

GOOD SHOOTING AT COQUILLE

Marshfield Team is Defeated Owing to System But Had Highest Percentage.

The Coquille Gun Club yesterday defeated the Marshfield Gun Club in the shoot at Coquille on the team basis, owing to the Coquille club picking out the seven highest of the 14 Coquille men who shot and placing them against the records of the seven Marshfield men who participated. However, on a percentage basis won, the Coquille percentage being 64 and Marshfield percentage 63.

Following the team shoots, a number of the Marshfield and Coquille gunners made up a few "pots" and in these, W. N. Ekblad won two and H. A. Wells, one, P. N. Reberg taking second in all of them.

George L. Lorenz was high gun for Coquille, scoring 44 out of a possible 50, while W. N. Ekblad was high gun for Marshfield, scoring 41 out of a possible 50.

On Marshfield and Coquille participated in yesterday's shoot, the Bandon gunners failing to show up.

The scores out of a possible 50 were:

Marshfield Team.	
F. A. Laise	26
J. W. Gardiner	27
W. N. Ekblad	41

NEW KIND OF APPLE.

North Yakima Man Has Produced Entirely New Variety. (Special to The Times)

NORTH YAKIMA, Wash., May 28.—W. W. Scott, of Fruitvale, has succeeded in producing an apple of an entirely new variety, according to the chief pomologist. He has been selling it as a Hubbardston and Nonesuch, but it is suggested he give it a distinctive name, as it is entirely new in the apple world.

Old Apple Made Over. WATSONVILLE, May 28.—What was believed to be a new grade of apple produced here for some time in limited quantities, proves to be an improved variety of the "Seek-no-Further," a fruit developed about 100 years ago by a New York orchardist. The apple has a flavor all its own and is especially fine for eating purposes.

VANCE LAUNCHED.

SAN FRANCISCO, May 28.—A new steamer building by the Craig shipbuilding company at Long Beach for the Hammond Lumber Company was launched last Thursday and named the Edgar H. Vance. She will be used in the coast lumber trade.

The new vessel is 340 feet long, 44 feet beam and 22 feet draft. Her capacity is 5000 tons and she will be able to carry 2,500,000 feet of lumber.

U. S. JOBS IN UTAH.

Special to The Times. WASHINGTON, May 29.—It is announced here that the appointment of Aquila Nebeker as United States Marshal for Utah has been practically decided upon, while Noble Warrum will succeed Arthur L. Thomas as Postmaster at Salt Lake. Thomas has held office in Utah, as Secretary of State, Governor and Postmaster, since 1887.

WRITES ABOUT EUROPEAN TRIP

Frank H. Wickman Making Auto Tour of Continent—Tells of Canal Country

The following letter from Frank A. Wickman, formerly of Empire, who is now concluding his musical course in Germany, and who is now making a three months' auto trip through Europe, will be of interest to his many Coos Bay friends:

"Have had such an interesting trip since I last wrote you. Will try and describe it to you. We left here Saturday at 1:30. Mrs. Winters, Mrs. Irvin, Mr. Cornell, myself and the chauffeur. We drove to 'Burg', a small town about 80 miles from Berlin. Burg is located in a section of Germany known as the 'Spree-wald.' Here the river Spree divides up into over 200 canals, which cut the country up into small areas, the canals taking the place of streets. Some of the country is cleared, and then, again, the canals run through beautiful woods. It is a beautiful country. The drive up to Burg is beautiful. The roads are perfect, and lined on both sides the whole way with fruit trees, and they were in full blossom. You can imagine how beautiful it was. We took our lunch with us, and stopped and ate it, on the banks of a beautiful lake. It was a glorious day, and the lake was smooth as glass. The wonderful stillness of it all seemed like music to the soul, after the awful noises of Berlin. We passed through many quaint and interesting little towns, arriving in 'Burg' about five. Cleaned up, had tea, and then went for a ride up the canal. Instead of rowing, a man 'poles' you up and down the canals. The canals are so narrow and shallow in places, they can't row, so the man stands in the back of the boat, and shoves you along with a long pole. That is why they speak of 'polling' through the Spree-wald. Same back and had supper at the hotel. It was a small country hotel, but unusually clean. Each had separate rooms at the large cost of \$40 each room. Slept well and was up early, going into town in the machine to see the peasants go to church. It was a sight I will never forget. Everywhere you looked, there was a long procession of peasants, dressed in their peculiar Spree-wald costumes, coming toward the church. The costumes are made of every conceivable combination of colors, and this effect when several hundred were standing together was most picturesque. They congregated in front of the church, the women on one side of the street and the men on the other. The men come in regulation black suits, some with high silk hats, which look out of place on the wearer, but the women are practically all in the Spree-wald costume that has been worn for centuries in that part of the country. At 9 o'clock the church bell rang, and they all silently went into the church. It was really a wonderful opportunity to see these home-loving, wholesome people, keeping up the customs of their grandfathers and great-grandfathers. We then drove around for awhile and were back at the hotel at 10, when we started on a five hour polling trip through the numerous canals down to a small place called Lubeau, where the chauffeur met us. It was a warm Summers day, and the country is beautiful. For a couple of hours we went through a dense forest, the trees practically shutting out all sunlight from the canal. Passed through many little villages whose principal street was a canal we were traversing. Stopped in one of the villages for dinner, and arrived in Lubenau at four. It was a beautiful experience. The man poled five or six hours for 10 marks (\$2.50) 50c a piece. From Lubenau into Berlin is 68 miles, and we did it in less than two hours. It was a beautiful ride winding in and out among the full bloomed fruit trees.

