on erecting a fine hotel in North Bend. Mr. Simpson is in favor of forming a stock company, part of the capital of which is to be subscribed on the Bay, to erect at least a \$50,000 structure.

Record Given—The Spaulding Athletic Guide for 1913 gives the pole vault record of Bobbie Graves, the nine-year old son of Mr. and Mrs. R. O. Graves, of Marshfield, made last year as the best made in the country by boys under ten years old. It will be remembered that he made 5 feet 10 1/2 inches, three inches better than any other record that was given for boys. The entry of the record in the official guide is not only an honor to Bobbie but also to Marshfield and Coos County.

Revives Noted Case—John C. Kendall has returned from Gold Beach where he went to file a petition for the removal of George Dunn as administrator of the Woodruff estate in the famous Dunn-Steele case. The hearing will probably be at the June session of Probate Court here. The Woodruff estate of several hundred acres is involved in the case, Steele, a former noted athlete and football man of Iowa University, claiming to be the rightful heir of his uncle, who willed the property to others.

Wireless Case—The old dead tree on Knob Hill, which has acted as pole for the U. S. wireless station there last night was blown down, tearing down the wireless apparatus. The tree fell down the hill and did no damage. The wireless station has been out of commission for a few weeks, owing to the local operator being out on a strike with the rest of the operators on the coast. There have been many requests that the wireless station be moved to a high point near Cape Arago and this accident may result in the removal of the station.

North Bend Band will give a dance at the Pavilion in Simpson Park Saturday night, May 24. Admission \$1.00.

Efficiency

The Keynote to Success.

The high-salaried efficiency expert goes through the factory suggesting time-saving devices.

The bright boy tells us that he has a bicycle and can do our work more quickly than the other fellow.

President Wilson tells us that he will send efficiency experts through factories to find out whether tariff reduction is a sufficient excuse for cutting wages, or whether lack of efficiency is increasing costs.

increase your

Efficiency?

Would it leave you more energy for your work?
