People mean business on this project and can go ahead construct just as soon as we get the preliminary surveys, of ways, etc., that they require. I have no connection with the other parties mentioned in your paper, in fact, do not know them.

When I go to Marshfield in the few weeks with my parties in New York, will notify you in time, and arrange to meet some Coos Bay people.

At any time there is any article of interest in your Coos Bay paper, you would send me a copy, and some very interesting articles in same. Again thanking you for your kindness, and hoping to the pleasure of meeting you in person very shortly, I beg to remain,

The tug Locust, from San Francisco to Puget Sound, arrived in here this morning to make temporary repairs after having been aided by the steamer Alliance yesterday off Rogue River. Captain "Scantling" Bill Roberts, well known on the Bay, and Captain Hughes are on her. Attorney-General McReynolds After Tobacco Combine—Scores Old Decision

(By Associated Press to Coos Bay Times.)

WASHINGTON, D. C., June 4.—Attorney General McReynolds has a plan to cure some alleged evils of the "tobacco trust," which he believes the Supreme Court's dissolution did not reach. It is to tax the output of tobacco factories on a sliding scale in such a way that big manufacturers will pay more and more as the output increases. It is said the Attorney General has talked the "plans over with the President and cabinet and shortly will submit it to Chairman Simmons, of the Senate Finance Committee.

McReynolds today declared that he had always regarded the final decree intended to dissolve the tobacco trust as an obvious subterfuge and a miscarriage of justice and if there were any proper or any just way by which he could cure the evil, he would do it.

BIG HARBOR PROJECT.

(Special to The Times.)

OAKLAND, Cal., June 4.—Today in Oakland will be held an important meeting by delegates from this city, Alameda, Berkeley, and Point Richmond, at which action will be taken on a report compiled by Lieutenant-Colonel Thomas H. Rees, a United States Army engineer, which contemplates an expenditure of \$25,000,000 by the Federal Government for improving 19 miles of waterfront from the Oakland estuary to San Leandro Bay.

Colonel Rees has made surveys for a channel 600 feet in width from the estuary to Point Richmond, with a protecting fill 600 feet beyond it, thus forming an inner harbor. The channel will form a passage from deep water to the present inner harbor and then extend parallel to the short front of Oakland, Emeryville, Berkeley and Richmond, ending with an outer harbor at Point Richmond.

A cut-off canal will connect San Leandro Bay with the harbor and open up a vast amount of property for manufacturing sites. Preliminary meetings have been held, but no action has been taken.

NICARAGUAN CANAL FOR U. S.

(By Associated Press to Coos Bay Times.)

Perpetual Franchise Insured by Wilson Decision.

WASHINGTON, June 4.—The United States will secure perpetual and exclusive franchise for the building of an interoceanic canal through Nicaragua and also a naval station, together with several small islands on the Pacific Coast of that country. This is insured through a decision just reached by the Wilson administration to support a treaty negotiated in the closing days of the Taft administration between this country and Nicaragua. It was learned today that Secretary Bryan has asked the Senate committee on foreign relations to ratify the treaty now pending before it, with only one or two minor changes.

Through the ratification of this treaty, the Nicaraguan route will be forever closed to every nation except the United States.

Now that Secretary Bryan, with the weight of the Wilson Administration, has decided to stand behind the treaty, there is no doubt that it will be ratified by the Senate. It will have the support of most of the Republicans, and Bryan's request will undoubtedly swing

Federal Troops Forced to Evacuate Owing to Shortage of Ammunition

(By Associated Press to Coos Bay Times.)

WASHINGTON, June 4.—Army officers and diplomats foresee in the rebel capture of Matamoras a tremendous advantage for the Carranza Constitutionalists fighting to overthrow the Huerta government. Agents of Carranza in this country have been accumulating vast quantities of munition of war awaiting the capture of a port of entry. Neutrality laws of the United States practically cut off all supplies from the Constitutionalists. With Matamoras in their possession the rebels will have a gateway. At the State Department today there were no evidences that the prospects of recognition of the Huerta government had changed.

(By Associated Press to Coos Bay Times.)

BROWNSVILLE, Tex., June 4.—Matamoras, an important border port of entry, fell into the hands of the Mexican Constitutionalists early today after a battle that continued several hours yesterday. The Federal defenders ran short of ammunition and slipped away quietly leaving the rebels in control. The last stand was made at 3 o'clock this morning, the defenders having been in the trenches 19 hours without rest or food and ammunition exhausted, so it was not difficult for the Constitutionalists to invade the city a few hours later.