"The Spree-wald trip is one everyone should take."

CEREMONY OF NOVEL WEDDING

GRANDDAUGHTER OF POET LONG-FELLOW IS SOCIALIST AND COMPOSES FORM FOR HER MARRIAGE AT BOSTON, MASSACHUSETTS.

BOSTON, Mass., May 30.—Della F. Dana, granddaughter of the poet Longfellow, will wed Robert H. Hutchinson, a fellow Socialist, at Manchester-by-the-sea next month and immediately following will go to New Zealand to study conditions.

A ceremony has been devised by the bride for use at the wedding. Instead of promising to obey, here is what Miss Dana will recite: "I, Della F. Dana, take you, Robert H. Hutchinson, as my lawful husband, and promise faithfully to fulfill toward you all the obligations of the married state, and I hope to be a true comrade and helpmate; as a symbol thereof, I give you this ring."

Miss Dana is a close student of eugenics and says she is in every way fitted to be a wife and mother.

BOY LOST POISON PUMP.

Doctor Hunts Whole Town Over While His Patient Suffers.

BROWNSVILLE, Minn., May 30.—The only stomach pump in this village having been appropriated by the small son of Dr. Francis Duffey to pump out his launch, James P. Collieran, 60 years old, who took by mistake a dose of medicine intended for a horse, had a narrow escape from death.

The medicine contained a quantity of poison and on discovery of the mistake the town was scoured for the stomach pump. Finally "Jimmy" Duffy, aged 19, was found calmly using it to empty the water out of his boat. The pump was taken from the boy and Collieran's life was saved.

WOMAN OPERATOR WEDS.

"First Wireless Girl" Quits Field for Domestic Duties.

SPOKANE, Wash., May 29.—Miss Nellie O'Farrell, of San Francisco, who has gained considerable notice as the first woman wireless operator in the world, has retired from the operators' field to assume domestic duties.

Miss O'Farrell became a bride at Our Lady of Lourdes Catholic Church, the bridegroom being John Cowberby, manager for the last year of the British Columbia Telephone Company at Grand Forks, B. C. They will leave Tuesday morning for the north and after passing a short honeymoon at Kootenai Lake will make their home in Grand Forks, B. C.

SAN FRANCISCO ELKS' OUTING.

Leave on Four Days' Jaunt in One of the Finest Trains Ever Run.

SAN FRANCISCO, May 29.—In one of the finest special trains ever assembled, San Francisco Lodge No. 3, B. P. O. E., 160 members and their ladies, will leave this evening for a four days' stay at Lake Tahoe, arriving there tomorrow morning. The party will cross the lake to Tallac, where the time will be spent and where many amusements have been provided.

BRITISH SEAMEN'S STRIKE.

General Walkout Scheduled for Next Month.

LONDON, May 29.—Early next month a general strike of British seamen is scheduled, the date being kept secret. This follows a refusal for a national conciliation board to regulate conditions. Tom Mann, who organized the great strike two years ago, has been engaged to direct matters and the signal for the walkout will be given by Havelock Wilson, president of the union.

PORTLAND Y. M. C. A.

Largest Number of Graduates Ever Recorded at Y. M. C. A.

PORTLAND, Or., May 29.—One hundred and sixty students received certificates of completion of courses at the annual educational rally of the Young Men's Christian Association here today. More than 300 certificates were issued, many students receiving them in more than one course. It is the largest number ever recorded in a Y. M. C. A. commencement.

Dr. E. P. Cubberly, of the department of education at Stanford University, California, a widely-known educator, spoke on the subject, "Some Marks of Education."

GRASSHOPPERS IN NEW MEXICO.

Line is 18 Miles Long and Has a Front of Five Miles.

AMARILLO, Texas, May 29.—Traveling northeastward, an army of grasshoppers five miles wide and 18 miles long, is reported in northeastern New Mexico. It is reported that millions of grasshoppers seem to spread as they travel and also the appearance of smaller bodies of grasshoppers in sections of West Texas have caused fear of a general grasshopper pest in the Southwest, especially in Texas, Western Oklahoma and New Mexico. The New Mexico column is between Elida and Texline.

It is reported they are entirely denuding the land of grass as well as destroying all kinds of foliage. Stock, especially sheep, have been left in a starving condition by lack of pasturage after the grasshoppers passed.

Government, state and railroad experts have combined to fight the grasshoppers.

MAKE MATCHES ALL SUMMER.

CHICO, Cal., May 29.—Instead of closing during the summer as usual, the Diamond Match Company announces a continuous run this season.
